Foundation Of Japanese Buddhism Vol 1 The Aristocratic Age:

Foundation of Japanese Buddhism: The aristocratic age Daigan Matsunaga, Alicia Matsunaga, 1974 A Cultural History of Japanese Buddhism William E. Deal, Brian Ruppert, 2015-06-15 A Cultural History of Japanese Buddhism offers a comprehensive nuanced and chronological account of the evolution of Buddhist religion in Japan from the sixth century to the present day Traces each period of Japanese history to reveal the complex and often controversial histories of Japanese Buddhists and their unfolding narratives Examines relevant social political and transcultural contexts and places an emphasis on Japanese Buddhist discourses and material culture Addresses the increasing competition between Buddhist Shinto and Neo Confucian world views through to the mid nineteenth century Informed by the most recent research including the latest Japanese and Western scholarship Illustrates the richness and complexity of Japanese Buddhism as a lived religion offering readers a glimpse into the development of this complex and often misunderstood tradition The Bodymind Experience in Japanese Buddhism David Edward Shaner, 1985-01-01 In a pioneering study David Shaner uses the resources of phenomenology to penetrate Buddhist philosophy in terms of K kai and D gen In addition to this original and rigorous methodology his work offers insights into some fundamental difficulties intrinsic to comparative studies The problem of the relation between body and mind is a prime example Shaner s observations shed a brilliant light on these traditional antinomies as they may be resolved or more accurately dissolved when seen in their appropriate contexts In addressing these issues the study also contributes to the understanding of common features that underlie the various doctrines of Japanese Buddhism This work will appeal to both East and West phenomenologists philosophers interested in the mind body problem scholars of comparative philosophy and students of Japanese philosophy and religion Jōkei and Buddhist Devotion in Early Medieval Japan James L. Ford, 2006-08-24 This is the first book length study in any language of J kei 1155 1213 a prominent Buddhist cleric of the Hoss Yog ac ara school whose life bridged the momentous transition from Heian 794 1185 to Kamakura 1185 1333 Japan Kamakura Buddhism has drawn notable scholarly attention largely because it marks the emergence of new schools Pure Land Nichiren and Zen that came to dominate the Buddhist landscape of Japan Although J kei is invariably cited as one of the leading representatives of established Buddhism during the Kamakura period he has been seriously neglected by Western scholars In this book James L Ford aims to shed light on this pivotal and long overlooked figure Ford argues convincingly that J kei is an ideal personage through which to peer anew into the socio religious dynamics of early medieval Japan Indeed J kei is uniquely linked to a number of decisive trends and issues of dispute including the conflict between the established schools and H nen s exclusive nenbutsu movement the precept revival movement doctrinal reform efforts the proliferation of prominent reclusive monks tonseis the escalation of fundraising kanjin campaigns and popular propagation and the conspicuous revival of devotion toward S kyamuni and Maitreya J kei represents a paradigm within established Buddhism that recognized the necessity of accessing other powers through esoteric practices ritual

performances and objects of devotion While J kei is best known as a leading critic of H nen s exclusive nenbutsu movement and a conservative defender of normative Buddhist principles he was also a progressive reformer in his own right Far from defending the status quo J kei envisioned a more accessible harmonious and monastically upright form of Buddhism Through a detailed examination of J kei s extensive writings and activities Ford challenges many received interpretations of J kei s legacy and the transformation of Buddhism in early medieval Japan This book fills a significant lacuna in Buddhist scholarship

Sakuteiki Jiro Takei,Marc P. Keane,2011-04-11 Learn the art of

Japanese gardening with this classic fascinating text *The Sakuteiki* or *Records of Garden Making* was written nearly one thousand years ago. It is the oldest existing text on Japanese gardening or any kind of gardening in the world. In this edition of the *Sakuteiki*, the authors provide an English language translation of this classic work and an introduction to the cultural and historical context that led to the development of Japanese gardening. Central to this explanation is an understanding of the sacred importance of stones in Japanese culture and Japanese garden design. Written by a Japanese court noble during the Heian period (794-1184), the *Sakuteiki* includes both technical advice on gardening, much of which is still followed in today's Japanese gardens, and an examination of the four central threads of allegorical meaning which were integral features of Heian era garden design. For those seeking inspiration to build a rock garden or just better understand the Japanese stone garden, the *Sakuteiki* is an enduring classic.

Ambiguous Bodies Michelle Osterfeld Li, 2009-03-10 *Ambiguous Bodies* draws from theories of the grotesque to examine many of the strange and extraordinary creatures and phenomena in the premodern Japanese tales called *setsuwa*. Grotesque representations in general typically direct our attention to unfinished and unrefined things; they are marked by an earthy sense of the body and an interest in the physical. Because they have many meanings, they can both sustain and undermine authority. This book aims to make sense of grotesque representations in *setsuwa*: animated, detached body parts, unusual sexual encounters, demons, and shape-shifting or otherwise wondrous animals, and in a broader sense to show what this type of critical focus can reveal about the mentality of Japanese people in the ancient classical and early medieval periods. It is the first study to place Japanese tales of this nature, which have received little critical attention in English, within a sophisticated theoretical framework. Li masterfully and rigorously focuses on these fascinating tales in the context of the historical periods in which they were created and compiled.

Fundamentalism, Sectarianism, and Revolution S. N. Eisenstadt, 1999 *Fundamentalism, Sectarianism, and Revolution* is a major comparative analysis of fundamentalist movements in cultural and political context, with an emphasis on the contemporary scene. Leading sociologist S. N. Eisenstadt examines the meaning of the global rise of fundamentalism as one very forceful contemporary response to tensions in modernity and the dynamics of civilization. He compares modern fundamentalist movements with the proto-fundamentalist movements which arose in the axial civilizations in pre-modern times; he shows how the great revolutions in Europe, which arose in connection with these movements, shaped the political and cultural programmes of modernity, and he contrasts post-Second World War Moslem, Jewish, and Protestant fundamentalist movements with communal national movements, notably in Asia. The central theme of the book is the distinctively Jacobin features of fundamentalist movements and their ambivalent attitude to tradition: above all, their attempts to essentialize tradition in an ideologically totalistic way. Eisenstadt has won the Amalfi book prize.

Religious Individualisation Martin Fuchs, Antje Linkenbach, Martin Mulsow, Bernd-Christian Otto, Rahul Bjørn Parson, Jörg Rüpke, 2019-12-16 This volume brings together key findings of the long-term research project *Religious Individualisation in Historical Perspective*. Max Weber Centre for Advanced Cultural and Social Studies, Erfurt.

University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality

Japanese Civilization S. N. Eisenstadt, 1996 One of the world's leading social theorists provides a monumental synthesis of Japanese history religion culture and social organization Equipped with a thorough command of the subject S N Eisenstadt focuses on the non ideological character of Japanese civilization as well as its infinite capacity to recreate community through an ongoing past

Nagaoka Ellen van Goethem, 2008-03-31 This is the first work to deal comprehensively with the historical and physical aspects of the Nagaoka palace and capital which were constructed in the eighth century at the order of Kanmu Tenn but abruptly abandoned after only ten years New research and the information yielded by decades of excavation made possible this fresh reassessment of conventional theories of the construction and layout of Nagaoka as well as the life and reign of its founder It also examines the motivations behind Nagaoka's establishment and abandonment within the context of Kanmu's reign and personal convictions In broader terms this volume deals with the process of capital building in late eighth century Japan and the links between the Nara and Heian capitals

Aging and Loss Jason Danely, 2015-01-02 By 2030 over 30% of the Japanese population will be 65 or older foreshadowing the demographic changes occurring elsewhere in Asia and around the world What can we learn from a study of the aging population of Japan and how can these findings inform a path forward for the elderly their families and for policy makers Based on nearly a decade of research *Aging and Loss* examines how the landscape of aging is felt understood and embodied by older adults themselves In detailed portraits anthropologist Jason Danely delves into the everyday lives of older Japanese adults as they construct narratives through acts of reminiscence social engagement and ritual practice and reveals the pervasive cultural aesthetic of loss and of being a burden Through first hand accounts of rituals in homes cemeteries and religious centers Danely argues that what he calls the self in suspense can lead to the emergence of creative participation in an economy of

care In everyday rituals for the spirits older adults exercise agency and reinterpret concerns of social abandonment within a meaningful cultural narrative and by reimagining themselves and their place in the family through these rituals older adults in Japan challenge popular attitudes about eldercare Danely s discussion of health and long term care policy and community welfare organizations reveal a complex picture of Japan s aging society
