Fortune Favors The Bold:

Fortune Favors the Bold Lester C. Thurow, 2009-10-13 Bestselling author and renowned economist Lester Thurow argues forcefully that globalization is not a done deal and we must seize the moment now if we are to create a new global economy in which all can prosper In this new book Thurow examines the newly forming global economy with a special focus on the role of the US and the dangers to our own national well being He examines such questions as What s at stake for us in the global economy Why is it important that the system be equitable and that other countries prosper along with us What should our goals as a nation be long term and short term What are the tough choices that need to be made in our relationship with other countries and world regulatory bodies What role should we be playing globally What are the political economic social choices tradeoffs we will have to confront Thurow contends that the huge and growing US trade deficit poses grave dangers to the value of the dollar and is putting our own economy in jeopardy As the world economy leaps national boundaries its hallmark seems to be a rising instability and a growing inequality between the first and third worlds Financial crises in the third world come ever more frequently and seem to be ever more severe The first world economies seem to be in ever more frantic boom and bust cycles Globalization causes riots throughout the world and is one factor in the rise of terrorism against the West Thurow shows how some nations including Ireland and China have embraced the concept of globalization and placed themselves into a position to prosper with growing and productive national economies He contrasts their positive actions with Japan whose leaders have allowed the nation to drift into stagnation and have destroyed its prosperity He argues that this is the time to choose globalization or be left behind the time to build a global economy that eliminates the defects and he provides plenty of ideas for corporations governments economists and citizens to act upon *Fortune Favors the Bold!* Brian Douglas Ahern, Randall Kirby, 2012 World History Readers' Theater, Grades 5-8 Robert W. Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious
