The Foundations of American Diplomacy, 1775-1823** Samuel Flagg Bemis, The Law of Nations in Early American Foreign Policy Willem Theo Oosterveld, 2016-01-12 In The Law of Nations in Early American Foreign Policy Willem Theo Oosterveld provides the first general study of international law as interpreted and applied by the generation of the Founding Fathers A mostly neglected aspect in the historiography of the early republic this study argues that international law was in fact an integral part of the Revolutionary creed Taking the reader from colonial debates about the law of nations to the discussions about slavery in the early 19th century this study shows the zest of the Founders to conduct foreign policy on the basis of treatises such as Vattel s The Law of Nations But it also highlights the deep ambiguities and sometimes personal struggles that arose when applying international law The Obligation of Empire James J. Hentz, 2021-12-14 Some of the nation s most respected scholars of international affairs examine the debates over U S grand strategy in light of U S security policies and interests in tactical regions around the world The contributors begin by describing the four grand strategies currently competing for dominance of U S foreign policy neo isolationism argues that the United States should not become involved in conflicts outside specifically defined national interests selective engagement proposes that the United States despite its position as the world s only remaining superpower should limit its involvement in foreign affairs cooperative security advocates that the United States is not and should not act as an imperial country primacy asserts that the United States is an empire and therefore it should conduct an expansive foreign policy Focusing on regions that present new challenges to U S grand strategy such as Sub Saharan Africa the Middle East and Latin America the contributors offer the most current examinations of U S policies and assess the effectiveness of competing strategies in each region The Obligation of Empire offers an innovative set of foreign policy initiatives that explore the tensions between global agendas and regionalist approaches Contributors Andrew J Bacevich Doug Bandow Dale Davis Thomas Donnelly James J Hentz Clifford Kiracofe Charles Kupchan Jeffrey Stark S Frederick Starr and Brantley Womack James J Hentz associate

Cunningham, 2001-04-16 Napoleon III's motives for intervening in Mexico in the 1860s were consistent with his foreign policy which was based on his belief that free trade was the best foundation for peace He saw the establishment of a friendly government in Mexico as an opportunity to expand that policy to encompass the world by ensuring European access to American markets and preventing monopoly by the United States His attempts to achieve this however were thwarted by his representatives in Mexico and the suspicions of his neighbours
