**Problems for Feminist Criticism (RLE Feminist Theory)** Sally Minogue, 2012-11-12 Feminist criticism has come a long way in the last twenty years Its development has been rapid its snowball progress picking up elements of structuralism deconstruction and psychoanalytic criticism just as rapidly it has been shedding its own early theories and methodologies Now it is a critical orthodoxy with its own established canonical texts Now is the time then to begin to question that orthodoxy In Problems for Feminist Criticism five women critics seek to do that in a spirit of enquiry whose central point of focus is the literature for which feminist critics have offered a re reading By reference to a wide range of writers from Milton to the contemporary poet with a strong emphasis on the nineteenth century novel the contributors ask what we may be losing from literature by adopting the feminist orthodoxy Each chapter provides a survey of feminist critical approaches to its subject and highlights the inherent problems The book frees the way forward for critics who have found much that is stimulating and revealing in feminist approaches to literature but who find

its proscriptiveness potentially reductive It shows how literature may have the flexibility to absorb and benefit from new critical approaches whilst still retaining its own life never quite to be contained in criticism's theories and methodologies

**Constructing Girlhood through the Periodical Press, 1850-1915** Kristine

Moruzi,2016-05-23 Focusing on six popular British girls periodicals Kristine Moruzi explores the debate about the shifting nature of Victorian girlhood between 1850 and 1915 During an era of significant political social and economic change girls periodicals demonstrate the difficulties of fashioning a coherent consistent model of girlhood The mixed genre format of these magazines Moruzi suggests allowed inconsistencies and tensions between competing feminine ideals to exist within the same publication Adopting a case study approach Moruzi shows that the Monthly Packet the Girl of the Period Miscellany the Girl s Own Paper Atalanta the Young Woman and the Girl s Realm each attempted to define and refine a unique type of girl particularly the religious girl the Girl of the Period the healthy girl the educated girl the marrying girl and the modern girl These periodicals reflected the challenges of embracing the changing conditions of girls lives while also attempting to maintain traditional feminine ideals of purity and morality By analyzing the competing discourses within girls periodicals Moruzi s book demonstrates how they were able to frame feminine behaviour in ways that both reinforced and redefined the changing role of girls in nineteenth century society while also allowing girl readers the opportunity to respond to these definitions

**Toward a Priestly Christology** Adriani Milli Rodrigues,2018-11-02 *Toward a Priestly Christology* is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ s priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent

actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ s priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ s priesthood especially regarding the relationship between the ascended Christ and our Christian life

**Marianne Moore and the Cultures of Modernity** Victoria Bazin, 2016-05-06 Victoria Bazin examines the poetry of Marianne Moore as it is shaped by and responsive to the experience of being a modern woman of living in the aftermath of the First World War of being interpellated as a modern consumer and of writing in the age of mechanical reproduction She argues that Moore s textual collages and syllabic sculptures are based on the cultural clutter or debris of modernity on textual extracts and reproductions on the phantasmagoria of city life revealing something modernism worked hard to conceal its relation to modernity more specifically its relation to the new emerging and expanding mass consumer culture Drawing extensively on archival resources to trace Moore s influences and to describe her own distinctive modernist aesthetic this book argues that it was her feminist adaptation of pragmatism that shaped her poetic response to modernity Moore s use of the quoted fragment is conceptualised in relation not only to Walter Benjamin s philosophical history but also to William James s image of the world as a series of partial stories As such this account of Marianne Moore not only contributes to a greater understanding of the poet and her work but it also offers up a more politicized and historically nuanced understanding of poetic modernism between the wars one that retains a sense of the formal complexities of poetic language and the poet s own ethical imperatives whilst also recognising the material impact of modernity upon the modernist poem This book will appeal therefore not only to scholars already familiar with Moore s poetry but more widely to those interested in modernism and American culture between the wars
