**The Economic Cold War** I. Jackson, 2001-03-13 This book provides a new interpretation of the economic dimension of the Cold War It examines Anglo American trade diplomacy towards the Soviet Union and Eastern Europe from the late 1940s to the early 1960s The book which is based on research in American and British archives presents new evidence to suggest that Anglo American relations in East West trade were characterised by friction and conflict as the two countries clashed over divergent commercial and strategic perceptions of the Soviet Union [Economic Statecraft during the Cold War](#) Frank Cain, 2013-04-03 Discussing a rarely researched aspect of the Cold War this volume uses new material to examine how the United States trade embargo on the Soviet Union and communist China severed relationships with Europe particularly focusing on Great Britain In the late 1940s the US government stopped nearly all exports to the entire Sino Soviet bloc in the belief that it would hinder the expansion of Soviet and Chinese military potential To continue receiving the US Marshall Aid European countries had to impose similar bans but were reluctant because their trade links with the USSR and its satellite countries had existed for centuries The US thereafter negotiated with Europe about what to include or exclude from the list of authorised goods severely straining diplomatic relations *Economic Statecraft during the Cold War* details these negotiations casting new light on the ambivalent US UK relationship and providing insights into the changing emphasis between the Republican and Democrat administrations on the key question of trade embargo by explaining how the firm consistency in the application of the US policy over the succeeding decades of the Cold War was maintained This book will be of much interest to all students and scholars of Cold War history intelligence studies and international history in general

**Corporations and Covert Operations in the early Cold War** Margaret Murányi Manchester,2024-05-28 This book examines the Vogeler Sanders espionage case that ruptured ties between the US and UK and Hungary in 1949 and analyses this as an example of Western covert operations in the early Cold War The work focuses on the 1949 case of ITT in Hungary where two of its executives the American Robert A Vogeler and the Briton Edgar Sanders were arrested by the secret police tortured forced to confess put on a public show trial and found guilty of espionage This happened at a time that the US and the UK were cooperating in numerous operations to undermine the credibility of the communist regime and to encourage local resistance by all means short of war Using the case as a lens to examine the dynamics of the early Cold War the book integrates business history diplomatic history and intelligence history and thereby traces the impact of the case on Anglo Hungarian American Hungarian and Anglo American relations during the critical period of 1949 1956 Vogeler s case had a strong impact on the growing criticism of the Truman Administration s containment policies and contributed to the demand for a more activist policy of liberation of captive peoples His experiences also rallied the business community especially trade associations such as the National Foreign Trade Council the US Chamber of Commerce and the National Association of Manufacturers to support the anti communist crusade both abroad and at home Vogeler s wife also waged a personal campaign to secure her husband s release and exemplifies the activism of conservative and Catholic women who waged their own anti communist crusade The book thus tells the rest of the story often omitted in traditional works This book will be of much interest to students of Cold War history intelligence studies and European political history **Arms Transfers,**

**Neutrality and Britain's Role in the Cold War** Marco Wyss,2012-10-12 Marco Wyss examines the extensive Anglo Swiss armaments relationship between 1945 and 1958 in light of their bilateral relations and thereby assesses the role of arms transfers neutrality and Britain as well as the two countries relationship during the Cold War Reconsidering Stagnation in the Brezhnev Era Dina Fainberg,Artemy M. Kalinovsky,2016-04-27 This volume contributes to a growing reevaluation of the Brezhnev era helping to shape a new historiography that gives us a much richer and more nuanced picture of the time

period than the stagnation paradigm usually assigned to the era The essays provide a multifaceted prism that reveals a dynamic society with a political and intellectual class that remained committed to the ideological foundations of the state recognized the challenges that the system faced and embarked on a creative search for solutions The chapters focus on developments in politics society and culture as well as the state s attempts to lead and initiate change which are mostly glossed over in the stagnation narrative The volume challenges the assumption that the period as a whole was characterized by rampant cynicism and a decline of faith in the socialist creed and instead points to the persistence of popular engagement with the socialist ideology and the power it continued to wield within the Soviet Union

Gaps in the Iron Curtain Gertrude Enderle-Burcel,Piotr Franaszek,Dieter Stiefel,Alice Teichova,2009 This volume explores relations between socialist planned economies of Central and East European countries and capitalist market economies of neutral states in Europe during the Cold War It focuses on the significant role of neutral countries as path breakers in building East West contacts

Trading with the Enemy Hugo Meijer, 2016-02-02 In light of the intertwining logics of military competition and economic interdependence at play in US China relations *Trading with the Enemy* examines how the United States has balanced its potentially conflicting national security and economic interests in its relationship with the People's Republic of China PRC To do so Hugo Meijer investigates a strategically sensitive yet under explored facet of US China relations the making of American export control policy on military related technology transfers to China since 1979 *Trading with the Enemy* is the first monograph on this dimension of the US China relationship in the post Cold War Based on 199 interviews declassified documents and diplomatic cables leaked by Wikileaks two major findings emerge from this book First the US is no longer able to apply a strategy of military technology containment of China in the same way it did with the Soviet Union during the Cold War This is because of the erosion of its capacity to restrict the transfer of military related technology to the PRC Secondly a growing number of actors in Washington have reassessed the nexus between national security and economic interests at stake in the US China relationship by moving beyond the Cold War trade off between the two in order to maintain American military preeminence vis vis its strategic rivals By focusing on how states manage the heterogeneous and potentially competing security and economic interests at stake in a bilateral relationship this book seeks to shed light on the evolving character of interstate rivalry in a globalized economy where rivals in the military realm are also economically interdependent

McKenzie,2020-04-09 This history of GATT explains how trade was implicated in foreign policy and international relations and connected to global order **Reassessing Cold War Europe** Sari Autio-Sarasmo,Katalin Miklóssy,2010-10-18 Presents a reassessment of Europe in the Cold War period 1945 91 This book shows that relations between East and West were based not only on confrontation and mutual distrust but also on collaboration It reveals that there is in fact considerable interaction and exchange between states enterprises associations organisations and individuals The Soviet Union and the Construction of the Global Market Oscar Sanchez-Sibony,2023-09-14 Oscar Sanchez Sibony reveals the origins of our current era in the dissolution of the institutions that governed the architecture of energy and finance during the Bretton Woods era He shows how in the second half of the 1960s the Soviet Union sought to dismantle the compartmentalized nature of Bretton

Woods in order to escape its material ostracism and pave a path to global finance and exchange that the United States had vetoed during the 1950s and 1960s Through the construction of a set of pipelines that helped Europe's energy regime change from coal to oil and gas the Soviet Union succeeded in developing market relations and a relationship with Western capital as durable as the pipelines themselves He shows how a history of the development of capitalism needs to integrate the socialist world in bringing about the new form of capitalism that regiments our lives today
