**Forgotten Memories** Barbara Schave, Barbara Schave Klein, 1993-08-12 Incest is a serious taboo in our culture making it a difficult subject to talk about. For this and other reasons not much is known about how to treat survivors. With her hard won personal and professional insights Dr Schave explores various treatment ideas focusing on the therapeutic bond, equal partnership and protection and dignity for patients.

Raising Gifted Kids Barbara Schave Klein, 2007 Raising an extremely bright child quick, curious, sensitive and introspective is a daunting challenge. Parents need insight into their own motivations as well as those of their children and the courage and ability to make tough decisions about their child's development. Raising Gifted Kids will help parents understand and cope with the obstacles they face in raising a gifted child and help them make the best choices for their son's or daughter's growth and happiness.

Alone in the Mirror Barbara Klein, 2012-05-04 Alone in the Mirror Twins in Therapy chronicles the triumphs and struggles of twins as they separate from one another and find their individuality in a world of non twins. The text is grounded in issues of attachment and intimacy and is highlighted by Dr Barbara Klein's scholarly research, clinical experiences with twins in therapy and her own identity struggles as a twin, all of which allow her to present insights into the rare, complicated and misunderstood twin identity. She presents psychologically focused real life histories which demonstrate how childhood experiences shape the twin attachment and individual development and she describes implications for twins in therapy, their therapists and parents of twins. Unique to this book are effective therapeutic practices developed specifically for twins and designed to raise the consciousness of parents as well. Readers will find these practices and the insights within invaluable whether they use them to communicate with twin patients, family members or if they are part of a twinship themselves.

**Not All Twins Are Alike** Barbara Klein, 2003-02-28 Even twins are unique. Most people idealize twins fantasizing a close, perpetually loving relationship. Yet Klein herself, an identical twin, demonstrates that twins have complicated and intense relationships that range from over identification or excessive closeness to profound estrangement and conflict. Most twins who are raised as individuals deal with the significant emotional pain of separation in adolescence or young adulthood yet as mature adults can come to love and respect each other as individuals. As Klein makes clear, the parenting that twins receive as infants and young children affects the relationships that they have with one another and with the world they choose to function in. Because parenting is a critical determinant of psychological well being it should be treated as a serious but manageable challenge. This book is a must read for twins, their parents and scholars, students and other researchers and professionals dealing with mental health and child development.

**Adult Survivors of Incest/childhood Sexual Abuse**, 1997

*Twin Dilemmas* Barbara Klein, 2017-06-26 The development of how twins relate to each other and their single partners is explored through life stories and clinical examples.

in this telling study of twin interconnections While the quality of a nurturing family life is crucial Dr Klein has found there are often issues with separation anxiety loneliness competition with each other and finding friendships outside of twinship When twin lives are entwined because of inadequate parenting and estrangement twin loss is possible and traumatic creating a crippling fear of expansiveness an inability to be yourself Therapists and twins seeking an understanding of twin relationships will find this clinically compelling book a valuable resource
