Haiti History The Gods:

Haiti, History, and the Gods Joan Dayan, Colin Dayan, 1998-03-10 Reprint Originally published Berkeley University of California Press 1995 **Haiti, History, and the Gods** Joan Dayan, Colin Dayan, 1998-03-10 Reprint Originally published Berkeley University of California Press 1995 *Exile and Post-1946 Haitian Literature* Martin Munro, 2013-08-15 Exile and Post 1946 Haitian Literature provides readers with an excellent introduction to recent Haitian literature one of the richest literary traditions in the Americas Martin Munro focuses on works written after 1946 a period in which exile has become the dominant theme in Haitian literature Using this notion of Haitian writing as a literature of exile Munro analyzes key novels by the most important figures of each generation of the past sixty years including Jacques Stephen Alexis Ren Depestre mile Ollivier Dany Laferriere and Edwidge Danticat **Haitian History** Alyssa Goldstein Sepinwall, 2013 Despite Haiti's proximity to the United States and its considerable importance to our own history Haiti barely registered in the historic consciousness of most Americans until recently Those who struggled to understand Haiti's suffering in the earthquake of 2010 often spoke of it as the poorest country in the Western hemisphere but could not explain how it came to be so In recent years the amount of scholarship about the island has increased dramatically Whereas once this scholarship was focused on Haiti's political or military leaders now the historiography of Haiti features lively debates and different schools of thought Even as this body of knowledge has developed it has been hard for students to grasp its various strands Haitian History presents the best of the recent articles on Haitian history by both Haitian and foreign scholars moving from colonial Saint Domingue to the aftermath of the 2010 earthquake It will be the go to one volume introduction to the field of Haitian history helping to explain how the promise of the Haitian Revolution dissipated and presenting the major debates and questions in the field today Vodou in the Haitian Experience Celucien L. Joseph, Nixon S. Cleophas, 2016-05-05 One glaring lacuna in studies of Haitian Vodou is the scarcity of works exploring the connection between the religion and its main roots traditional Yoruba religion Discussions of Vodou very often seem to present the religion in vacuo as a sui generis phenomenon that arose in Saint Domingue and evolved in Haiti with no antecedents What is sorely needed then is more comparative studies of Haitian Vodou that would examine its connections to traditional Yoruba religion and thus illuminate certain aspects of its mythology belief system practices and rituals This book seeks to bridge these gaps Vodou in the Haitian Experience studies comparatively the connections and relationships between Vodou and African traditional religions such as Yoruba religion and Egyptian religion Such studies might enhance our understanding of the religion and the connections between Africa and its Diaspora through shared religious patterns and practices The general reader should be mindful of the transnational and transcultural perspectives of Vodou as well as the cultural socio economic and political context which gave birth to different visions and ideas of Vodou The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian narrative and psyche The contributors of this book examine this constructed narrative from a

multicultural voice that engages critically the discipline of ethnomusicology drama performance art anthropology ethnography economics literature intellectual history philosophy psychology sociology religion and theology Vodou is also studied from multiple theoretical approaches including queer feminist theory critical race theory Marxism postcolonial criticism postmodernism and psychoanalysis

When God Lost Her Tongue Janell Hobson, 2021-09-30 *When God Lost Her Tongue* explores historical consciousness as captured through the Black feminist imagination that re-centers the perspectives of Black women in the African Diaspora and revisits how Black women's transatlantic histories are reimagined and politicized in our contemporary moment Connecting select historical case studies from the Caribbean the African continent North America and Europe while also examining the retelling of these histories in the work of present day writers and artists Janell Hobson utilizes a Black feminist lens to rescue the narratives of African descended women which have been marginalized erased forgotten and/or misremembered African goddesses crossing the Atlantic with captive Africans Women leaders igniting the Haitian Revolution Unnamed Black women in European paintings African women on different sides of the door of no return during the era of the transatlantic slave trade Even ubiquitous Black queens heralded and signified in a Beyoncé music video or a Janelle Monáe lyric And then there are those whose names we will never forget like the iconic Harriet Tubman This critical interdisciplinary intervention will be key reading for students and researchers studying African American women Black feminisms feminist methodologies Africana studies and women and gender studies

Disasters, Vulnerability, and Narratives Kasia Mika, 2018-07-17 This book uses narrative responses to the 2010 Haiti earthquake as a starting point for an analysis of notions of disaster vulnerability reconstruction and recovery The turn to a wide range of literary works enables a composite comparative analysis which encompasses the social political and individual dimensions of the earthquake This book focuses on a vision of an open ended future otherwise than as a threat or fear Mika turns to concepts of hinged chronologies slow healing and remnant dwelling Weaving theory with attentive close readings the book offers an open ended framework for conceptualising post disaster recovery and healing These processes happen at different times and must entail the elimination of compound vulnerabilities that created the disaster in the first place Challenging characterisations of the region as a continuous catastrophe this book works towards a bold vision of Haiti's and the Caribbean's futures The study shows how narratives can extend some of the key concepts within discipline bound approaches to disasters while making an important contribution to the interface between disaster studies postcolonial ecocriticism and Haitian Studies

Dharma of the Dead Christopher M. Moreman, 2018-07-10 With the increased popularity of zombies in recent years scholars have considered why the undead have so captured the public imagination This book argues that the zombie can be viewed as an object of meditation on death a memento mori that makes the fact of mortality more approachable from what has been described as America's death denying culture The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity's search for meaning in an increasingly global and secular world Zombies are analyzed in the context of Buddhist thought in contrast with social and religious critiques from other works

Thinking in Public Celucien L. Joseph, 2017-04-25 *Thinking in Public* provides a probing and provocative meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain's public intellectualism and cultural criticism embodied in his prolific writings The book provides a

reconceptualization of Roumain's intellectual itineraries against the backdrop of two public spheres: a national public sphere Haiti and a transnational public sphere the global world. Second, it remaps and reframes Roumain's intellectual circuits and his critical engagements within a wide range of intellectual traditions, cultural and political movements, and philosophical and religious systems. Third, the book argues that Roumain's perspective on religion, social development, and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and a secular humanist approach to faith and human progress. Finally, the book advances the idea that Roumain's concept of development is linked to the theories of democratic socialism, relational anthropology, distributive justice, and communitarianism. Ultimately, this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place.

Eroticism, Spirituality, and Resistance in Black Women's Writings Donna Aza Weir-Soley, 2017-06-13

Provocative articulates the importance of embodied erotic spirituality to black female subjectivity and empowerment. Tulsa Studies in Women's Literature Sets out to reclaim the right of black women to their sexual and erotic expression untainted by the stereotypes and disparagements that have historically confined them. African American Review Captures one of the most challenging concerns of scholars who engage black women's literature: culture and theory, the ongoing quest to locate a form of black female sexual agency that neither withers in the chilly lake of sexual repression nor explodes in the heat of hypersexual stereotypes. MELUS Journal of the Society for the Study of the Multi-Ethnic Literature of the United States Successfully undertakes an analysis of how black women writers have used overlapping narrative depictions of sexuality and spirituality to recast the denigrated black female body and rewrite an empowered and fully actualized black female subject. Candice M. Jenkins, author of *Private Lives: Proper Relations: Regulating Black Intimacy*. Weir-Soley speaks with an authority that comes from real knowledge of investment in and attention to the details of the African cosmologies and textual complexities she unearths. Carine Mardorossian, SUNY Buffalo The most original and significant contributions are the often brilliant readings of Morrison, Adisa, and Danticat. The work is riveting both methodologically and critically. Leslie Sanders, York University Western European mythology and history tend to view spirituality and sexuality as opposite extremes. But sex can be more than a function of the body and religion more than a function of the mind, as exemplified in the works and characters of such writers as Zora Neale Hurston, Toni Morrison, Opal Palmer Adisa, and Edwidge Danticat. Donna Weir-Soley builds on the work of previous scholars who have identified the ways that black women's narratives often contain a form of spirituality rooted in African cosmology which consistently grounds their characters' self-empowerment and quest for autonomy. What she adds to the discussion is an emphasis on the importance of sexuality in the development of black female subjectivity, beginning with Hurston's *Their Eyes Were Watching God* and continuing into contemporary black women's writings. Writing in a clear, lucid, and straightforward style, Weir-Soley supports her thesis with close readings of various texts, including Hurston's *Their Eyes Were Watching God*.

and Morrison's *Beloved*. She reveals how these writers highlight the interplay between the spiritual and the sexual through religious symbols found in Voodoo, Santería, Candomblé, Kumina, and Hoodoo. Her arguments are particularly persuasive in proposing an alternative model for black female subjectivity. *The Faces of the Gods* Leslie G. Desmangles, 2000-11-09

Vodou, the folk religion of Haiti, is a by-product of the contact between Roman Catholicism and African and Amerindian traditional religions. In this book, Leslie Desmangles analyzes the mythology and rituals of Vodou, focusing particularly on the inclusion of West African and European elements in Vodouisants' beliefs and practices. Desmangles sees Vodou not simply as a grafting of European religious traditions onto African stock but as a true creole phenomenon born out of the oppressive conditions of slavery and the necessary adaptation of slaves to a New World environment. Desmangles uses Haitian history to explain this phenomenon, paying particular attention to the role of the seventeenth and eighteenth-century maroon communities in preserving African traditions and the attempts by the Catholic-educated elite to suppress African-based superstitions. The result is a society in which one religion, Catholicism, is visible and official; the other, Vodou, is unofficial and largely secretive. *Afro-Caribbean Religions* Nathaniel Samuel Murrell, 2010-01-25

A comprehensive introduction to the Caribbean's African-based religions. *Migrant Revolutions* Valerie Kaussen, 2008-01-01

Migrant Revolution offers an overview of twentieth-century Haitian literature, placing its rich tradition in the context of transnational anti-colonial politics. Kaussen argues that the anti-colonial politics of Haitian modernist literature is based on the philosophies of human rights that drove the Haitian Revolution and further that Haitian literary modernity has continually challenged the world colonial order, including the contemporary era of globalization.
