during China's modernization **Issues in Socialist Economic Modernization** Jan S. Prybyla, 1980 *Economics and Capitalism in the Ottoman Empire* Deniz T. Kiliçoğlu, 2015-06-19 Is it possible to generate capitalist spirit in a society where cultural economic and political conditions did not unfold into an industrial revolution and consequently into an advanced industrial capitalist formation This is exactly what some prominent public intellectuals in the late Ottoman Empire tried to achieve as a developmental strategy long before Max Weber defined the notion of capitalist spirit as the main motive behind the development of capitalism This book demonstrates how and why Ottoman reformists adapted English and French economic theory to the Ottoman institutional setting and popularized it to cultivate bourgeois values in the public sphere as a developmental strategy It also reveals the imminent results of these efforts by presenting examples of how bourgeois values permeated into all spheres of socio cultural life from family life to literature in the late Ottoman Empire The text examines how the interplay between Western European economic theories and the traditional Muslim economic cultural setting paved the way for a new synthesis of a Muslim capitalist value system shedding light on the emergence of capitalism as a cultural and an economic system and the social transformation it created in a non Western and more specifically in the Muslim Middle Eastern institutional setting This book will be of great interest to scholars of modern Middle Eastern history economic history and the history of economic thought *Industry and Enterprise* Industrial Systems Research, 1985 **A History of Qing Economy Studies** Zhu Hu, 2023-11-29 This book is a historiographical study of the economic history of the Qing dynasty that systematically examines the research paradigms underlying the range of historical studies conducted over the past century In reviewing historical studies of the economic history of the Qing dynasty from an epistemological and methodological perspective the book explores how this research area emerged and developed and explores the three major paradigms that dominate the field the revolutionary historical paradigm based on productive relations the modernization paradigm centring on productivity and the Chinese centric approach that seeks to understand the internal momentum of economic development It is shown that shifts in paradigms derive not only from the linear derivation of academic ideas but are also closely related to wider changes in society and social discourse Hence the author proposes an approach that studies economic and social history with an emphasis on social practice shedding light on a better understanding of the direction of China's economic history The title will benefit scholars and students interested in economic history and modern Chinese history , *China's Road and China's Dream* Angang Hu, 2018-02-01 This book defines China's road towards modernization with Chinese characteristics by systematically examining a typical Chinese political process the National Congress of the Communist Party of China CPC during which diverse opinions are collected and a unified political consensus is formed The author provides a detailed introduction to the background of and preparations for the 18th National Congress of CPC as well as his personal experience of it as an attending representative In addition the book addresses a key problem namely how China's leadership handover procedure gradually evolved into the current collective handover procedure by

analyzing its developmental history The question of how to implement China's leadership handover is particularly meaningful as it reflects the development of China's political system and is also essential to the CPC flourishing and China's long term prosperity The author's personal experiences at the 18th National Congress made it possible to fully investigate the leadership handover procedure between Hu Jintao and Xi Jinping Lastly the book provides a detailed description of one highlight of the 18th CPC National Congress the focus on ecological culture and green development and discusses China's dream and its implications for history and the world China - Russia, Central Asia & East Europe Relations Wu
