La formación del feudalismo en la Península Ibérica Abilio Barbero, Marcelo Vigil, Marcelo Vigil Pascual, 2015

"Romanización" y "Reconquista" en la Península Ibérica. Nuevas perspectivas María José Hidalgo de la Vega, Dionisio Pérez Sánchez, Manuel J. Rodríguez Gervás, 1998 **Índice Histórico Español , Diccionario Akal de Historiadores españoles contemporáneos** Gonzalo Pasamar Alzuria, Ignacio Peiró Martín, 2002-05-24 Obra de referencia dedicada a las principales figuras de las distintas ramas de la investigación histórica en España con mención de los aspectos biográficos académicos y bibliográficos más importantes de su carrera **La formación de la sociedad feudal en Cantabria** Carmen Díez Herrera, 1990 **La formación del feudalismo en la península ibérica** Abilio Barbero, 1982

Historia e historiadores de la España medieval Peter Linehan, 2011 *Ejército, sociedad y política en la Península Ibérica entre los siglos VII y XI* Amancio Isla Frez, 2010 **Historia de la España Medieval** Monsalvo Antón, José María, 2018-12-22 4 ed 2023 El proyecto de Historia de España Digital de la Universidad de Salamanca se estructura en varias etapas concretadas en otros tantos volúmenes El que ahora ofrecemos es el referido al período medieval que lleva por título Historia de la España medieval Este coordinador piensa que no merece siquiera justificar la idoneidad de un título que incluye un término España ante el que algunos todavía muestran reticencias Es sabido que estas han nacido de prejuicios aventurados y puramente ideológicos o bien de un desconocimiento tanto de la propia Edad Media y sus discursos de identidad colectiva como de la tradición historiográfica contemporánea Ni Alfonso X tuvo reparo alguno a la hora de escribir una extraordinaria Estoria de España de igual modo que antes se había hablado De Rebus Hispaniae ni los mejores medievalistas de los siglos XIX XX y XXI han hallado objeción seria para referirse a la realidad histórica de España en aquel período más allá de un obvio reconocimiento de la pluralidad de estados y reinos que existían en la época como es bien sabido La Historia de la España medieval recorre un largo lapso cronológico que arranca en la Tardoantigüedad y llega hasta la época de los Reyes Católicos abarcando así el período histórico desde el 400 al 1500 aproximadamente Se han estructurado los capítulos más o menos temáticamente pero dentro de tres grandes ámbitos cronológicos la Alta la Plena y la Baja Edad Media Con algunas matizaciones eso sí Por ejemplo la época hispanovisigoda se considera etapa previa a la Alta Edad Media propiamente dicha Mientras que el último capítulo que es un complemento sobre la Edad Media a través de la arqueología tampoco se corresponde como es lógico con una etapa determinada de la Edad Media Y en cuanto a la historia de Al-Andalus se ha estructurado en dos y no tres períodos a diferencia de la compartimentación ternaria de los reinos y territorios cristianos Los autores de los capítulos son los profesores de la Facultad de Geografía e Historia de la Universidad de Salamanca adscritos al área de Historia Medieval Fernando Luis Corral Jos Luis Martín Martín Iaki Martín Viso Jos María Monsalvo Antón Luis Serrano Piedecabras Fernández Soledad Tena García y Ángel Vaca Lorenzo En los dos capítulos que cada uno ha asumido el autor ha redactado el texto buscado imágenes enlaces y bibliografía La disponibilidad de recursos sobre todo en red es muy

diferente según los temas Los aspectos de tipo económico y social son los que han ofrecido más dificultad a la hora de encontrar imágenes o enlaces pertinentes y expresivos Es preciso al respecto mencionar la ayuda que para mejorar este déficit en tales casos ha prestado Raúl Moreno Almendral brillante becario de colaboración del Departamento de Historia Medieval Moderna y Contemporánea e historiador ya pues acaba de culminar su licenciatura con unos resultados académicos espectaculares solo comparables a su compromiso y seriedad como buen colaborador en la obra **La Península Ibérica en la Edad Media (700-1250)** ECHEVARRÍA ARSUAGA Ana , MARTÍN VISO Iñaki , 2020-10-19 Esta obra destinada a los estudiantes de historia y a los interesados en el tema abarca un amplio periodo cronológico comenzando por la conquista islámica y hasta el momento en el que la Península Ibérica queda dividida políticamente en los cinco reinos que habrán de marcar la etapa siguiente conocida como Baja Edad Media Cada capítulo de la obra se dedica a un siglo aproximadamente alternando los reinos cristianos y al Andalus para proporcionar una idea clara de la evolución en el tiempo de las instituciones formas de vida y dinastías de cada una de las sociedades así como de las relaciones y enfrentamientos que se establecieron entre los distintos poderes en cada momento El énfasis en la Península Ibérica como concepto no solo geográfico sino también cultural ayuda a resolver la dialéctica entre los conceptos de Hispania España y al Andalus así como a incorporar cada uno de los espacios territoriales que a lo largo de este agitado periodo fluctuaron en los límites de la Península y más allá de ella en las islas y el norte de África

Feudal Society Marc Bloch, 2014-04-16 Marc Bloch said that his goal in writing Feudal Society was to go beyond the technical study a medievalist would typically write and dismantle a social structure In this outstanding and monumental work which has introduced generations of students and historians to the feudal period Bloch treats feudalism as living breathing force in Western Europe from the ninth to the thirteenth century At its heart lies a magisterial account of relations of lord and vassal and the origins of the nature of the fief brought to life through compelling accounts of the nobility knighthood and chivalry family relations political and legal institutions and the church For Bloch history was a process of constant movement and evolution and he describes throughout the slow process by which feudal societies turned into what would become nation states A tour de force of historical writing Feudal Society is essential reading for anyone interested in both Western Europe's past and present With a new foreword by Geoffrey Koziol

Tópicos y realidades de la Edad Media Eloy Benito Ruano, 2000 Breve historia del feudalismo David Barreras Martínez, Cristina Durán Gómez, 2013-09-02 A través de las fuentes más novedosas conocer un turbio periodo histórico repleto de invasiones conflictos civiles y guerras que apasionar a cualquier amante de la historia medieval Todo literatura Breve historia del feudalismo desmonta los viejos tópicos sobre este sistema de gobierno y ayudar al lector a comprender que no sólo fue un periodo decadente y que campesino no era exactamente sinónimo de esclavo Panoplia de libros Una obra que arroja luz sobre una de las etapas más desconocidas pero más interesantes de la historia de la humanidad En las postrimerías del S V el Imperio romano agonizaba y era sustituido por pequeños estados de procedencia germánica la inestabilidad de estos estados

provocaba un continuo estado de guerra y de invasión entre los pueblos los hombres más débiles eligen libremente confiar su protección a los más fuertes a cambio de unas tasas Breve Historia del Feudalismo nos narra la historia de la compleja metamorfosis de Europa y de las complejas relaciones horizontales entre la nobleza y verticales entre esta y el campesinado y a través de esa historia podremos derribar tópicos como la identificación de campesinado y esclavitud David Barreras y Cristina Durán utilizan las fuentes más novedosas para explicar un complejo sistema en el que los reyes eran reyes en un territorio y vasallos en otro o en el que coexistieron estados y regiones feudalizados con otros que no lo hicieron El objetivo de los autores es aglutinar las diversas tesis que sobre el régimen feudal existen y mostrarlas al lector para que pueda comprenderlas claramente y así iluminar un poco lo que históricamente se conoce como la época oscura Razones para comprar la obra Usando documentación actual y heterogénea los autores consiguen desmontar viejos dogmas sobre la Europa feudal como la esclavitud del campesinado

Poblamiento y estructuras sociales en el norte de la Península Ibérica. Siglos VI-XIII Iñaki Martín Viso, 2000-01-01 **Christian Spain and Portugal in the Early Middle Ages** Wendy Davies, 2019-12-06 A collection of papers in English by one of the foremost historians of the social and economic structure of medieval rural communities who here examines local societies in rural northern Spain and Portugal in the early middle ages Principal themes are scribal practice and the analysis of charter texts gift sale and wealth justice and judicial procedures Always with a concern for personal relationships and interactions for mobility for decision making and for practice a sense of land and landscape runs throughout The Spanish and Portuguese experience has seemed irrelevant to the great debates of early medieval European history that occupy historians But Spain and Portugal shared the late Roman heritage which influenced much of western Europe in the early middle ages and by the tenth century records and practice in Christian Iberia still shared features with the Carolingian world This book offers a substantial corpus of Iberian evidence to set beside Frankish Italian English and Scandinavian material and thereby makes it possible for northern Iberia to play a part in these great debates of medieval European history CS1084 **Friendship in Medieval Iberia** Antonella Liuzzo

Scorpo, 2016-04-15 Private and public relationships frequently labelled as friendships have always played a crucial role in human societies Yet over the centuries ideas and meanings of friendship transformed adapting to the political and social climates of different periods Changing concepts and practices of friendship characterized the intellectual social political and cultural panorama of medieval Europe including that of thirteenth century Iberia Subject of conquests and Reconquest land of convivencia but also of political instability as well as of secular and religious international power struggles the articulation of friendship within its borders is a particularly fraught subject to study Drawing on some of the encyclopaedic vernacular masterpieces produced in the scriptorium of The Wise King Alfonso X of Castile 1252-84 this study explores the political religious and social networks inter faith and gender relationships legal definitions as well as bonds of tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstrates how

the values and meanings of amicitia often associated with classical Roman Visigothic and Eastern traditions were transformed to adapt to Alfonso X's cultural projects and political propaganda. This book contributes to the study of the history of emotions and cultural histories of the Middle Ages while also emphasizing how Iberia was a peripheral but still vital ring in a chain which linked it to the rest of Europe while also occupying a central role in the historical and cultural developments of the Western Mediterranean.

Feudal Society Marc Lőpold Benjamin Bloch, 2002-11 *Feudal Society* discusses the social and economic conditions in which feudalism developed providing a deep understanding of the processes at work in medieval Europe.

Power and Identity in the Middle Ages Huw Pryce, John Watts, 2007-07-12 An engaging collection of thought provoking essays examining power struggles and political identities in medieval Britain featuring work from leading historians in the field.

Celebrating the work of the late Rees Davies a towering figure in the historiography of this period the book focuses on his interests opening up new perspectives on the political social and cultural history of the middle ages.

History and the Historians of Medieval Spain Peter Linehan, 1993 A study of medieval Spain and its historians from the chroniclers of the Middle Ages to the revisionists of the post Franco era. This book reveals history in the making during the 800 years between the Roman period and what is now described as the birth of the modern state.

Windows on Justice in Northern Iberia, 800-1000 Wendy Davies, 2016-03-31 Although it has a rich historiography and from the late ninth century is rich in textual evidence northern Iberia has barely featured in the great debates of early medieval European history of recent generations. Lying beyond the Frankish world in a peninsula more than half controlled by Muslims Spanish and Portuguese experience has seemed irrelevant to the Carolingian Empire and the political fragmentation or realignment that followed it. But Spain and Portugal shared the late Roman heritage which influenced much of western Europe in the early middle ages and by the tenth century records and practice in the Christian north still shared features with parts farther east. What is interesting in the wider European context is that some of the so called characteristics of the Carolingian world the public court collective judgment are as characteristic of the Iberian world. The suggestion that they disappeared in the Frankish world to be replaced by private mechanisms has played a major role in debates about the changing nature of power in the central middle ages what happened in judicial courts has been central to the grand narratives of Duby and successive historians for they are a powerful lens into the very real issues of politics and power. Looking at the practice of judicial courts in Europe west of Frankia allows us to think again about the nature of the public identifying all the records of that practice allows us to adjust the balance between monastic and lay activity. What these show is that peasants like other lay people used the courts to seek redress and gain advantages. Records were not entirely framed nor practice entirely dominated by ecclesiastical interests.
