Halakhah in a Theological Dimension David Novak, 1985 **The Cambridge Companion to Jewish Theology** Steven Kepnes, 2020-12-17 The Cambridge Companion to Jewish Theology offers an overview of Jewish theology an aspect of Judaism that is equal in importance to law and ethics Covering the period from antiquity to the present the volume focuses on what Jews believe about God and also about the relation of God to humans and the world Parts I and II cover exciting new research in Jewish biblical and rabbinic theology medieval philosophy Kabbalah mysticism and liturgy Parts III and IV turn to modern theology with an exploration of works by leading figures such as Rabbi Abraham I Kook Franz Rosenzweig and Emmanuel Levinas as well as the relation of theology to issues such as feminism and the Holocaust and the relation of Judaism to other world religions In Part V the book explores how the insights of analytic philosophy have been integrated with Jewish theology

Indulgences: Luther, Catholicism, and the Imputation of Merit Mary C. Moorman, 2017-08-01 At the five hundredth anniversary of Martin Luther's Ninety Five Theses and the dawn of the Protestant movement *Indulgences Luther Catholicism and the Imputation of Merit* sets forth a revised theological interpretation of the Church's practice of indulgences Author Mary C Moorman argues that Luther's sola fide theology merely absolutized the very logic of indulgences which he sought to overthrow while indulgences in their proper context remain an irreducible witness to the Church's corporate nuptial covenant with Christ by which penitents are drawn into deeper fellowship with the Church and the Church's Lord As Robert W Shaffern Professor of Medieval History at the University of Scranton writes in his foreword to *Indulgences* Mary Moorman's book joins a number of recent scholarly studies that revise substantially the old convictions about indulgences She is mostly interested in how theological thinking about indulgences should be done today with of course the help that patristic medieval and early modern authorities might lend She brings to bear a broad range of primary and secondary sources on the issue of indulgences and constructs an impressive series of covalent images with which to understand the role of indulgences in today's Christian Church

Understanding the Evolving Meaning of Reason in David Novak's Natural Law Theory Jonathan L. Milevsky, 2022-01-31 David Novak is widely recognized as one of the most prominent Jewish thinkers in North America today and his most important contribution to philosophy has been his work on natural law This book is an exploration of the shift in the content and context of that theory by reference to the metaphysical meaning that Novak ultimately assigns to reason This change is then analyzed within the framework of Novak's covenantal theology and his developing view of redemption in particular Through this examination this book highlights the contribution of Novak's natural law theory to the continuing debate over the role of reason in Judaism

Religious Human Rights in Global Perspective John Witte Jr., Johan D. van der Vyver, 2023-12-11 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and

practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University Religious Human Rights in Global Perspective John Witte, Johan D. van der Vyver, 1996 The legal traditions of Christianity Judaism and Islam have contributed much to the cultivation and violation of religious human rights around the world In this volume Desmond Tutu Martin Marty and twenty leading scholars offer an authoritative assessment of these contributions and challenge people of all faiths to adopt golden rules of religious liberty **Christian Ethics Introduced** Hans O. Tiefel, 2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged

The Influence of Abraham Cohen de Herrera's Kabbalah on Spinoza's Metaphysics Miquel Beltran, 2016-06-21 In this book the author seeks to find historiographical and textual evidence that Abraham Cohen de Herrera's main kabbalistic work *Puerta del Cielo* influenced Spinoza's metaphysics as it is expounded in his later work the *Ethica* Many of the most important ontological topics maintained by the philosopher like the concept of the first cause as substance the procession of the infinite modes the subjective or metaphorical reality of the attributes and the two different understandings of God were anticipated in Herrera's mystical treatise Both shared a particular consideration of panentheism that entails acosmism This influence is proven through a comparative examination of the writings of both authors as well as a detailed research on previous Jewish philosophical thought **International Society** David R. Mapel, Terry Nardin, 2021-03-09 In a time of eroding sovereignty and resurgent nationalism this collection provides a searching investigation of the moral foundations of the international order Drawing on diverse philosophical and theological perspectives the contributors debate the character of international society the authority of international law and institutions and the demands of international justice In a series of philosophical essays each followed by a critical commentary the book considers the contributions of legal positivism natural law Kantian ethics contractarian theory and moral cosmopolitanism to the discussion of law and justice in

international society It also includes commentaries by experts in Jewish Christian and Islamic moral theology and a concluding chapter that compares and contrasts the views presented without seeking to adjudicate their differences Because of its comprehensive approach and the diversity of its viewpoints the volume serves as an introduction to the topic and as a resource for scholars journalists policy makers and anyone else who wants to understand better the range of moral perspectives that underlies discussion of the current international order In addition to the editors the contributors are Brian Barry Chris Brown John Charvet Richard Friedman Robert P George Sohail Hashmi Pierre Laberge David Miller David Novak Max L Stackhouse Fernando R Tes n and Frederick G Whelan Conversion to Judaism in Jewish Law Walter Jacob, Moshe Zemer, 1994 This essays explore conversion to Judaism and the issues connected with it in the late twentieth century

Law, Politics, and Morality in Judaism Michael Walzer, 2009-02-09 Jewish legal and political thought developed in conditions of exile where Jews had neither a state of their own nor citizenship in any other What use then can this body of thought be today to Jews living in Israel or as emancipated citizens in secular democratic states Can a culture of exile be adapted to help Jews find ways of being at home politically today These questions are central in Law Politics and Morality in Judaism a collection of essays by contemporary political theorists philosophers and lawyers How does Jewish law accommodate or fail to accommodate the practice of democratic citizenship What range of religious toleration and pluralism is compatible with traditional Judaism What forms of coexistence between Jews and non Jews are required by shared citizenship How should Jews operating within halakha Jewish law and Jewish history judge the use of force by modern states The authors assembled here by prominent political theorist Michael Walzer come from different points on the religious secular spectrum and they differ greatly in their answers to such questions But they all enact the relationship at issue since their answers while based on critical Jewish texts also reflect their commitments as democratic citizens The contributors are Michael Walzer David Biale the late Robert M Cover Menachem Fisch Geoffrey B Levey David Novak Aviezer Ravitzky Adam B Seligman Suzanne Last Stone and Noam J Zohar **Past Imperatives** Louis E. Newman, 2012-02-01 Past Imperatives

explores the nature and development of Jewish ethics by analyzing three important sets of issues the relationship between Jewish law and ethics the relationship between Jewish ethics and theology and the problems and prospects for constructing a contemporary Jewish ethic The penetrating and provocative essays are drawn from a number of fields including legal theory literary theory and theory of religion These studies illuminate many previously uninvestigated aspects of Jewish biomedical ethics covenant theology and textual interpretation in Judaism By exploring these issues within the larger context of historical and theoretical work in religious studies Past Imperatives moves beyond previous work in Jewish ethics which has largely sought to offer moral guidance from a Jewish perspective This volume boldly confronts the fact that Judaism encompasses many sometimes contradictory ethical perspectives and investigates their theological underpinnings how they have developed and how they differ from other moral and or religious perspectives Covenantal Thinking Paul E.

Nahme, Yaniv Feller, 2024-03-01 The philosophy and theology of David Novak one of the most prominent and creative contemporary Jewish thinkers grapples with Judaism Christian theology the tradition of natural law and the Western philosophical canon Never shying away from contested ethical and religious themes Novak's original insights and intellectual spirit have spanned voluminous publications and inspired Jewish Christian and Muslim thinkers to engage concepts such as religious liberty covenantal morality and the importance of theological reasoning Written primarily by scholars in the field of Jewish thought *Covenantal Thinking* is a collection of essays dedicated to Novak's work The book examines topics such as election natural law Jewish political thought Zionism and the relation between reason and revelation This collection is unique because it includes Novak's replies to his critics including his clarifications of his philosophical and theological positions Offering a vital contribution to contemporary Jewish thought *Covenantal Thinking* illuminates Novak's contributions as a scholar who trained conversed with and inspired the next generation of philosophical theologians **The Election of Israel**

David Novak, 1995-05-04 In this book David Novak conducts an historical philosophical and theological reflection on the central Jewish doctrine of Israel's election by God also known as the idea of the chosen people Historically he analyses the great change in modern Jewish thought brought about by Spinoza's inversion of the doctrine that it was not God who elected Israel but Israel who elected God The development of that inversion is illustrated by the thought of the German philosopher theologian Hermann Cohen Philosophically Novak explores the ontological implications of the two differing theologies of election Theologically he argues for the correlation of election and revelation and maintains that a theology of election is required in order to deal with two central questions namely who are the Jews and how are Jews to be related to the world The constructive picture which results leads to a fresh understanding of Jewish modernity Tradition in the Public Square

David Novak, Randi Rashkover, 2008-03-12 *Tradition in the Public Square* collects key essays by David Novak one of the world's leading contemporary Jewish thinkers Novak's insightful writings in this reader address the inextricable relationship between philosophical and theological matters and present the implications of his philosophical theology for social ethics and theopolitics One of the marks perhaps the most important mark of a great thinker is the ability to respond to the conditions and problems of one's time by changing the terms of the conversation By this standard David Novak ranks as one of the great American theologians of our time His work a response to the primary issue confronting modern Judaism namely what it means to be a part of Western culture yet separate from its secularized form of life has helped to make Jewish theology and philosophy thriving fields in North American university life from the introduction The Seed of Abraham Michael M. C.

Reardon, Pesach Wolicki, 2025-06-25 The inspiration for this volume emerged from years of friendship dialogue and collaboration between a Jewish rabbi and Christian professor Historically Jewish Christian relations has been a fraught sphere of inquiry Despite sharing a set of Scriptures the relationship between Christians and Jews has been marked by distrust misunderstandings and exaggerated theological differences which taken together appear to create an indissoluble

wedge between the two faiths This volume brings the two faiths into fruitful and productive dialogue by unearthing recondite yet highly significant features shared between them Beyond being an academic exercise the aspiration undergirding this project is to bridge the gap between Jews and Christians and by doing so chart a path forward toward rapprochement reconciliation and Jewish Christian unity

Covenant Marriage in Comparative Perspective John Witte (Jr.), Eliza Ellison, 2005-10-20 Covenant marriages requiring premarital counseling and tighter strictures on divorce have recently emerged in some American states At the same time the doctrine of covenant has reemerged in religious circles as a common way to map the spiritual dimensions of marriage Covenant Marriage in Comparative Perspective brings together eminent scholars from Jewish Orthodox Catholic Protestant and Islamic religious traditions as well as experts on American covenant marriage The introduction carries out an unprecedented comparison of contract and covenant in Jewish Christian and Muslim understandings of marriage The rest of the book elucidates various facets of marriage from the perspectives of both jurisprudence and religion producing an enlightening integrated picture of the legal and spiritual dimensions of marriage

Covenantal Rights David Novak, 2009-11-02 Covenantal Rights is a groundbreaking work of political theory a comprehensive philosophically sophisticated attempt to bring insights from the Jewish political tradition into current political and legal debates about rights and to bring rights discourse more fully into Jewish thought David Novak pursues these aims by presenting a theory of rights founded on the covenant between God and the Jewish people as that covenant is constituted by Scripture and the rabbinic tradition In doing so he presents a powerful challenge to prevailing liberal and conservative positions on rights and duties and opens a new chapter in contemporary Jewish political thinking For Novak covenantal rights are rooted in God's primary rights as creator of the universe and as the elector of a particular community whose members relate to this God as their sovereign The subsequent rights of individuals and communities flow from God's covenantal promises which function as irrevocable entitlements This presents a sharp contrast to the liberal tradition in which rights flow above all from individuals It also challenges the conservative idea that duties can take precedence over rights since Novak argues that there are no covenantal duties that are not backed by correlative rights Novak explains carefully and clearly how this theory of covenantal rights fits into Jewish tradition and applies to the relationships among God the covenanted community and individuals This work is a profound and provocative contribution to contemporary religious and political theory

Ethics at the Center Elliot N. Dorff, 2024-03 Ethics at the Center culls the best of Rabbi Elliot N. Dorff's pioneering thinking in Jewish ethics over nearly five decades Dorff shows that our response to moral issues depends ultimately on our conceptions of the nature of human beings and God how Jewish law theology prayer history and community should also define and motivate Jewish responses to moral issues and how the honorable and divergent stances of Western philosophy and other religions about moral living shed light on Judaism's distinctive standpoints From there Dorff applies Judaism's ethics to real life abortion post Roe v Wade sexual orientation and human dignity avoiding harm in communication

playing violent or defamatory video games modern war ethics handling donations of ill gotten gain after the fact In conclusion he explores how Jewish family and community holidays and rituals theology study and law have moral import as well Dorff s personal introduction to each chapter reflects on why and when he wrote its contents its continuing relevance and if and if so how he would now change what he wrote earlier Readers will experience not only his evolving ethical thought but many facets of the person and the Jew that Dorff is today *The Sanctity of Human Life* David Novak,2009-04-29

Heated debates are not unusual when confronting tough medical issues where it seems that moral and religious perspectives often erupt in conflict with philosophical or political positions In *The Sanctity of Human Life* Jewish theologian David Novak acknowledges that it is impossible not to take into account the theological view of human life but the challenge is how to present the religious perspective to nonreligious people In doing so he shows that the two positions the theological and the philosophical aren t as far apart as they may seem Novak digs deep into Jewish scripture and tradition to find guidance for assessing three contemporary controversies in medicine and public policy the use of embryos to derive stem cells for research socialized medicine and physician assisted suicide Beginning with thinkers like Plato Aristotle Kant and Nietzsche and drawing on great Jewish figures in history Maimonides Rashi and various commentators on the Torah written law and the Mishnah oral law Novak speaks brilliantly to these modern moral dilemmas *The Sanctity of Human Life* weaves a rich and sophisticated tapestry of evidence to conclude that the Jewish understanding of the human being as sacred as the image of God is in fact compatible with philosophical claims about the rights of the human person especially the right to life and can be made intelligible to secular culture Thus according to Novak the use of stem cells from embryos is morally unacceptable the sanctity of the human person and not capitalist or socialist approaches should drive our understanding of national health care and physician assisted suicide violates humankind s fundamental responsibility for caring for one another Novak s erudite argument and rigorous scholarship will appeal to all scholars and students engaged in the work of theology and bioethics
