## **Habermas Autonomy And Solidarity Interviews With Jurgen Habermas:**

**Autonomy and Solidarity** Jürgen Habermas, 1992-07-17 Over the last half decade or so Jürgen Habermas has increasingly employed the interview format both as a means of presenting his changing views on philosophical topics in an accessible way and as a means of debating current social and political issues This new expanded edition of *Autonomy and Solidarity* includes an additional five interviews in which Habermas discusses such themes as the history and significance of the Frankfurt School the social and political development of post war Germany the moral status of civil disobedience the implications of the Historians Dispute and the function of national identity in the modern world Never before published autobiographical material covering Habermas early years at the Frankfurt Institute for Social Research is followed by an extended philosophical interrogation of his latest thinking on the relations between ethics morality and law With an extended introduction by Peter Dews exploring the status and prospects of Critical Theory in the light of the recent revolutionary transformations in Europe *Autonomy and Solidarity* should be of interest and value both to newcomers and those already familiar with Habermas thought

**Jürgen Habermas** Peter Dews, 1986 **Habermas between Critical Theory and Liberalism** Kire Sharlamanov, 2024-03-04 This book identifies the turning points in Habermas's work and his transition from one stage to another in the development of his theoretical oeuvre Habermas began his academic career as part of the Frankfurt School but the two key points at which his career changes trajectory are moving from historical materialism to normative idealism and playing with some of the ideas of liberalism Normative idealism is an ahistorical theory that insists on the independence of the normative from material reality severing the connection between base and superstructure that Marx wrote about The break with the basic concepts of Marxism enabled Habermas to build his own discursive critical theory which especially since the end of the 1980s takes the ideas of liberalism seriously This book makes a systematic multidimensional and detailed analysis of Habermas's theoretical oeuvre in two dimensions chronological in the order in which Habermas worked on certain topics and thematic enclosing certain thematic units **Action, Intersubjectivity and Narrative Identity** Vinicio Busacchi, 2019-10-15 The book reconsiders Paul Ricoeur's speculative research from the perspective of a critical hermeneutics understood as a general methodology which is able to work at an interdisciplinary level The specialisation of sciences results in a differentiation of knowledge that determines advancement while also provoking a great increase of complexity and fragmentation As such among the human sciences some problematic disciplines like psychoanalysis sociology and history have not yet found a unified methodological and epistemological structure This book argues that critical hermeneutics may work as a mediatory inter discipline in this regard **A Critical Sense** Peter Osborne, 2013-04-15 A Critical Sense brings together in a single volume the leading figures of contemporary radical theory

Moving freely between philosophy politics and cultural studies it offers a fascinating overview of the lines of thought of today's intellectual left Marxism feminism psychoanalysis and critical theory literary studies deconstruction pragmatism postcolonial and queer theory are discussed in a series of interviews from the journal *Radical Philosophy* Those interviewed are Judith Butler Cornelius Castoriadis Drucilla Cornell Axel Honneth Istvan Meszaros Edward Said Renata Salecl Gayatri Chakravorty Spivak Cornel West Slavoj Zizek For those unfamiliar with the often daunting work of some of today's most important thinkers *A Critical Sense* will offer an ideal introduction for those already acquainted with the writings of the theorists interviewed here the collection will throw new and often surprising light on familiar ground **Reconsidering**

**Habermas's Colonization Thesis** Roderick Condon, 2025-03-31 This book reconsiders Habermas's critique of capitalism as a foundation for a critical theory of neoliberalism Taking criticisms into account the author refines and redevelops Habermas's system lifeworld paradigm in three parts focusing on system lifeworld and communication The exposition unfolds through a new synthesis and convergence from within Habermas's frame of Axel Honneth Niklas Luhmann Talcott Parsons and Karl Marx This synthesis is interwoven with an account of the neoliberal turn such that social theory is historically contextualized and neoliberalism theoretically explained at one and the same time The end result is a reconstruction of the colonization thesis in a new theory of relinguistification advancing a communicative dialectical and reflexive theory of reification

*Reconsidering Habermas's Colonization Thesis* will appeal to scholars of critical theory social theory sociology and cultural studies as well as readers interested in neoliberalism and the critique of capitalism *Supplanting the Postmodern* David

Rudrum, Nicholas Stavris, 2015-09-24 An anthology of key writings on the so called demise of postmodernism and the debates around what might replace it *Dewey's Critical Pragmatism* Alison Kadlec, 2007-01-01 Dewey's Critical Pragmatism

centers on the idea that Dewey is a more radical thinker than he has previously be credited as His critical pragmatism has a great deal to offer contemporary deliberative democracy theory and practice **Profiles in Contemporary Social Theory**

Anthony Elliott, Bryan S Turner, 2001-07-23 This comprehensive book provides an indispensable introduction to the most significant figures in contemporary social theory Grounded strongly in the European tradition the profiles include Michel Foucault Jürgen Habermas Roland Barthes Jean Baudrillard Pierre Bourdieu Zygmunt Bauman Martin Heidegger Frederic Jameson Richard Rorty Nancy Chodorow Anthony Giddens Stuart Hall Luce Irigaray and Donna Haraway In guiding students through the key figures in an accessible and authoritative fashion the book provides detailed accounts of the development of the work of major social theorists and charts the relationship between different traditions of social cultural and political thought **Emancipation and Illusion** Marie Fleming, 2010-11-01 *The Neo-primitivist Turn* Victor

Li, 2006-01-01 In recent years the concept of the primitive has been the subject of strong criticism it has been examined unpacked and shown to signify little more than a construction or projection necessary for establishing the modernity of the West The term primitive continues however to appear in contemporary critical and cultural discourse begging the question

Why does primitivism keep reappearing even after it has been uncovered as a modern myth In The Neo primitivist Turn Victor Li argues that this contentious term was never completely banished and that it has in fact reappeared under new theoretical guises An idealized conception of the primitive he contends has come to function as the ultimate sign of alterity Li focuses on the works of theorists like Jean Baudrillard Jean Fran ois Lyotard Marianna Torgovnick Marshall Sahlins and J rgen Habermas in order to demonstrate that primitivism continues to be a powerful presence even in those works normally regarded as critical of the concept Providing close readings of the ways in which the premodern or primitive is strategically deployed in contemporary critical writings Li s interdisciplinary study is a timely and forceful intervention into current debates on the politics and ethics of otherness the problems of cultural relativism and the vicissitudes of modernity *The Promise of Pragmatism* John Patrick Diggins, 1995-05-15 For much of our century pragmatism has enjoyed a charmed life holding the dominant point of view in American politics law education and social thought in general After suffering a brief eclipse in the post World War II period pragmatism has enjoyed a revival especially in literary theory and such areas as poststructuralism and deconstruction In this sweeping critique of pragmatism and neopragmatism one of our leading intellectual historians traces the attempts of thinkers from William James to Richard Rorty to find a response to the crisis of modernism John Patrick Diggins analyzes the limitations of pragmatism from a historical perspective and dares to ask whether America s one original contribution to the world of philosophy has actually fulfilled its promise In the late nineteenth century intellectuals felt themselves in the grips of a spiritual crisis This confrontation with the acids of modernity eroded older faiths and led to a sense that life would continue in the awareness of absences knowledge without truth power without authority society without spirit self without identity politics without virtue existence without purpose history without meaning In Europe Friedrich Nietzsche and Max Weber faced a world in which God was dead and society was succumbing to structures of power and domination In America Henry Adams resigned from Harvard when he realized there were no truths to be taught and when he could only conclude Experience ceases to educate To the American philosophers of pragmatism it was experience that provided the basis on which new methods of knowing could replace older ideas of truth Diggins examines how in different ways William James Charles Peirce John Dewey George H Mead and Oliver Wendell Holmes Jr demonstrated that modernism posed no obstacle in fields such as science education religion law politics and diplomacy Diggins also examines the work of the neopragmatists Jurgen Habermas and Richard Rorty and their attempt to resolve the crisis of postmodernism Using one author to interrogate another Diggins brilliantly allows the ideas to speak to our conditions as well as theirs Did the older philosophers succeed in fulfilling the promises of pragmatism Can the neopragmatists write their way out of what they have thought themselves into And does America need philosophers to tell us that we do not need foundational truths when the Founders already told us that the Constitution would be a machine that would depend more upon the counterpoise of power than on the claims of knowledge Diggins addresses these and other

essential questions in this magisterial account of twentieth century intellectual life It should be read by everyone concerned about the roots of postmodernism and its links to pragmatism and about the forms of thought and action available for confronting a world after postmodernism Mimesis and Reason Gregg Daniel Miller,2011-09-23 Complicating the standard interpretation of Habermas as a proceduralist Mimesis and Reason uncovers the role that mimesis or imitation plays as a genuinely political force in communicative action Through a penetrating examination of Habermas s use of themes and concepts from Plato George Herbert Mead and Walter Benjamin Gregg Daniel Miller reconstructs Habermas s theory to reveal a new postmetaphysical articulation of reason that lays the groundwork for new directions in political theory

**Critical Theories in Education** Thomas Popkewitz,Lynn Fendler,1999-03-16 This book examines critical theories in education research from various points of view in order to critique the relations of power and knowledge in education and schooling practices It addresses social injustices in the field of education while at the same time questioning traditional standards of critical theory Drawing on recent social and lit **Culture/Power/History** Nicholas B. Dirks,Geoffrey H. Eley,Sherry B. Ortner,2021-04-13 The intellectual radicalism of the 1960s spawned a new set of questions about the role and nature of the political in social life questions that have since revolutionized nearly every field of thought from literary criticism through anthropology to the philosophy of science Michel Foucault in particular made us aware that whatever our functionally defined roles in society we are constantly negotiating questions of authority and the control of the definitions of reality Such insights have led theorists to challenge concepts that have long formed the very underpinnings of their disciplines By exploring some of the most debated of these concepts culture power and history this reader offers an enriching perspective on social theory in the contemporary moment Organized around these three concepts Culture Power History brings together both classic and new essays that address Foucault s new economy of power relations in a number of different contestatory directions Representing innovative work from various disciplines and sites of study from taxidermy to Madonna the book seeks to affirm the creative possibilities available in a time marked by growing uncertainty about established disciplinary forms of knowledge and by the increasing fluidity of the boundaries between them The book is introduced by a major synthetic essay by the editors which calls attention to the most significant issues enlivening theoretical discourse today The editors seek not only to encourage scholars to reflect anew on the course of social theory but also to orient newcomers to this area of inquiry The essays are contributed by Linda Alcoff Cultural Feminism versus Post Structuralism Sally Alexander Women Class and Sexual Differences in the 1830s and 1840s Tony Bennett The Exhibitionary Complex Pierre Bourdieu Structures Habitus Power Nicholas B Dirks Ritual and Resistance Geoff Eley Nations Publics and Political Cultures Michel Foucault Two Lectures Henry Louis Gates Jr Authority White Power and the Black Critic Stephen Greenblatt The Circulation of Social Energy Ranajit Guha The Prose of Counter Insurgency Stuart Hall Cultural Studies Two Paradigms Susan Harding The Born Again Telescandals Donna Haraway Teddy Bear Patriarchy Dick Hebdige After the Masses Susan McClary Living to

World* Kenneth Wain, 2004 Lifelong learning has become a key concern as the focus of educational policy has shifted from  
mass schooling toward the learning society The shift started in the mid 1960s and early 1970s under the impetus of a group  
of writers and adult educators gravitating around UNESCO with a humanist philosophy and a leftist agenda The vocabulary  
of that movement was appropriated in the 1990s by other interests with a very different performativist agenda emphasizing
