*The Labyrinth Key* Howard V. Hendrix,2006-01-31 In a secret war waged in worlds both virtual and real the fates of nations depend on the definitive weapon And that weapon is knowledge knowledge to die for The race is heating up between the U S and China to develop a quantum computer with infinite capabilities to crack any enemy's codes yet keep secure its own secrets The government that achieves this goal will win a crucial prize No other computer system will be safe from the reach of this master machine Dr Jaron Kwok was working for the U S government to build such a computer But in a posh hotel in Hong Kong a Chinese policewoman sifts through the bizarre ashlike remains of what's left of the doctor With the clock ticking alliances will be forged and there are those who will stop at nothing to discover what the doctor knew As the search for answers intensifies it becomes chillingly clear that the quantum computer both sides so desperately want will be more powerful more dangerous than anyone could have ever imagined For in the twenty first century machines become gods gods become machines and the once impossible now lies within reach The key to unlimited knowledge will create the ultimate weapon of mass destruction or humanity's last chance to save itself [Clockwork Phoenix 2](#) Claude Lalumière,Leah
