Conversation Analysis and a Cultural-Historical Approach Anna Filipi, Christina Davidson, Nikolay Veresov, 2023-08-03 This book explores the distinct approaches of conversation analysis CA and cultural historical theory to investigations of childhood storytelling with children aged 15 months to nine years The authors draw on a rich set of data that depict children's interactions with parents teachers and peers as they talk together after having read stories as they recount their experiences as they enact stories through play and as they participate in school activities in science and in literacy tasks The book demonstrates the matters that concern CA and cultural historical theory and explore in what ways comparisons can work to inform research design to understand how far the boundaries of approaches can be stretched and the challenges in attempting to do so In this process the authors focus on adding to knowledge about children's rich interactional competencies and development as they tell stories and on providing research based evidence for parent teacher and teacher educator practices
