**F. Holland Day** Fred Holland Day, James Crump, 1995 The short lived career of nineteenth century photographer F Holland Day is the basis for this important historical monograph Though he is perhaps best known for his controversial sacred subjects in which he posed himself as Jesus Christ Day quickly moved to the forefront of American photography with his portraiture and his later mythological series Day was probably the first great photographer of the male nude A friend of Oscar Wilde and an early proponent of gay rights women s rights and racial equality scandal surrounded him and caused his marginalization New Perspectives on F. Holland Day Patricia J. Fanning, 1998 Blackness, Symbolism, and American Modernism Lori Nel Johnson, 2025-04-29 In this book Lori Nel Johnson examines the work of Henry Ossawa Tanner 1859 1937 Meta Warrick Fuller 1877 1968 and F Holland Day 1864 1933 in relation to the development of modernism during the turn of the century and the official narratives surrounding this movement While Tanner and Fuller have been consistently linked in the history of American Art the Pictorialist photographer and publisher Day has rarely if ever been discussed with these two artists despite the fact that all three were rough contemporaries and affiliated with Symbolism The book compares the historical and social conditions that determined the lives and careers of these three artists which curtailed their ambitions because of the intersections of class race gender or sexuality By examining each artist s respective proximity to language on the basis of class race gender and sexuality this study avoids categorizing artists solely on the basis of difference and thus offers a more fulsome and radical reading of the development of modernism in the United States The book will be of interest to scholars of art history design history history of photography American studies and African American studies

Signs of Grace Kristin Schwain, 2008 Religious imagery was ubiquitous in late nineteenth century American life department stores schoolbooks postcards and popular magazines all featured elements of Christian

visual culture Such imagery was not limited to commercial and religious artifacts however for it also found its way into contemporary fine art In *Signs of Grace* Kristin Schwain looks anew at the explicitly religious work of four prominent artists in this period Thomas Eakins F Holland Day Abbott Handerson Thayer and Henry Ossawa Tanner and argues that art and religion performed analogous functions within American culture Fully expressing the concerns and values of turn of the century Americans this artwork depicted religious figures and encouraged the beholders communion with them Describing how these artists drew on their religious beliefs and practices as well as how beholders looked to art to provide a transcendent experience Schwain explores how a modern conception of faith as an individual relationship with the divine facilitated this sanctified relationship between art and viewer This stress on the interior and subjective experience of religion accentuated the artist s efforts to engage beholders personally with works of art how better to fix the viewer s attention than to hold out the promise of salvation Schwain shows that while these new visual practices emphasized individual encounters with art objects they also carried profound social implications By negotiating changes in religious belief by aestheticizing faith in a new particularly American manner these practices contributed to evolving debates about art ethnicity sexuality and gender
