F O Matthiessen The Politics Of Critic:

F.O. Matthiessen and the Politics of Criticism William E. Cain, 1988 F O Matthiessen remains one of America's leading twentieth century critics in part because the problems he and his contemporaries struggled with remain ours today William E Cain studies Matthiessen's career with careful attention to biographical institutional literary and political contexts He considers Matthiessen's many reviews and essays on literature and deals sympathetically but critically with Matthiessen's attitudes toward the Cold War as revealed in his memoir *From the Heart of Europe* Cain draws connections between Matthiessen's criticism and the influence of significant political movements like the Popular Front of the 1930s the Progressive Party and Henry Wallace's campaign for the presidency in 1948 Analyzing specific texts by Thoreau James Dreiser and Melville he confronts the difficult and highly contested relationships between literary criticism and politics scholarship and the public sphere pedagogy and social activism He suggests that critics need to acknowledge the primacy of their political commitments and should proceed to teach and write accordingly This argument certain to prove a controversial one will spark extensive debate and discussion about the theory and practice of intellectual work All students and scholars of English and American literature American studies black studies and American history will welcome this original and stimulating study the first to treat Matthiessen in fully detailed social historical and political contexts *F. O.*

Matthiessen and the Politics of Criticism William E. Cain, 1988-01-01 **Twentieth-Century Humanist Critics** William Calin, 2007-01-01 The *Twentieth Century Humanist Critics* revisits the work and place of eight scholars roughly contemporary with Anglo American New Criticism Leo Spitzer Ernst Robert Curtius Erich Auerbach Albert B Guin Jean Rousset C S Lewis F O Matthiessen and Northrop Frye William Calin first considers the achievements of each critic examining his methodology and basic presuppositions as well as the critiques marshalled against him Calin explores their relation to history to canon formation and to our current theoretical debates He then goes on to show how all eight form a current in the history of criticism related to both humanism and modernism Underscoring the international cosmopolitan aspects of literary scholarship in the twentieth century The *Twentieth Century Humanist Critics* brings together humanist critical traditions from Europe the United Kingdom and North America and reveals the surprising extent to which in various languages and academic systems critics were posing similar questions and offering a gamut of similar responses

Death of a Nation David W. Noble, 2002 In the 1940s American thought experienced a cataclysmic paradigm shift Before then national ideology was shaped by American exceptionalism and bourgeois nationalism elites saw themselves as the children of a homogeneous nation standing outside the history and culture of the Old World This view repressed the cultures of those who did not fit the elite vision people of color Catholics Jews and immigrants David W Noble a preeminent figure in American studies inherited this ideology However like many who entered the field in the 1940s he rejected the ideals of his intellectual predecessors and sought a new multicultural postnational scholarship Throughout his career Noble has examined this rupture in American intellectual life In *Death of a Nation* he presents the culmination of decades of thought in a sweeping treatise on the shaping of contemporary American studies and an eloquent summation of his distinguished career Exploring the roots of American exceptionalism Noble demonstrates that it was a doomed ideology Capitalists who believed in a bounded nationalism also depended on a boundless international marketplace This contradiction was inherently unstable and the belief in a unified national landscape exploded in World War II The rupture provided an opening for alternative narratives as class ethnicity race and region were reclaimed as part of the nation s history Noble traces the effects of this shift among scholars and artists and shows how even today they struggle to imagine an alternative post national narrative and seek the meaning of local and national cultures in an increasingly transnational world While Noble illustrates the challenges that the paradigm shift created he also suggests solutions that will help scholars avoid romanticized and reductive approaches toward the study of American culture in the future

Counter-revolution of the Word Alan Filreis,2012-09-01 During the Cold War an unlikely coalition of poets editors and politicians converged in an attempt to discredit if not destroy the American modernist avant garde Ideologically diverse yet willing to bespeak their hatred of modern poetry through the rhetoric of anticommunism these anticommunist antimodernists as Alan Filreis dubs them joined associations such as the League for Sanity in Poetry to decry the modernist conspiracy against form and language In Counter revolution of the Word Filreis narrates the story of this movement and assesses its effect on American poetry and poetics Although the antimodernists expressed their disapproval through ideological language their hatred of experimental poetry was ultimately not political but aesthetic Filreis argues By analyzing correspondence decoding pseudonyms drawing new connections through the archives and conducting interviews Filreis shows that an informal network of antimodernists was effective in suppressing or distorting the postwar careers of many poets whose work had appeared regularly in the 1930s Insofar as modernism had consorted with radicalism in the Red Decade antimodernists in the 1950s worked to sever those connections fantasized a formal and unpolitical pre Depression High Modern moment and assiduously sought to de radicalize the remnant avant garde Filreis s analysis provides new insight into why experimental poetry has aroused such fear and

Turncoats, Traitors, and Fellow Travelers Arthur Redding, 2009-10-08 The Cold War was unique in the way films books television shows colleges and universities and practices of everyday life were enlisted to create American political consensus This coercion fostered a seemingly hegemonic nationally unified perspective devoted to spreading a capitalist socially conservative notion of freedom throughout the world to fight Communism In Turncoats Traitors and Fellow Travelers Culture and Politics of the Early Cold War Arthur Redding traces the historical contours of this manufactured consent by considering the ways in which authors playwrights and directors participated in responded to and resisted the construction of Cold War discourses The book argues that a fugitive resistance to the status quo emerged as writers and activists variously fled into exile went underground or grudgingly accommodated themselves to the new spirit of the times To this end Redding examines work by a wide swath of creators including essayists W E B Du Bois and F O Matthiessen novelists Ralph Ellison Patricia Highsmith Jane Bowles and Paul Bowles playwrights Arthur Miller poets Sylvia Plath and filmmakers Elia Kazan and John Ford The book explores how writers and artists created works that went against mainstream notions of liberty and offered alternatives to the false dichotomy between capitalist freedom and totalitarian tyranny These complex responses and the era they reflect had and continue to have profound effects on American and international cultural and intellectual life as can be seen in the connections Redding makes between past and present

The American Renaissance Reconsidered Walter Benn Michaels, Donald E. Pease, 1989-09 The term American Renaissance designates a period in our nation's history when the literary classics appeared works original enough to mark a beginning for America's literary history But the American Renaissance Donald Pease argues in his introduction does not belong to the nation's secular history so much as it denotes a

rebirth from it Independent of the time kept by secular history the American Renaissance keeps what we could call global Renaissance time the sacred time a nation claims to renew when it claims its cultural place as a great nation existing within a world of great nations Providing each nation with the terms for cultural greatness denied to secular history the renaissance is not an occasion occurring within any specific historical time or place so much as it is a moment of cultural achievement that repeatedly demands to be reborn The American Renaissance Reconsidered examines this demand for rebirth in terms other than those ordained by the American Renaissance itself In the seven pieces collected here it is reborn not outside of but within America s secular history as the authors examine anew the period of the American Renaissance and the period in which its history was written Contributing authors are Eric J Sundquist Jane P Tompkins Louis A Renza Jonathan Arac Donald E Pease Walter Benn Michaels and Allen Grossman

Imagining Language in America Michael P. Kramer, 2014-07-14 In this study of the rhetoric of American writings on language Michael Kramer argues that the prevalent critical distinction between imaginative and nonimaginative writing is of limited theoretical use Breaking down the artificial disciplinary barriers between two areas of scholarly inquiry the literature

of the American Renaissance and the study of language in the United States between the Revolution and the Civil War Kramer finds in various walks of intellectual life a broad range of writers who imagined language for the new experiment in self government Each of these men combined ideas about language with ideas about America so as to form cultural fictions or creative renderings of the nation its meaning its character and how it worked In order to reassess American linguistic and literary nationalism Kramer allows Noah Webster whose influential grammatical and lexicographic works have been considered only marginal to literary history to share the stage with more conventionally literary figures the neglected Longfellow and the canonical Whitman Then an essay on The Federalist and the pragmatic language related problems faced by the founding fathers introduces revisionary analyses of two New England writers who confronted American culture and society through their Romantic critiques of language the minister and theologian Horace Bushnell and Nathaniel Hawthorne Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Revisionary Interventions Into the Americanist Canon

Donald E. Pease, 1994-06-17 Throughout the era of the Cold War a consensus reigned as to what constituted the great works of American literature Yet as scholars have increasingly shown and as this volume unmistakably demonstrates that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves works both outside and within the traditional canon This book is an effort to recover those lost voices Engaging New Historicist neo Marxist poststructuralist and other literary practices this volume marks important shifts in the organizing principles and self understanding of the field of American Studies Originally published as a special issue of boundary 2 the essays gathered here discuss writers as diverse as Kate Chopin Frederick Douglass Emerson Melville W D Howells Henry James W E B DuBois and Mark Twain plus the historical figure John Brown Two major sections devoted to the theory of romance and to cultural historical analyses emphasize the political perspective of New Americanist literary and cultural study Contributors William E Cain Wai chee Dimock Howard Horwitz Gregory S Jay Steven Mailloux John McWilliams Susan Mizruchi Donald E Pease Ivy Schweitzer Priscilla Wald Michael Warner Robert Weimann
