police in this change of regime the book focuses on two key areas the differences between local and national levels and the politicisation associated with decentralisation Arguing that the disassociation of the Indonesian National Police from the military has achieved only limited success the book contends that there is continued impetus for the establishment of a professional police force and modern and democratic policing which will entail effective public control of the police A pioneering study of the police in Indonesia examining key issues in the post Suharto era this book will be of interest to scholars of Southeast Asian politics and of policing and politics in the developing world **A History of Polish Economic**
