Eyewitness Building Eyewitness:

Eyewitness Testimony Elizabeth F. Loftus, 1996 Every year hundreds of defendants are convicted on little more than the say so of a fellow citizen Although psychologists have suspected for decades that an eyewitness can be highly unreliable new evidence leaves no doubt that juries vastly overestimate the credibility of eyewitness accounts It is a problem that the courts have yet to solve or face squarely In *Eyewitness Testimony* Elizabeth Loftus makes the psychological case against the eyewitness Beginning with the basics of eyewitness fallibility such as poor viewing conditions brief exposure and stress Loftus moves to more subtle factors such as expectations biases and personal stereotypes all of which can intervene to create erroneous reports Loftus also shows that eyewitness memory is chronically inaccurate in surprising ways An ingenious series of experiments reveals that memory can be radically altered by the way an eyewitness is questioned after the fact New memories can be implanted and old ones unconsciously altered under interrogation These results have important implications for court reform police interrogation methods defense strategy and many other aspects of criminal and civil procedure *Eyewitness Testimony* is a powerful book that should be required reading for trial lawyers social psychologists and anyone who considers the chilling prospect of confronting an eyewitness accusation in a court of law **DK Eyewitness**

Eyewitness Identification Brian L. Cutler, 2009-08-27 Eyewitness testimony is highly compelling in a criminal trial and can have an indelible impact on jurors However two decades of research on the subject have shown us that eyewitnesses are sometimes wrong even when they are highly confident that they are making correct identifications This book brings together an impressive group of researchers and practicing attorneys to provide current overviews and critiques of key topics in eyewitness testimony

Understanding Eyewitness Memory Sean M. Lane, Kate A. Houston, 2021-05-25 An essential overview of how perception and memory affect eyewitness testimony In 1981 sixteen year old Michael Williams was convicted on charges of aggravated rape based on the victim's eyewitness testimony No other evidence was found linking him to the attack After nearly twenty four years Williams was released after three separate DNA analyses proved his innocence The victim still maintains that Williams was the culprit This heartbreaking case is but one example of eyewitness error In *Understanding Eyewitness Memory* Sean M Lane and Kate A Houston delve into the science of eyewitness memory They examine a number of important topics from basic research on perception and memory to the implications of this

research on the quality and accuracy of eyewitness evidence The volume answers questions such as How do we remember and describe people we ve encountered What is the nature of false and genuine memories How do emotional arousal and stress affect what we remember Understanding Eyewitness Memory offers a brilliant overview of how memory and psychology affect eyewitness testimony where quality and accuracy can mean the difference between wrongful imprisonment and true justice

The Psychology of Eyewitness Identification James M. Lampinen,Jeffrey S. Neuschatz,Andrew D. Cling,2012 This volume reviews and evaluates the scientific research on the accuracy and reliability of eyewitness identification The implications of this research for psychological theory and for social and legal policy are explored the book will appeal to Cognitive Psychologists and those in Legal Studies and Forensics Eyewitnesses to Massacre Kaiyuan Zhang,2001 Many in the West still think of World War II as starting either after Germany s attack on Poland in 1939 or the Japanese attack on Pearl Harbor in 1941 two years and four years respectively after long simmering tensions between the Chinese and the Japanese exploded into total war To date the infamous Nanjing Massacre of late 1938 in which the Japanese Imperial Army slaughtered and raped countless citizens of Nanjing has been described from various Chinese Japanese and German perspectives This book of firsthand testimony mined from the archives of the Yale Divinity School library by Dr Zhang and his colleagues may be the most powerful of all for here are eyewitness accounts by a remarkable group of nine men and one woman dedicated compassionate articulate and devout American missionaries who were there on ground zero refusing to leave and doing everything in their power to save the Chinese victims of this appalling atrocity

Eyewitnesses to Massacre Zhang Kaiyuan,Donald MacInnis,2015-05-20 The infamous Nanjing Massacre of 1937 in which the Japanese Imperial Army raped and slaughtered countless Chinese citizens on the eve of World War II has been described in well publicized books from various Chinese Japanese and German perspectives But this collection of first hand testimony from the archives of the Yale Divinit School Library may be the most powerful record of all Here are eyewitness accounts by a remarkable group of nine men and one woman dedicated compassionate well educated articulate and devout missionaries who were ther on the scene refusing to leave and doing everything in their power to save the Chinese victims of this appalling atrocity

The Elderly Eyewitness in Court Michael P. Toglia,David F. Ross,Joanna Pozzulo,Emily Pica,2014-02-18 The majority of research on eyewitness memory has traditionally studied children and young adults By contrast this volume is designed to provide an overview of empirical research on the cognitive social and health related factors that impact the accuracy of eyewitness testimony given by the elderly The book takes a lifespan developmental perspective that incorporates research on witnesses of all ages but uses the findings to focus on issues unique to the elderly This includes research on recognition memory with lineup identifications and recall memory that occurs when an elderly witness is asked to describe an event in court The Elderly Eyewitness also examines jurors reactions to the testimony of an elderly witness and the legal and social policy issues that emerge when the elderly witness participate in legal proceedings

While reviewing what is known about the elderly witness the book also provides a direction for future research into this new frontier of scientific inquiry Its audience spans researchers in cognitive and developmental psychology and professionals working in the growing area of psychology and law Creating Digital Faces for Law Enforcement Michael W. Streed, 2017-01-25 Today law enforcement requires actionable and real time intelligence 24 hours a day seven days a week to help respond to cases efficiently When evidence is lacking in a case law enforcement officers are often times left to rely on eyewitness descriptions In order to quickly disseminate facial composites to news outlets and social media law enforcement needs to rely on every tool available including traditional forensic artists and advanced facial composite software Creating Digital Faces for Law Enforcement provides the proper foundation for obtaining key information needed to create effective facial composites There are two main methods to create a facial composite first through traditional forensic art techniques and second by using commercially developed facial composite software Traditional forensic art has advanced from pen and paper to more enhanced digital tools This text reviews the development of digital tools used by the forensic artist describing each tool in detail Creating Digital Faces for Law Enforcement is the first text of its kind to address the creation of digital sketches for forensic artists and software driven sketches for non artist technicians A step by step guide addressing the creation of digital software driven sketches for non artist technicians Includes descriptions supported by both photographs and video demonstrations to assist the reader in better understanding the process Written by an internationally recognized police sketch artist with over 35 years of experience A companion website page will host author created narrated videos for reader access

Eyewitness to History Howard L. Brennan, J. Edward Cherryholmes, 1987 *The Eruption of Soufrière Hills Volcano, Montserrat, from 1995 to 1999* Timothy H. Druitt, B. Peter Kokelaar, 2002 *Jesus and the Eyewitnesses, 2d ed.* Bauckham, Richard, 2017 Jesus and the Eyewitness argues that the

four Gospels are closely based on the eyewitness testimony of those who knew Jesus The author challenges the assumption that the accounts of Jesus circulated as anonymous community traditions asserting instead that they were transmitted in the name of the original eyewitnesses

Journalism and Eyewitness Images Mette Mortensen, 2014-12-17 Building on the vast research conducted on war and media since the 1970s scholars are now studying the digital transformation of the production of news Little scholarly attention has been paid however to non professional eyewitness visuals even though this genre holds a still greater bearing on the way conflicts are fought communicated and covered by the news media This volume examines the power of new technologies for creating and disseminating images in relation to conflicts Mortensen presents a theoretical framework and uses case studies to investigate the impact of non professional images with regard to essential issues in today's media landscape including new media technologies and democratic change the political mobilization and censorship of images the ethics of spectatorship and the shifting role of the mainstream news media in the digital age

Eyewitness to Genocide Michael Bryant, 2014-05-15 In the 1950s the policy of the West German law courts was to limit the number of Germans who could be prosecuted for crimes against humanity during the Nazi era thereby preserving the old state elites who had been accomplices to the Nazi regime among them the judiciary 90% of whom had been Nazi party members The number of Nazi criminals prosecuted in West Germany dropped throughout the 1950s The Einsatzgruppen trial at Ulm in 1958 showed that many Nazi criminals held positions in the Federal Republic's administration An investigation of the Nazi death camps was initiated by the Ludwigsburg Office in 1959 Focuses on three trials against former staff members of three camps the Be'ec trial held in M'unchen in 1963-64 the Treblinka trial held in D'sseldorf in 1964-65 and the Sobib'or trial in Hagen in 1964-65 Contends that despite their sometimes doubtful past the trial judges acted in good faith within the bounds of West German law The prosecutors based their cases on eyewitness testimonies The Be'ec trial proved to be a debacle all of the defendants but one were acquitted primarily because only one survivor was found to testify In Treblinka and Sobib'or successful uprisings of prisoners in 1943 helped many of them to survive and later to give evidence at the respective trials at these trials most of the defendants were convicted

The Mindful Interview Method Gil

Zamora, 2023-07-19 The Mindful Interview Method Retrieving Cognitive Evidence provides investigators with a proven methodology to gather authentic reliable information from eyewitnesses to help identify potential suspects The book offers police and non law enforcement readers step by step techniques to improve gathering reliable evidence through a mindful interview process The author also provides an assessment component that can measure the reliability of previous interviews performed and further help to improve the interview process the skills of the investigator and thus the reliability of cognitive evidence gathered from future interviews It is notable that there is minimal to no instruction or training currently offered to those individuals most often tasked with interviewing an eyewitness about a crime as part of criminal investigations Despite the lack of training and certification we allow interviewers to conduct questioning in the face of well established research as

to the malleability of human memory The assumption is that officials trained in the rules of evidence will innately ask the right questions and in the proper manner without the proper understanding of the fragility of human memory or the proper training That assumption is false and the reality is quite the opposite In fact we learn of cases commonplace in the media that frequently involve questionable interview tactics misidentifications and wrongful convictions of innocent people The Mindful Interview Method uses cognitive research to inform the methods and principles for a mindful approach to gathering only the information the subject remembers This is the best way to use evidence based lines of questioning to perform interviews that elicit the most reliable accounts and information for investigative purposes Considering current reforms on best practices throughout the criminal justice system the book provides a path forward for professional interviewers to adopt interview methodologies that guide the practitioner to question anyone in a mindful manner

Methods, Measures, and Theories in Eyewitness Identification Tasks Andrew M. Smith, Michael P. Toglia, James Michael Lampinen, 2021-02-25 *Methods Measures and Theories in Eyewitness Recognition Tasks* provides a comprehensive review of the fundamental issues surrounding eyewitness recognition phenomena alongside suggestions for developing a more methodologically rigorous eyewitness science Over the past 40 years the field of eyewitness science has seen substantial advancement in eyewitness identification procedures yet theoretical and methodological developments have fallen behind Featuring contributions from prominent international scholars this book examines methodological and theoretical limitations and explores important topics including how to increase the accuracy of identifying perpetrators when using CCTV images how to create more identifiable facial composites and the differences in accuracy between younger and older eyewitnesses Providing in depth discussion on the limitations of traditional lineups eyewitness memory fallibility and the complications that arise when using laboratory simulations along with suggestions for new methods this book will be an invaluable resource for researchers in eyewitness recognition lawyers players in the criminal justice system members of innocence commissions and researchers with interests in cognitive psychology
