Forgotten Generation French Women Writers Of The Interwar Period:

The Forgotten Generation Jennifer E. Milligan, 1997-04-01 As a wave of open misogyny swept through French literature and society in the aftermath of the Great War a new generation of professional women writers took up pen to redress the situation They disputed the prescriptive social and cultural roles ascribed to women and proposed inspiring new definitions of womanhood Many critics today are oblivious to women s literary achievements during this period which remain subject to severe critical neglect This book analyzes and challenges the way in which these important women writers have been marginalized in the annals of French literary history and offers fresh readings and reappraisals of their thematically and aesthetically innovative works

Forgotten Engagements Angela Kershaw, 2007 Study of the contribution made by women writers to politically committed literature in 1930s France to bring to light the work of female authors of left wing fiction such as Madeleine Pelletier Simone T ry Edith Thomas Henriette Valet and Louise Weiss It shows how women were able to relate to fiction and to politics in inter war France situating the novels within their social historical literary and poltical environment

Creative Women of the "Lost Generation" Kimberly Francis, Margot Irvine, 2023-08-11 This book explores the creative women of the Lost Generation including painters sculptors film makers writers singers composers dancers and impresarios who all pursued artistic careers in the years leading up to during and following World War I These women s stories and the art they created commissioned mobilized as propaganda and performed shed light on the shifting nature of gender norms during this period With the combined knowledge and expertise from different contributors chapters in this book consider how modernist practices continued their development in women s hands during the war through networks forged by and for women artists in the absence of their male colleagues These chapters also reflect on how in many cases the dissolution of these structures after the November 1918 armistice had detrimental consequences for their professional trajectories This book challenges the place creative women currently hold in the historical record while also clarifying how these artists and impresarios contributed to wartime and post war culture This collection of essays will be of great value to scholars interested in social and gender history of the twentieth century as well as historians of the arts through offering nuanced understanding of the essential work of female creative professionals highlighting artistic women s experiences of resistance mourning and reinvention in the shadow of the Great War

Women Artists in Interwar France Paula J. Birnbaum, 2017-07-05 Women Artists in Interwar France Framing Femininities illuminates the importance of the Soci des Femmes Artists Modernes more commonly known as FAM and returns this group to its proper place in the history of modern art In particular this volume explores how FAM and its most famous members Suzanne Valadon Marie Laurencin and Tamara de Lempicka brought a new approach to the most prominent themes of female embodiment the self portrait motherhood and the female nude These women reimagined art s conventions and changed the direction of both art history and the politics of their contemporary art world FAM has been excluded from histories of modern art despite its

prominence during the interwar years Paula Birnbaum's study redresses this omission contextualizing the group's legacy in light of the conservative politics of 1930s France The group's artistic response to the reactionary views and images of women at the time is shown to be a key element in the narrative of modernist formalism Although many FAM works are missing one reason for the lack of attention paid to their efforts Birnbaum's extensive research through archives press clippings and first hand interviews with artists families reclaims FAM as an important chapter in the history of art from the interwar years

Women in Europe between the Wars Angela Kimyongür, 2017-11-30 The central aim of this interdisciplinary book is to make visible the intentionality behind the forgetting of European women's contributions during the period between the two world wars in the context of politics culture and society It also seeks to record and analyse women's agency in the construction and reconstruction of Europe and its nation states after the First World War and thus to articulate ways in which the writing of women's history necessarily entails the rewriting of everyone's history By showing that the erasure of women's texts from literary and cultural history was not accidental but was ideologically motivated the essays explicitly and implicitly contribute to debates surrounding canon formation Other important topics are women's political activism during the period antifascism the contributions made by female journalists the politics of literary production genre women's relationship with and contributions to the avant garde women's professional lives and women's involvement in voluntary associations In bringing together the work of scholars whose fields of expertise are diverse but whose interests converge on the inter war period the volume invites readers to make connections and comparisons across the whole spectrum of women's political social and cultural activities throughout Europe

Impressions from Paris: Women Creatives in Interwar Years France Sylvie Eve Blum-Reid, 2024-01-16 Impressions from Paris studies the contributions of various women artists and writers who lived in Paris during the Interwar Years from the 1920s to 1940 The Roaring Twenties constituted years of experimentation and freedom to test new techniques and lifestyles at a time affected by serious political changes leading to World War II Their trajectories have left traces that can be mapped out studied and addressed today a hundred years later The volume revisits their experiences through various lenses that include art history gender fashion literary analysis psychology philosophy as well as film and food The volume revisits the artistic literary and journalistic contributions of women worldwide including France as they flocked to Paris from the 1920s to 1940 The overall principle lies in the inclusion of female painters visual artists and writers from diverse international and national backgrounds Scholars who participate in the volume explore the possibilities presented in a modern literary and artistic history while building on previous scholarship Two seminal books and a documentary film inspire this project Shari Benstock's *Women of the Left Bank Paris 1900-1940* Texas UP 1986 and Andrea Weiss's *Paris was a Woman Portraits from the Left Bank* HarperSanFrancisco 1995 which in turn produced an eponymous film Greta Schiller Andrea Weiss 1996 These works highlight the community of women artists editors and writers during the interwar years in Paris There is scholarship in the area although most of it is scattered in

single monographs crossing various genres and various languages from recent graphic novels to fiction biographical studies cultural histories as well as scholarly artistic and literary studies *The French Writers' War, 1940-1953* Gisèle Sapiro, 2014-04-23 The French Writers War 1940 1953 is a remarkably thorough account of French writers and literary institutions from the beginning of the German Occupation through France's passage of amnesty laws in the early 1950s To understand how the Occupation affected French literary production as a whole Gisèle Sapiro uses Pierre Bourdieu's notion of the literary field Sapiro surveyed the career trajectories and literary and political positions of 185 writers She found that writers' stances in relation to the Vichy regime are best explained in terms of institutional and structural factors rather than ideology Examining four major French literary institutions from the conservative French Academy to the Comité national des écrivains a group formed in 1941 to resist the Occupation she chronicles the institutions' histories before turning to the ways that they influenced writers' political positions Sapiro shows how significant institutions and individuals within France's literary field exacerbated their loss of independence or found ways of resisting during the war and Occupation as well as how they were perceived after Liberation **Women as Veterans in Britain and France after the First World War** Alison S. Fell, 2018-07-12 This is the story of how women in France and Britain between 1915 and 1933 appropriated the cultural identity of female war veteran in order to have greater access to public life and a voice in a political climate in which women were rarely heard on the public stage The veterans covered by this history include former nurses charity workers secret service agents and members of resistance networks in occupied territory as well as members of the British auxiliary corps What unites these women is how they attempted to present themselves as female veterans in order to gain social advantages and give themselves the right to speak about the war and its legacies Alison S Fell also considers the limits of the identity of war veteran for women considering as an example the wartime and post war experiences of the female industrial workers who led episodes of industrial action **Career Stories** Juliette M. Rogers, 2010-11 In Career Stories Juliette Rogers considers a body of largely unexamined novels from the Belle époque that defy the usual categories allowed the female protagonist of the period While most literary studies of the Belle époque 1880 1914 focus on the conventional housewife or harlot distinction for female protagonists the heroines investigated in Career Stories are professional lawyers doctors teachers writers archeologists and scientists In addition to the one well known woman writer from the Belle époque Colette this study will expand our knowledge of relatively unknown authors including Gabrielle Reval Marcelle Tinayre and Colette Yver who actively participated in contemporary debates on women's possible roles in the public domain and in professional careers during this period Career Stories seeks to understand early twentieth century France by examining novels written about professional women bourgeois and working class heroines and the particular dilemmas that they faced This book contributes a new facet to literary histories of the Belle époque a subgenre of the bildungsroman that flourished briefly during the first decade of the twentieth century in France Rogers terms this subgenre the female berufsroman or novel of women's

professional development Career Stories will change the way we think about the Belle poque and the interwar period in French literary history because these women writers and their novels changed the direction that fiction writing would take in post World War I France
