

Economes El

Lauren Gardner

Economes El:

The Political Economy of North American Free Trade Ricardo Grinspun, Maxwell A. Cameron, 1993-06-18 Analyzes the economic social political and environmental implications of NAFTA from a range of critical perspectives The chapters unified by a sceptical view of the management of economic integration in North America cover the economic strategy of Mexico Canada US trade agreement and more

Political Economy of Media Industries Randy Nichols, Gabriela Martinez, 2019-10-28 This book provides a critical political economic examination of the impact of increasingly concentrated global media industries It addresses different media and communication industries from around the globe including film television music journalism telecommunication and information industries The authors use case studies to examine how changing methods of production and distribution are impacting a variety of issues including globalization environmental devastation and the shifting role of the State This collection finds communication at a historical moment in which capitalist control of media and communication is the default status and so because of the increasing levels of concentration globally allows those in control to define the default ideological status In turn these concentrated media forces are deployed under the guise of entertainment but with a mind towards further concentration and control of the media apparatuses many times in convergence with others

Colombia's Political Economy at the Outset of the Twenty-First Century Bruce M. Bagley, Jonathan D. Rosen, 2015-07-01 This volume examines Colombia s political economy at the outset of the twenty first century A group of leading experts explores various issues such as drug trafficking organized crime economic performance the internal armed conflict and human rights The experts highlight the various challenges that Colombia faces today This volume is a major contribution to the field and provides a current panorama of the Colombia conflict

Regionalization and Globalization in the Modern World Economy Alex E. Fernandez Jilberto, Andre Mommen, 2002-01-22 This collection explores the importance of regionalization and globalization to the world economy particularly questioning whether the world economy is characterized by increasing regionalization rather than globalization International contributors explore the processes in the Pacific area the Americas Africa and Europe and make an important contribution to current debates in development economics

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China s growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences How China is Reshaping the Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a comparative study of China s impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about

as a result of the shift in economic activity from North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies and financial flows It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America the main drivers and economic social political and environmental consequences It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China Since the first edition of *How China is Reshaping the Global Economy Development Impacts in Africa and Latin America* China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei This new edition documents these changes and their implications for SSA and LAC

Hunter-Gatherer Economy in Prehistory Geoff Bailey, 1983-03-24 A series of case studies which combine an awareness of recent developments in hunter gatherer theory with a commitment to the analysis and interpretation of prehistoric material

Political Economy and Sociolinguistics David Block, 2018-02-08 Shortlisted for the BAAL Book Prize 2019 This book explores how political economy intersects with sociolinguistics specifically how neoliberalism inequality and social class mediate language in society issues After the preface in which the author sets the scene for the content of the book Chapter 1 is an extensive though selective review of sociolinguistics research which has been framed as political economic in orientation The chapter concludes that such research generally contains little in the way of thorough and in depth coverage of the key ideas and conceptual frameworks said to undergird it With this consideration in mind Chapters 2 3 and 4 are organised around in depth discussions of respectively political economy as a general disciplinary frame neoliberalism as the variegated variety of capitalism dominant in the world today and stratification inequality and social class as phenomena intrinsic to capitalism which in the neoliberal era have come to the fore as key issues Drawing directly on the background provide in Chapters 2 4 Chapters 5 and 6 explore two distinct political economy informed lines of research on the one hand the neoliberal citizen and on the other hand discursive class warfare The book ends with an epilogue addressing issues arising around political economy in sociolinguistics

Miscellaneous Publication, 1980 Social Reproduction, Solidarity Economy, Feminisms and Democracy Christine Verschuur, Isabelle Guérin, Isabelle Hillenkamp, 2021-09-06 This book contributes to timely debates on the conditions of resistance and changes with the aim to offer a ray of hope in times of ecological economic social and democracy crisis worldwide In the context of the crisis of social reproduction impoverishment and growing inequalities myriads of women led grass root initiatives are bubbling up They reorganize social reproduction redefine the meaning of work and value explore new ways of doing economics and politics construct solidarity driven social relationships and combat

their subordination. In doing so, these initiatives challenge the patriarchal financialized and dehumanizing capitalist system and offer transformative sustainable paths for feminist social change. Drawing on fine-grained ethnographies in Latin America and India, this book sheds light on women's daily struggles, their difficulties, contradictions, fragilities, and also their successes and achievements. This book seeks to inspire activists, researchers, and policy makers in the field of feminism and solidarity economy to contribute to amplifying the movement which rests on the articulation of the various initiatives. **The**

Knowledge Economy and Socialism Agustín Lage Dávila, 2024-03-31 Cuba's future must by necessity be a future of scientists. Fidel Castro proclaimed in 1960. As Agustín Lage Dávila shows in this pathbreaking book, Cuba has in fact become a global leader in both the generation and application of scientific knowledge, as demonstrated by its ubiquitous production of socially useful products, from vaccines and medicines to organic food. Speaking from his position as a noted Cuban immunologist, Dr. Lage shows how Cuba achieved such prominence, positing that the training of its scientists, their scientific practices, and their relationships with the Cuban people are intimately connected to the socialist culture that derived from the Cuban Revolution. *Size, Causes and Consequences of the Underground Economy* Friedrich Schneider, 2018-01-18

Bringing together top international researchers, this book provides a worldwide coverage of underground economic activities. It presents estimates of the underground economy for 145 countries, the most comprehensive ever undertaken, and an in-depth examination of the underground economy for a select number of these countries and an analysis of the public policy implications through an assessment of how various governments have attempted to address this issue. The book brings together the latest research on tax evasion, tax morale, and other underlying factors that have so significantly influenced participation in the underground economy. It provides a comprehensive overview of the size and development of the underground economy, its major causes and motivations, and its effects on the legitimate economy. In addition, it reviews recent public policy concerns by a number of countries and how they have responded with measures to curb these underground economic activities. *The Islamic Moral Economy* Shafiel A. Karim, 2010

The Islamic Moral Economy is an academic book that analyzes the religious permissibility or lack thereof of the existing repertoire of financial instruments used in Islamic banking and finance. The work is both timely and sound, especially considering the growth of the international Islamic banking and insurance industries and the Great Recession of 2007-2010. *The Islamic Moral Economy* is an excellent introductory book for academics and finance professionals wishing to gain a better understanding of Islamic moral constraints on economic transactions and how most current Islamic banking transactions are structured. More specifically, the author examines the utopian nature of the Islamic moral economy with a special emphasis on *riba*, i.e. financial interest and illogical increase, which is inescapable in the global interconnected economy and therefore insoluble within the framework of the Islamic Moral Economy. Unlike other books on the subject, *The Islamic Moral Economy* places a special emphasis on the ubiquity of financial interest and illogical increase in both current Islamic banking and finance as well as conventional

economics **Solidarity Economy** Ana Margarida Fernandes Esteves, Tom Henfrey, Luciane Lucas dos Santos, Leonardo Leal, 2023-10-20 Solidarity economy based alternative spaces result from an interface among structural factors institutional regimes and forms of collective action that mobilise narratives of change collective identities and non capitalist economic practices This book analyses how solidarity economy initiatives develop alternative spatialities as counterpower to mainstream economy Based on case studies in Europe Latin America and Asia it elaborates on how different scales of solidarity economy based alternative spaces result from an interface among structural factors institutional regimes and forms of collective action that mobilise narratives of change collective identities and non capitalist economic practices Circular Economy and Manufacturing Carolina Machado, J. Paulo Davim, 2024-06-20 Circular economy can serve as a key building block for the sustainability targets of manufacturing companies Although the term itself has long been established we see that proper implementation of a circular economy model across entire manufacturing value chains is still lacking and remains a challenge for companies However there are clearly visible and good examples of circular economy standards which have already been applied generating value among multiple layers Circular Economy and Manufacturing presents these and more providing a roadmap of optimized flexible efficient effective and competitive green production strategies for the manufacturing industry and its multiple stakeholders The volume proves to be an excellent springboard for further discussion and research into new frameworks of best practices in view of achieving more socially responsible and sustainable organizations in a not so distant future Helps readers to easily identify state of the art advances in the circular economy as applied to the manufacturing industry Adopts an interdisciplinary perspective offering insights into both engineering and management components of the whole circular economy approach Includes contributions from an internal group of experts Presents methodologies and showcases their application through case studies *The Agricultural Economy of Libya* Hilda M. Canady, 1956 Circular Economy in Emergency Housing: Eco-Efficient Prototype Design for Subaşı Refugee Camp in Turkey and Maicao Refugee Camp in Colombia Pilar Mercader-Moyano, Paula Porras-Pereira, 2023-07-04 In recent years there has been an upsurge in the number of forced displacements due to natural disasters armed conflicts and pandemics which has favoured an increase in the number of temporary accommodations Although the provision of shelter after an emergency situation is one of the priorities of humanitarian aid the reality is that the conditions in which people live in a situation of forced displacement are absolutely precarious and overcrowded Nowadays this type of housing tends to have a short lifespan deepening the environmental impact and the generation of waste Likewise added to this great problem is the linear economic system implemented worldwide which also causes a high rate of waste This investigation develops an eco efficient design protocol that determines the basic premises in any emergency situation therefore avoiding the precarious nature to which those in forced displacement are exposed Moreover the research investigates different constructive solutions that can respond to situations of natural catastrophes or humanitarian disasters where emergency housing is needed as well

as the possible alternatives from the point of view of circular economy Eco efficient and environmentally correct solutions are sought which can be adaptable to the different scenarios where emergency housing may be needed thus creating a rapid easy functional and environmentally correct architecture adaptable to these types of situations The study shows that the factors that characterize emergency architecture can be an example of where the issues around the sustainability factor are applied in a practical way The main objectives of this study are to develop an eco efficient design protocol which determines the basic premises in any emergency situation and to find eco efficient and environmentally correct solutions adaptable to different scenarios which have similar climatic characteristics and where emergency housing may be needed thus creating a type of ephemeral architecture but sensitive to the user to whom it is intended and in accordance with the optimal conditions of habitability

Sorting Out the Mixed Economy Amy C. Offner, 2019-09-17 The untold story of how welfare and development programs in the United States and Latin America produced the instruments of their own destruction In the years after 1945 a flood of U S advisors swept into Latin America with dreams of building a new economic order and lifting the Third World out of poverty These businessmen economists community workers and architects went south with the gospel of the New Deal on their lips but Latin American realities soon revealed unexpected possibilities within the New Deal itself In Colombia Latin Americans and U S advisors ended up decentralizing the state privatizing public functions and launching austere social welfare programs By the 1960s they had remade the country s housing projects river valleys and universities They had also generated new lessons for the United States itself When the Johnson administration launched the War on Poverty U S social movements business associations and government agencies all promised to repatriate the lessons of development and they did so by multiplying the uses of austerity and for profit contracting within their own welfare state A decade later ascendant right wing movements seeking to dismantle the midcentury state did not need to reach for entirely new ideas they redeployed policies already at hand In this groundbreaking book Amy Offner brings readers to Colombia and back showing the entanglement of American societies and the contradictory promises of midcentury statebuilding The untold story of how the road from the New Deal to the Great Society ran through Latin America Sorting Out the Mixed Economy also offers a surprising new account of the origins of neoliberalism

Social Economy Science Gorgi Krlev, Dominika Wruk, Giulio Pasi, Marika Bernhard, 2025-05-15 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations Lack of progress in the area of global sustainable development and difficulties in crisis management highlight the need to transform the economy and find new ways of making society more resilient The social economy is increasingly recognized as a driver of such transformations it comprises traditional forms of cooperative or solidarity based organizations alongside new phenomena such as impact investing or social tech ventures that aim to contribute to the public good Social Economy Science provides the first comprehensive analysis of why and how social economy organizations create

superior value for society The book draws on organizational theory and transition studies to provide a systematic perspective on complex multi stakeholder forms of action It discusses the social economy s role in promoting innovation for impact as well as its role as an agent of societal change and as a partner to businesses governments and citizens Economy, Geography, and Provincial History in Later Roman Palestine Hayim Lapin,2001 Hayim Lapin examines the economic geography of fourth century Roman Galilee Drawing on literary and archaeological material for the distribution of cities villages roads and other features of trade and marketing and making use of the central place theory the author attempts to reconstruct models of the regional economy of northern Palestine and to examine the degree of economic integration in the region As a contribution to the historiography of Jews and Palestine in antiquity Hayim Lapin argues that the economic social and cultural landscape inhabited by residents of fourth century Palestine was in many ways shaped by its Roman provincial administrative setting and political economy Thus key aspects of the history of later Roman Palestine and particularly of Jews need to be reexamined The Political Economy of Work in the Global South Anita Hammer,Adam Fishwick,2020-03-28 Part of the Critical Perspectives on Work and Employment series this edited collection brings together contributions from leading international scholars to initiate an important dialogue between labour process analysis and scholarship on work in the Global South This book characterises the forms of work and labour process that characterise globalising capitalism today and addresses core analytical concerns within Labour Process Theory and research on work in the South It explores how a wide range of production relations in the Global South ranging from formal to informal employment and self employment are embedded in wider social relations of gender caste religion and ethnicity and are related to wider patterns of commodification and resistance Drawing on cutting edge research the book s chapters consider a diverse range of working situations covering migrant workers in the Middle East commercial surrogacy work in India and cooperative garment workers in Argentina In offering a novel reading of the political economy of work in the Global South and shedding light on lesser considered fields of work and worker organization this volume will provide new insights for making sense of the changing world of work for students scholars labour activists and practitioners alike
