## **F4u Corsair At War:**

*F4U Corsair at War* Richard Abrams, 1977-01-01      **Corsair** Barrett Tillman, 1979      **Corsair** David Doyle, 2018 The F4U Corsair designed by Vought and produced by that firm as well as Goodyear and Brewster Aeronautical Corporation would not only rack up an impressive 11:1 kill ratio against its foes in WWII but go on to serve through the Korean War as well. The iconic inverted gull wing of the aircraft along with its distinctive whistling sound made the Corsair unmistakable to friend and foe alike. The Corsair was remarkable not only in serving the US Navy and Marine Corps in two wars but also remaining in production through 1952. The Corsair was also the mount of some of the nation's most distinguished aces including Gregory Pappy Boyington, Ken Walsh and Tom Blackburn. Through carefully researched photos, many of which have never before been published and which are reproduced in remarkable clarity, the history and details of this iconic aircraft are revealed. Part of the Legends of Warfare series.      *You Are Not Forgotten* Bryan Bender, 2014-05-20 In 1944 Major Marion Ryan McCown Jr., an earnest young Marine Corps pilot, came under attack by enemy fire and went down with his plane lost to the dense jungle of Papua New Guinea. Some sixty years later Major George Eyster V would find himself in the same sweltering and nearly impenetrable rain forest searching for evidence of MIAs. Coming from a long line of military officers dating back to the Revolutionary War, army service was Eyster's family legacy. After a disillusioning tour of duty in Iraq and almost ending his army career, he accepts a posting to JPAC, instead an elite division whose sole mission is to bring all fallen soldiers home to the country for which they gave their lives. While Eyster's search for McCown proves difficult, what emerges at the end of the unforgettable mission is an inspiring true tale of loss and redemption.      *U. S. Navy Dive and Torpedo Bombers of World War II* Barrett Tillman, Robert L. Lawson, With their stout airframes, innovative airbrakes and near vertical dive capabilities, U.S. Navy torpedo and dive bombers rendered Japanese deck gunners nearly defenseless and played a crucial role in Allied victory. Remarkable period color photography and quotes and anecdotes from pilots and crewmembers relate the stories behind Navy dive bombers. Included in the collection are the legendary SBD, Slow But Deadly Dauntless, SBC Helldiver, TBD Devastator and TBF and TBM Avengers. In addition to depicting the aircraft, photos show American airmen testing and training while first person accounts tell of missions against Japanese vessels.      *The Vought F4U Corsair* Martin W. Bowman, 2019-12-27 This fully illustrated history of the iconic American fighter plane examines its development and combat experience through WWII and beyond. First flown in 1940, the Vought F4U Corsair was the fastest fighter in the world and the fastest US aircraft of any description. Powered by a huge 18 cylinder Pratt and Whitney Double Wasp engine, the first Corsairs were capable of speeds up to 417 miles per hour. This figure would rise to nearly 450mph in later versions. The F4U entered service with the US Navy in September 1942 and over time was extensively used by the US Marines, Royal Navy and Royal New Zealand Air Force. Famous squadrons that flew these planes like VMF 214, The Black Sheep and VF 17 Jolly Rogers maintained their superiority over the Japanese for the rest of the war. After the Second World War, the Corsair
