Economics And World Order From The 1970s To The 1990s:

Economics and World Order from the 1970's to the 1990's World Order Models Project, World Law Fund, 1972

Economics and world order : from the 1970's to the 1990's ; [conference of the World Order Models Project, at the Northfield Inn, Northfield, Massachusetts, June 18 - 25, 1969] ; sponsored by the World Law Fund World Order Models Project, 1974 The UN and Transnational Corporations Tagi Sagafi-nejad, John H. Dunning, 2008-10-16 Are transnational corporations TNCs and foreign direct investment beneficial or harmful to societies around the world Since the birth of the United Nations more than 60 years ago these questions have been major issues of interest and involvement for UN institutions What have been the key ideas generated by the UN about TNCs and their relations with nation states How have these ideas evolved and what has been their impact This book examines the history of UN engagement with TNCs including the creation of the UN Commission and Centre on Transnational Corporations in 1974 the failed efforts of these bodies to craft a code of conduct to temper the revealed abuses of TNCs and with the advent of globalization in the 1980s the evolution of a more cooperative relationship between TNCs and developing countries resulting in the 1999 Global Compact

Multinational Corporations and the Emerging World Order Lewis D. Solomon, 1978 Monograph examining the impact of multinational enterprise on the political development and economic and social development of both developed countries and developing countries covers the effect of direct foreign investment on unemployment and income distribution balance of payments etc and discusses the role of the FAO industry cooperative program in assisting in problems of technology transfer and currency stabilization etc References *Apostles of Development* David C. Engerman, 2025-05-30 The battle against global poverty that began after World War II was a major undertaking engaging economists engineers and organizations Featuring front and centre were six remarkable economists Amartya Sen Manmohan Singh Mahbub ul Haq Jagdish Bhagwati Rehman Sobhan and Lal Jayawardena all born as colonial subjects in the British Empire and studied at Cambridge University They represented a new figure on the world scene the Third World development expert and played a crucial role in global debates about poverty and development *Apostles of Development* examines their different economic doctrines and the ongoing debate surrounding economic theory in poor countries compared to rich ones The lives of these apostles reveal how development did not begin with textbooks but with real world attempts to solve very specific and pressing problems Finally the book emphasizes that development was a Global South project first and foremost aiming to improve the conditions of the world's poorest countries It challenges the conventional wisdom that sees development only as a tool of rich countries to dominate or as proof of their humanitarian spirit It argues that development succeeds not when it follows ideological prescriptions but when it looks for what works The fading of grand visions shaped by ideological concerns has been one of the lasting effects of the end of the Cold War The book argues that the best way forward is determined modesty focusing on practical matters such as addressing gross inequality and insisting that development means more than just economic growth

Given the salience of questions of economic inequality and the constant visibility of the promises and problems of economic development in the world today this is a timely and important read
