The Socio-Economic Causes and Consequences of Desertification in Central Asia Roy Behnke, 2008-08-19 This book contains a selection of papers presented at the Advanced Research Workshop on The Socio economic causes and consequences of desertification in Central Asia held in Bishkek Kyrgyzstan in June 2006 The meeting provided a forum for twenty six scientists from Central Asia and NATO countries to discuss the human dimensions of the desertification process Papers presented to the meeting examined recent scientific evidence on the impact of desertification on livestock production public health and biodiversity and contributed to the formulation of coherent national and regional policies for the management of watersheds rangelands and irrigated agriculture The meeting was co directed by Roy Behnke of the Macaulay Institute UK and by Lapas Alibekov of the Samarkand State University Uzbekistan Both the workshop and this subsequent publication have been financed by the NATO Scientific Affairs Division and we gratefully acknowledge this support The Bishkek meeting was ably hosted by the Kyrgyz Sheep Breeders Association under the direction of Akylbek Rakaev who contributed substantially to the successful running of the workshop Deliberations at the workshop emphasized that policy failures at national level had promoted desertification within the region The Economic Causes of Modern War John Bakeless, 1921 *Technical and Economic Causes of Productivity Changes in U.S. Wheat Production, 1949-76* Jack J. Bond, Dwaine E. Umberger, 1979 The Bank Merger Wave: The Economic Causes and Social Consequences of Financial Consolidation Gary Dymksi, 2016-09-16 This far reaching study shows that operating efficiencies are not what are driving today's unrelenting bank merger mania It suggests that bank mergers and consolidation may have effects that are contrary to consumer and non financial business interests such as lower rates of interest increasing fees and tighter credit constraints Dymksi recommends several new policies to apply to the evaluation of prospective mergers **An Essay on the Economic Causes of Famines in India and Suggestions to Prevent Their Frequent Recurrence** Satis Chandra Roy, 1909

Criminology and Penology Rajendra Kumar Sharma, 1998 The Book Covers University Syllabi In Sociology In The Papers Criminology Penology And Criminology And Penology Analytic In Presentation Holistic In Interpretation With Examples Drawn From Indian Situations And Narration In Simple Language This Book Has Been Planned As A Textbook For Students And Reference Manual For Teachers **The Concept of Equilibrium in Different Economic Traditions** Bert Tieben, 2012-07-01 Bert Tieben is very well read in the history of economic thought and provides an overview of one of the basic concepts of economics that is unrivalled both in its scope and in its thoughtful and detailed discussion of the various currents and schools It goes right to the heart of economic theory and asks some pertinent questions about the limits and the future of economic theorizing That is I think what sets it apart from many other studies in the history of economic thought it is history with an eye to the future and it does all this without making any demands on the mathematical skills of the reader This book should therefore appeal to everybody who is interested in the methodology of economics and in exploring the

boundaries of economic analysis Hans Visser VU University Amsterdam The Netherlands This book deals with one of the most puzzling concepts in economic science that of economic equilibrium In modern economics equilibrium is considered a key assumption but its role is contested by economists both from within the mainstream and from rival schools of thought What explains the contradictory assessments of the equilibrium concept in economics Do economists belonging to different traditions disagree about the definition of equilibrium or do they adopt different rules for assessing scientific status In this unique and exhaustive study Bert Tieben answers these questions by investigating the history of equilibrium economics from 1700 to the present day He concludes that ideology strongly coloured the development of this branch of theory helping to explain the vehemence of the debates surrounding the concept He also argues that scientific progress in economics may indeed be fostered by such opposition and contention and calls for cross fertilization and stronger cooperation between the different schools of thought This resourceful book will appeal to post graduate students and scholars in the history of economic thought and economic methodology Both neoclassical and heterodox economists most notably Austrian post Keynesian and institutional economists will also find much to interest them **Economic Reason and Political Reason**

Jean Mercier Ythier, 2022-12-01 The public space of democracies is constructed in a context that is marked by the digital transformation of the economy and society This construction is carried out primarily through deliberation Deliberation informs and guides both individual and collective action To shed light on the concept of deliberation it is important to consider the rationality of choice but what type of rationality is this References to economic reason are at once widespread crucial and controversial This book therefore deals with arguments used by individuals based on the notions of preferential choice and rational behavior and also criticizes them These arguments are examined in the context of the major themes of public debate that help to construct the contemporary public space populism social insurance social responsibility and environmental issues Economic Reason and Political Reason underlines the importance of the pragmatist shift of the 2000s and revisits through the lens of this new approach the great utilitarian and Rawlsian normative constructs that dominated normative political economics at the end of the 20th century Alternative approaches based on the concept of deliberative democracy are proposed and discussed Causes and Consequences of Democratization Anastassia V.

Obydenkova, Alexander Libman, 2015-05-22 In recent decades the regions of Russia have taken different paths of regime transition Despite the consolidation of an autocratic regime at national level and the centralization steered by Vladimir Putin's government the variation across sub national regimes persists Using an innovative theoretical framework this book explores both causes and consequences of democratization in the regions of Russia It is the first study in the field to systematically integrate structural and agency approaches in order to account for economic social historical and international causes of democratization and to trace its consequences By focusing on the challenging and under studied topic of sub national regimes the book provides a unique perspective on regime transition and the new theoretical framework

Theoretical and Practical Reason in Economics Ricardo F. Crespo,2012-09-25 The aim of the book is to argue for the restoration of theoretical and practical reason to economics It presents Nancy Cartwright and Amartya Sen s ideas as cases of this restoration and sees Aristotle as an influence on their thought It looks at how we can use these ideas to develop a valuable understanding of practical reason for solving concrete problems in science and society Cartwright s capacities are real causes of events Sen s capabilities are the human person s freedoms or possibilities They relate these concepts to Aristotelian concepts This suggests that these concepts can be combined Sen s capabilities are Cartwright s capacities in the human realm capabilities are real causes of events in economic life Institutions allow us to deliberate on and guide our decisions about capabilities through the use of practical reason Institutions thus embody practical reason and infuse certain predictability into economic action The book presents a case study the UNDP s HDI
