Guide to Teaching How can I inspire my art class A question many art teachers may ask themselves at one time or another either because of lack of experience or a mental block Indeed having comprehensive knowledge of oil painting or being an eminent artist does not necessarily make a good art teacher or one that inspires students to paint The important matter of how people learn is equally as important and for this reason this book is really in two parts a guide to oil painting and a guide to teaching This book is designed for the oil painting teacher whether a newbie or one searching for new ideas for lesson plans With 75 chapters divided into 14 sections everything the oil painting teacher needs to know is covered whether in context of an art institution or teaching privately A preliminary chapter offers a comprehensive guide to the art materials required for oil painting enabling the teacher to offer students advice on what to buy and how to save money The next section covers students needs explaining multi sensory lesson planning writing the individual learning plan motivating students differentiating the art activities and making provisions for students with special needs The third section prepares the teacher to teach giving clear information on writing objectives designing a coherent scheme of work conducting assessments and writing briefs Essential learning theories such as Bloom s Classifications of Thought Ausubel s Subsumption Theory and strategic use of Behaviourism and Cognitivism within the class are also explained The main body of the book gives ideas for around 60 lesson plans beginning with ideas for preliminary lessons that underpin painting moving on to colour use and oil painting techniques Ideas for teaching landscape art still life art alfresco painting and life painting ensure the art teacher will find lesson plans to fit most modules Finally the book offers guidance on presenting artwork for assessment With plenty of colour images and easy to read format this book offers the busy teacher snap ideas for lessons to suit the class and the curriculum Book statistics 45 000 words 212 pages filled with colour illustrations 5 5inx8 5in 140mmx220mm      **Sports** Tim Hammond,2000-07-05 Examines the equipment rules and background of many different team target and court sports including soccer rugby Gaelic football softball cricket ice hockey table tennis archery and pool      *Christianity* Philip Wilkinson,2003 Explore the faith of Christianity from its origins to its role in the 21st Century With over 50 million copies sold in 88 countries and in 36 languages Eyewitness Books are truly the ultimate visual information encyclopedias for the 21st Century Carrying on the tradition of integrating words and pictures these three new titles in the Eyewitness series are timely editions to any library      **Impressionism** John I. Clancy,2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art

aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history's most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes
