Whose History? Linda Symcox, 2002 In the 1990s the debate over what history and more importantly whose history should be taught in American schools resonated through the halls of Congress the national press and the nation s schools Politicians such as Lynne Cheney Newt Gingrich and Senator Slade Gorton and pundits such as Rush Limbaugh John Leo and Charles Krauthammer fiercely denounced the findings of the National Standards for History which

subsequently became a major battleground in the nation's ongoing struggle to define its historical identity. To help us understand what happened, Linda Symcox traces the genealogy of the National History Standards Project from its origins as a neo-conservative reform movement to the drafting of the Standards through the 18 months of controversy and the debate that ensued and the aftermath. Broad in scope, this case study includes debates on social history, world history, multiculturalism, established canons, national identity, cultural history, and liberal education. Symcox brilliantly illuminates the larger issue of how educational policy is made and contested in the United States, revealing how a debate about our children's education actually became a struggle between competing political forces.

Pillars in the History of Biblical Interpretation, Volume 1 Stanley E. Porter, Sean A. Adams, 2016-08-17 This two-volume set is part of a growing body of literature concerned with the history of biblical interpretation. The ample introduction first sets key players into the story of the development of the major strands of biblical interpretation since the Enlightenment, identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed. Volume 1 contains fourteen essays on twenty-two interpreters who were principally active before 1980, and volume 2 has nineteen essays on twenty-seven of those who were active primarily after this date. Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field. This is followed by an often new application of the scholar's theory. By focusing on the individual scholars and their work, the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live. This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed.

Cambridge History of Christianity: Volume 1, Origins to Constantine Margaret M. Mitchell, Frances M. Young, K. Scott Bowie, **Jonathan Edwards's Philosophy of History** Avihu Zakai, 2009-02-09 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment. As theologian and philosopher, Edwards has long been a towering figure in American intellectual history. Nevertheless, and despite Edwards's intense engagement with the nature of time and the meaning of history, there has been no serious attempt to explore his philosophy of history. Offering the first such exploration, Zakai considers Edwards's historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations. Zakai analyzes the ideological origins of Edwards's insistence that the process of history depends solely on God's redemptive activity in time as manifested in a series of revivals throughout history, reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time. In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency, Edwards strove to re-establish God's preeminence within the order of time. Against the de-Christianization of history and removal of

divine power from the historical process he sought to re enthrone God as the author and lord of history and thus to re enchant the historical world Placing Edwards s historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America **The Cambridge**

Material Mystery Karmen MacKendrick, 2021-08-17 Material Mystery considers three apparently anthropocentric myths that are central to Abrahamic religions those of the primal human the incarnated and possibly divine redeemer and the resurrected body At first glance these stories reinforce a human centered theology and point to a very anthropomorphic God Taking them seriously seems to ignore the material turn in the humanities entirely with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts or that the point of the rest of the world is to further human consumption But it is possible Karmen MacKendrick shows to read these figures through a particular tradition that emerges from the Hebrew Bible the tradition of Wisdom as a creative force Wisdom texts are common across the ancient Near East As the idea of creative Wisdom develops from antiquity into the middle ages it gathers philosophical influences from a range of philosophical traditions This exuberantly promiscuous impurity intellectual artistic and theological generates new interpretive possibilities In these interpretations each human like figure opens up onto the world's matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom's combination of care and delight

The Bible in History David W. Kling, 2004-08-12 No one can doubt that the Bible has exerted a tremendous influence on Western civilization since the dawn of Christianity But few of us have considered the precise nature of that influence in particular historical contexts In this book David Kling traces the fascinating story of how specific biblical texts have at different times emerged to be the inspiration of movements that have changed the course of history By examining eight such pivotal texts Kling elucidates the ways in which sacred texts continue to shape our lives as well as our history Among the passages he discusses are Upon this rock I will build my church Matthew 16:18 which

inspired the formation of the papacy and has served as its foundation for centuries The righteous will live by faith Romans 1 17 which caught the imagination of Martin Luther and sparked the Protestant Reformation Go to Pharaoh and say to him Thus says the Lord Let my people go so that they may worship me Exodus 8 1 which has played an important and diverse role in African American history from early slave spirituals through the modern civil rights movement and beyond There is no longer Jew or Greek there is no longer slave or free there is no longer male and female for all of you are one in Christ Jesus Galatians 3 28 which has been adopted by feminists as a rallying cry in the battle for women s ordination Each of the historical episodes he explores from the beginning of Christian monasticism to the emergence of Pentecostalism is evidence of the dynamic interplay between Scripture and the social and cultural context in which it is interpreted Kling s innovative study of this process shows how sacred texts can give life to social movements and how powerful social forces can give new meaning to Scripture
