Schulman, Patricia Smith, 2018-09-28 *The Preparation and Trial of Medical Malpractice Cases* treats a case as a continuous process from interviewing the client to closing argument. It offers comprehensive coverage of the questions surrounding health maintenance organizations including case law on the right to sue an HMO as well as its participating physicians. You'll find discussion of how to recognize a meritorious case, the doctrine of alternative liability, the evidentiary value of FDA approval or non approval, the continuing treatment doctrine, state statutes regarding motion practice, malpractice liability of alternative medical practitioners, the admissibility of evidence comparing physicians' risk statistics to those of other physicians, use of expert testimony to establish *res ipsa loquitur* in negligence, the modified standard of proximate cause when a physician's negligence exacerbates a patient's existing condition, violation of the duty to disclose information, contributory negligence in informed consent, distinguishing between medical malpractice and ordinary negligence, liability of nurses and more. Appendices demonstrate how to analyze a medical brief, depose and examine the defendant physician and elicit testimony from your own expert witness. Also included are a sample Bill of Particulars, a sample jury charge and a list of Web sites to assist your medical research.

*The Five Senses and Beyond* Jennifer L. Hellier, 2016-11-07 How do our human senses work and help us interact with our surroundings and what happens when these senses malfunction or are impaired? This book provides in depth information that answers these questions and more. *The Five Senses and Beyond* The Encyclopedia of Perception supplies students and general readers with accurate up to date information about the human senses. It explains the big five senses in detail as well as lesser known but important senses, perceptions such as balance, kinesthesia, temperature and pain. After a helpful introduction, this reference work provides A to Z cross referenced entries on hundreds of topics in the realm of human perception that allow students to find and digest information quickly and draw connections between related topics. Through the use of activity sidebars, readers will also be able to explore the workings of the senses firsthand, lending an element of interactivity to this accessible encyclopedia. A convenient end of volume glossary provides definitions of unfamiliar terms.
