Eye Like a Strange Balloon Mary Jo Bang, 2004-11-01 The ever adventurous author of Louise in Love looks to the visual

arts for inspiration with this astonishing fourth collection The poems in *The Eye Like a Strange Balloon* find their seed in paintings film video photographs and collage and the end results are something more than a sum of their parts Beginning with a painting done in 2003 the poems move backward in time to 1 B C where an architectural fragment is painted on an architectural fragment highlighting visual art s strange relationship between the image and the thing itself The total effect is exhilarating a wholly original personal take on art history coupled with Bang s sly and elegant commentary on poetry s enduring subjects Love Death Time and Desire The recipient of numerous prizes and awards Bang stands at the front of American poetry with this new work asking more of the English language and enticing and challenging the reader

Drone imaginaries Andreas Immanuel Graae,Kathrin Maurer,2021-06-15 There should no longer be any doubt drones are here to stay In civil society they are used for rescue surveillance transport and leisure And on the battlefield their promises of remote protection and surgical precision have radically changed the way wars are fought But what impact are drones having on our identity and how are they affecting the communities around us This book addresses these questions by investigating the representation of civilian and military drones in visual arts literature and architecture What emerges the contributors argue is a compelling new aesthetic drone imaginary a prism of cultural and critical knowledge through which the complex interplay between drone technology and human communities is explored and from which its historical cultural and political dimensions can be assessed The contributors offer diverse approaches to this interdisciplinary field of aesthetic drone imaginaries With essays on the aesthetic configurations of drone swarming historical perspectives on early unmanned

Art and Psychoanalysis Maria Walsh, 2012-11-20 Often derided as unscientific and self-indulgent psychoanalysis has been an invaluable resource for artists art critics and historians throughout the twentieth century Art and Psychoanalysis investigates these encounters The shared relationship to the unconscious severed from Romantic inspiration by Freud is traced from the Surrealist engagement with psychoanalytic imagery to the contemporary critic's use of psychoanalytic concepts as tools to understand how meaning operates Following the theme of the object with its varying materiality Walsh develops her argument that psychoanalysis like art is a cultural discourse about the mind in which the authority of discourse itself can be undermined provoking ambiguity and uncertainty and destabilising identity The dynamics of the dream work Freud's familiar unfamiliar fetishism visual mastery abjection repetition and the death drive are explored through detailed analysis of artists ranging from Max Ernst to Louise Bourgeois including 1980s postmodernists such as Cindy Sherman the performance art of Marina Abramovic and post-minimalist sculpture Innovative and disturbing Art and Psychoanalysis investigates key psychoanalytic concepts to reveal a dynamic relationship between art and psychoanalysis which goes far beyond interpretation There is no cure for the artist but art can reconcile us to the traumatic nature of human experience converting the sadistic impulses of the ego towards domination and war into a masochistic ethics of responsibility and desire

The Symbolist Prints of Edvard Munch Vivian Campbell, Prelinger Elizabeth, Elizabeth Prelinger, Edvard Munch, Michael Taylor, Parke-Taylor Michael, Michael Parke-Taylor, Peter Schjeldahl, Art Gallery of Ontario, 1996-01-01 Illustrated with black and white and colored prints from Edvard Munch Original pictorial wrappers and color illustrated frontispiece Published alongside the exhibition of the same

Cyclops Mercedes Aguirre, Richard Buxton, 2020-05-10 A Cyclops is popularly assumed to be nothing more than a flesh eating one eyed monster In an accessible stylish and academically authoritative investigation this book seeks to demonstrate that there is far more to it than that quite apart from the fact that in myths the Cyclopes are not always one eyed This book provides a detailed innovative and richly illustrated study of the myths relating to the Cyclopes from classical antiquity until the present day The first part is organised thematically after discussing various competing scholarly approaches to the myths the authors analyse ancient accounts and images of the Cyclopes in relation to landscape physique especially eyes monstrosity and hairiness lifestyle gods names love and song While the man eating Cyclops Polyphemus famous already in the Odyssey plays a major part so also do the Cyclopes who did monumental building work as well as those who toiled as blacksmiths The second part of the book concentrates on the post classical reception of the myths including medieval allegory Renaissance grottoes poetry drama the visual arts contemporary painting and sculpture film and even a circus performance This book aims to explore not just the perennial appeal of the Cyclopes as fearsome monsters but the depth and

subtlety of their mythology which raises complex issues of thought and emotion Noir Lee Hendrix,2016-02-09 Due to the technological advances of the nineteenth century an abundance of black drawing media exploded onto the market Charcoal conte crayon and fabricated black chalks and crayons fixatives various papers and many lifting devices gave rise to an unprecedented amount of experimentation Indeed innovation became the rule as artists developed their own unique and often experimental processes The exploration of black media in drawing is inextricably bound up with the exploration of black in prints and this volume presents an integrated study that rises above specialization in one over the other Noir brings together such diverse artists as Francisco de Goya Maxime Lalanne Gustave Courbet Odilon Redon and Georges Seurat and explores their inventive works on paper Sidelineing labels like conservative or avant garde the essays in this book employ all the tools that art history and modern conservation have given us inviting the reader to look more broadly at the artists methods and materials This volume accompanies an eponymous exhibition on view at the J Paul Getty Museum from February 9 to May 15 2016 **Canadian Cinema Since the 1980s** David L. Eisenman,Odilon Redon,1992-12-15 Bristling with demons grotesques and bizarre apparitions the graphic work of Odilon Redon has often seemed to be the product of a mind unhinged In The Temptation of Saint Redon Stephen F Eisenman argues instead that these works are Redon s conscious and considered

response to changing social realities an attempt to find refuge from the forces of modernization in an imaginative world of the macabre and the fantastic Eisenman's careful attention to the circumstances of Redon's life 1840-1916 allows him to bring into focus the interconnections between Redon's complex style and the culture and society of his time Born and raised on a sixteenth century estate near Bordeaux Redon was immersed as a child in traditional rural culture I spent my entire childhood in the M doc completely free among peasant children he recalled in his memoirs I heard them tell supernatural tales witches still exist there Indeed local tales and legends of witches ghosts one eyed monsters evil eyes and wood fairies figure prominently in Redon's graphic works which he called his noirs or blacks After formal training at Bordeaux and Paris in the 1850s and 1860s Redon began to chart his independent artistic course Eisenman shows how rejecting both naturalism and classicism Redon a prototypical Symbolist found in grotesque and epic genres the expression of organic communities and precapitalist societies He places Redon's desire for this imagined world of superstitious simplicity a desire manifest in his entire mature artistic practice in the context of contemporary avant garde movements Redon's great noirs of the 1870s and 1880s dreamlike configurations of seemingly irreconcilable elements from portraits still lifes and landscapes show an increasingly subtle control of connotation and a complex indebtedness to caricature allegory and puns Many of the noirs also visually interpret works by like minded authors including Baudelaire Flaubert Poe and Mallarm one of Redon's close friends Eisenman's analysis of the noirs underscores Redon's interest in creating an imaginative even fantastic art that could act directly on the human spirit In addition to deepening our understanding of Redon and his art **The Temptation of Saint Redon** exposes a link between place politics personal history and the artistic imagination **Jet Lag** Christopher J. Lee, 2017-09-07 Jet lag is a physical ailment a temporal condition a political effect and ultimately a cultural moment in sum a universal yet under examined object of study that serves as an allegory of our human limitations in the face of the advances of technology in the modern world **The Graphic Works of Odilon Redon** Odilon Redon, 2013-02-20 A prominent Symbolist and a precursor to the Surrealists Redon transformed common subjects into fantastic images depicting serpents skeletons and monsters with a distinctive style of realism 172 lithographs plus 37 etchings and engravings
