modernism as a theory in practice of lived experience in cultures organized around consumption   In the Name of Justice Weifang He,2012-11-05 Of all the issues presented by China s ongoing economic and sociopolitical transformation none may ultimately prove as consequential as the development of the Chinese legal system Even as public demand for the rule of law grows the Chinese Communist Party still interferes in legal affairs and continues in its harsh treatment of human rights lawyers and activists Both the frequent occurrences of social unrest in recent years and the growing tension between China s various interest groups underline the urgency of developing a sound and sustainable legal system As one of China s most influential law professors He Weifang has been at the forefront of the country s treacherous path toward justice and judicial independence for over a decade Among his many remarkable endeavors was a successful petition in 2003 that abolished China s controversial regulations permitting the internment and deportation of urban vagrants bringing to an end two decades of legal discrimination against migrant workers His bold remarks at the famous New Western Hills Symposium in 2006 including his assertion that China s party state structure violates the PRC Constitution are considered a watershed moment in the century long movement for a constitutional China With In the Name of Justice He presents his critical assessment of the state of Chinese legal reform In addition to a selection of his academic writings this unique book also includes many of He Weifang s public speeches media interviews and open letters providing additional insight into his dual roles as thinker and practitioner in the Chinese legal world Among the topics covered are judicial independence judicial review legal education capital punishment and the legal protection of free speech and human rights The volume also offers a historical review of the evolution of Chinese traditional legal thought enhanced by cross country comparisons A proponent of reform rather than revolution He believes only true constitutionalism can guarantee social justice and enduring stability for China He Weifang has argued for two decades that rule of law however inconvenient at times to some of those who govern must be embraced because it is ultimately the most reliable protector of the interests of the country of the average citizen and in fact even of those who govern from the Foreword by John L Thornton chairman Brookings Institution Board of Trustees and Professor and Director of Global Leadership at Tsinghua University What struck me and shocked me as a foreign visitor was not only that the entire discussion was explicitly critical of the Chinese Communist Party for its resistance to any meaningful judicial reform but also that the atmosphere was calm reasonable and marked by a sense of humor and sophistication in the expression of ideas from the Introduction by Cheng Li director of research and senior fellow at the John L Thornton China Center at Brookings   **On Qian Zhongshu's Conceptualization of Translation** Chang, Chung-An,2025-10-14 This book brings new perspectives and insights to the discipline of translation studies at a time when Western theories dominate its main discourse By highlighting the significant contribution of Chinese scholar Qian Zhongshu which encompasses a theoretical probing of the process and product of translation in both China and the West the author demonstrates how Qian s reconceptualization of the concept of translation expands the discourse to include and integrate

concepts from the history of translation in China The concept of huajing which is one of these cultural perspectives developed by Qian transcends the conventional view of translation as a linguistic transfer envisioning it instead as a dynamic realm where encounters with meaning between the textual worlds of China and the West can take place Through a meticulous analysis of Qian s profound though stylistically fragmentary commentaries the author reveals how his comparative vision creates connections by breaking down linguistic and cultural barriers challenging notions of untranslatability that often hinder cross cultural exchange and anticipating an inclusive and globalized understanding of translation so urgently needed today **Proceedings of the 2nd International Conference on Educational Development and Social Sciences (EDSS 2025)** Rekha Koul,Samsilah Roslan,Mohd Nazri Bin Abdul Rahman,Catherine Lee Cheng Ean,2025-06-16 This is an open access book The 2nd International Conference on Educational Development and Social Sciences EDSS 2025 aims to bring together scholars educators and policymakers to discuss the dynamic interplay between educational advancements and social sciences As our world faces unprecedented challenges and transformative changes the role of education in shaping societies becomes ever more critical Building on the inaugural conference s success EDSS 2025 seeks to extend the dialogue to include more interdisciplinary approaches and international perspectives Contrary to the previous edition which focused largely on educational theories and initial empirical findings this year s conference is set to delve into more practical applications and innovative methodologies With a clearer emphasis on global trends and digitalization in education EDSS 2025 aims to explore how emerging technologies and pedagogical innovations can address existing educational inequities and enhance learning experiences across diverse contexts The primary objective of EDSS 2025 is to provide a collaborative platform where experts from various fields can share advanced research discuss best practices and develop strategies to tackle real world educational and social issues By fostering cross disciplinary interactions the conference aspires to generate actionable insights and effective solutions that can be implemented at both community and policy levels Furthermore the conference aims to highlight success stories and scalable models from different parts of the world promoting the transfer of knowledge and fostering international cooperation 寒夜 巴金,2002 Like Pa Chin s earlier novel Family Cold Nights is a masterpiece both as fiction and as social commentary First published in 1947 Cold Nights is set in Chungking at the end of World War II It describes the frustration of incompatible relationships among mother son and daughter in law as they deteriorate amidst the social weariness and ennui which pervaded China in the 1940s Victimized by circumstances and by themselves they are average people seeking average lives their plight is shared with the rest of humanity and is depicted with compassion tempered with unflinching realism **Global Literary Criticism** Hongxin Jiang,2022-09-30 This timely book offers uplifting examples of major figures in Chinese and Western civilization from ancient to modern times who learned from and influenced each other Rather than emphasizing cultural differences this inspiring text highlights successful dialogue commonalities and mutual influences in this regard Readers familiar with the Western canon
