

Последствия воздействия слухов на общественное мнение:

1. Поскольку слухи блокируют информационное воздействие на общественное мнение официальных структур, и главным образом СМИ, то необходимо расширять официальную информационную сеть. Чем шире будет развита информационная сеть и чем больше слоев населения будут иметь к ней доступ, тем меньшим будет воздействие неофициальной информации на общественное мнение.

2. Слухи могут быть использованы как провокация, могут вызвать противоправные действия различных политических группировок экстремистского и националистического толка, занимающими оппозиционное к правительству и полулегальное положение. Результатом слухов могут стать в таком случае столкновения различных политических сил.

3. Слухи могут отразиться на социальном самочувствии населения, если они носят негативный характер, например, слухи о гражданской войне, о голоде. Слухи по-разному действуют на разных людей, одних они минуют, других притягивают к себе настолько, что могут становиться регуляторами их поступков. «Заражение» людей слухом происходит в зависимости от их индивидуальных, социальных и психологических особенностей.
