Economic Concepts Robert C. Bingham,1972 **Economic concepts: a programmed approach. Second edition**
Robert Charles BINGHAM,1969 **The Programming Approach and the Demise of Economics** Franco
Archibugi,2019-11-20 In this book the first of three volumes Franco Archibugi sets out to create an epistemology of
economics arguing for a radical overturning of the conventional analysis from a positive approach to a programming
approach This overturning leads to a reappraisal of the foundations of Economics itself and to an improved integration of
Economics as an autonomous discipline alongside Sociology Political Science Operational Research Social Engineering and
Physical or Spatial Planning The author interrogates how scientific the social sciences really are before proposing a new
scientific paradigm for the social sciences a political preference function and a general programming approach The chapters
revisit hitherto neglected economists like Gunnar Myrdal Ragnar Frisch Vassili Leontief and Leif Johansen using their theory
to overturn the epistemological approach of the entire science of economics Volume II explores oppositions to the traditional
and conventional teaching of economics whilst Volume III presents a concrete and practical example of how to build a
Planning Accounting Framework PAF as associated with Frisch s plan frame explored in Volume II to demonstrate the extent
to which decisions and negotiations can be routed in the social sciences **Economics: Concepts, Methodologies, Tools,
and Applications** Management Association, Information Resources,2015-06-30 Organizations governments and corporations
are all concerned with distributing their goods and services to those who need them most consequently benefiting in the
process Only by carefully considering the interrelated nature of social systems can organizations achieve the success they
strive for Economics Concepts Methodologies Tools and Applications explores the interactions between market agents and
their impact on global prosperity Incorporating both theoretical background and advanced concepts in the discipline this
multi volume reference is intended for policymakers economists business leaders governmental and non governmental
organizations and students of economic theory *Engineering Economic Analysis Practices for Highway Investment* Michael
J. Markow,2012 TRB s National Cooperative Highway Research Program NCHRP Synthesis 424 Engineering Economic
Analysis Practices for Highway Investment explores how U S transportation agencies have applied engineering economics
benefit cost analyses and similar procedures to decisions on highway investments **Multiple Criteria And Multiple
Constraint Levels Linear Programming: Concepts, Techniques And Applications** Yong Shi,2001-06-28 This book
introduces multiple criteria and multiple constraint levels linear programming MC2LP which is an extension of linear
programming LP and multiple criteria linear programming MCLP In the last decade the author and a group of researchers
from the USA China Korea Germany and Hungary have been working on the theory and applications of MC2LP problems This
volume integrates their main research results ranging from theoretical bases to broad areas of real world applications The
theoretical bases include the formulation of MC2LP integer MC2LP and MC2 transportation model fuzzy MC2LP and fuzzy

duality of MC2LP optimal system designs and contingency plans MC2 decision support system and MC2 computer software development The application areas are accounting management information systems production planning and telecommunications management The book serves as a seminar text for both undergraduates and graduates who have a linear algebra or equivalent background For practitioners it will help in handling LP type problems in multiple decision making environment
