No matter how hard she tried to remember the dream, she could never get any further than that. The feeling it left her with was cold, foreboding, and empty, but why that was, she could never say. The year is 1942. Hitler's Third Reich was taking over the world, and I was right there with him, one of the darkest and deadliest secrets under his employ. But little did I know, it was also to be the year of my death. Mine and a million others. My dreams tried to warn me of what was coming, but fate refused to be stopped, and my only hope is that RF 783 will save us all from the nightmares that plague us. BookPage A dazzling debut novel set against the backdrop of the Chinese Exclusion Act about a Chinese girl fighting to claim her place in the 1880s American West. Daiyu never wanted to be like the tragic heroine for whom she was named, revered for her beauty and cursed with heartbreak. But when she is kidnapped and smuggled across an ocean from China to America, Daiyu must relinquish the home and future she imagined for herself. Over the years that follow, she is forced to keep reinventing herself to survive. From a calligraphy school to a San Francisco brothel to a shop tucked into the Idaho mountains, we follow Daiyu on a desperate quest to outrun the tragedy that chases her. As anti-Chinese sentiment sweeps across the country in a wave of unimaginable violence, Daiyu must draw on each of the selves she has been, including the ones she most wants to leave behind, in order to finally claim her own name and story. At once a literary tour de force and a groundbreaking work of historical fiction, *Four Treasures of the Sky* announces Jenny Tinghui Zhang as an indelible new voice. Steeped in untold history and Chinese folklore, this novel is a spellbinding feat. *The Sky People* S.M. Stirling, 2010-04-27. Marc Vitrac was born in Louisiana in the early 1960s, about the time the first interplanetary probes delivered the news that Mars and Venus were teeming with life, even human life. At that point, the Space Race became the central preoccupation of the great powers of the world. Now, in 1988, Marc has been assigned to Jamestown, the US Commonwealth base on Venus near the great Venusian city of Kartahown. Set in a countryside swarming with sabertooths and dinosaurs, Jamestown is home to a small band of American and allied scientist-adventurers. But there are flies in this ointment, and not only the Venusian dragonflies with their yard-wide wings. The biologists studying Venus's life are puzzled by the way it not only resembles that on Earth but

is virtually identical to it The EastBloc has its own base at Cosmograd in the highlands to the south and relations are frosty And attractive young geologist Cynthia Whitlock seems impervious to Marc s Cajun charm Meanwhile at the western end of the continent Teesa of the Cloud Mountain People leads her tribe in a conflict with the Neanderthal like beastmen who have seized her folk s sacred caves Then an EastBloc shuttle crashes nearby and the beastmen acquire new knowledge and AK47 s Jamestown sends its long range blimp to rescue the downed EastBloc cosmonauts little suspecting that the answer to the jungle planet s mysteries may lie there among tribal conflicts and traces of a power that made Earth s vaunted science seem as primitive as the tribesfolk s blowguns As if that weren t enough there s an enemy agent on board the airship Extravagant and effervescent The Sky People is alternate history SF adventure at its best At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
