A New Measure of Competition in the Financial Industry Jacob Bikker,Michiel van Leuvensteijn,2014-08-27 The 2008 credit crisis started with the failure of one large bank Lehman Brothers Since then the focus of both politicians and regulators has been on stabilising the economy and preventing future financial instability At this juncture we are at the last stage of future proofing the financial sector by raising capital requirements and tightening financial regulation Now the policy agenda needs to concentrate on transforming the banking sector into an engine for

growth Reviving competition in the banking sector after the state interventions of the past years is a key step in this process This book introduces and explains a relatively new concept in competition measurement the performance conduct structure PCS indicator The key idea behind this measure is that a firm s efficiency is more highly rewarded in terms of market share and profit the stronger competitive pressure is The book begins by explaining the financial market s fundamental obstacles to competition presenting a brief survey of the complex relationship between financial stability and competition The theoretical contributions of Hay and Liu and Boone provide the theoretical underpinning for the PCS indicator while its application to banking and insurance illustrates its empirical qualities Finally this book presents a systematic comparison between the results of this approach and all existing methods as applied to 46 countries over the same sample period This book presents a comprehensive overview of the knowns and unknowns of financial sector competition for commercial and central bankers policy makers supervisors and academics alike

International Economics and Confusing Politics David Robertson, 2008-01-01 This volume must be read and recommended to the policy makers of developed and developing countries alike Global Business Review In a world in which noisy anti globalization groups get huge media attention it is refreshing to read this more measured analysis of the interface between international economics and politics and of the positive role institutions such as the WTO can play to improve our lot Kym Anderson The World Bank US David Robertson is an expert guide on the intricacies of international trade politics the WTO and so called civil society This valuable book incisively cuts through the rhetoric surrounding international trade and should be read by all who care about the future of the world trading system Douglas A Irwin Dartmouth College US This book is an amazing and unusual piece of scholarship It reviews with equal candour the activities of industry groups NGOs and the multilateral organisations giving readers an understanding of where the debate about globalisation is taking the world economy Peter J Lloyd University of Melbourne Australia This is a carefully crafted well balanced and eminently readable monograph It bravely tackles some of the critical yet controversial issues of contemporary international political economy The author pulls no punches and as a consequence his analysis and policy recommendations are particularly pertinent and refreshing John H Dunning University of Reading UK and Rutgers University US The great historic lesson of the second half of the 20th century was that opening national economies to international trade and flows of capital knowledge and enterprise boosts prosperity and liberty Yet in recent decades promoters of Green and other single issues have turned against openness In this book David Robertson draws on his wide practical experience and academic knowledge to unmask the follies and warn of the damages from protectionism Wolfgang Kasper University of New South Wales Australia David Robertson supplies a definitive account the definitive account of the economics and politics of global commerce His book is impressively informed about the vicissitudes of international trade and rests on extraordinary knowledge of the treaties and institutions that have governed its perilous course through recent decades Unusually in a work of such learning the author openly confronts the enemies of free trade He

exposes the self interest of international lawyers and NGOs when they attempt to restrict trade and his analyses of failings in the EU and UN are hard to refute International Economics and Confusing Politics is a signal resource for anyone concerned with the management of the global economy Eric Jones Melbourne Business School Australia and Netherlands Institute of Advanced Study The IMF the World Bank and GATT WTO have had to adapt to changing circumstances in the past 60 years as they guided the world economy to growing interdependence and prosperity Now they face several simultaneous challenges In this book David Robertson discusses the rise of new economic players including proliferating NGOs self promoting UN agencies and emerging economies such as Brazil China and India which call into question the management of G7 governments This volume assesses the future of international economic relations as economic imbalances are exacerbated by these developments and by changing international alliances The author also considers the interests of small developing countries which are acting collectively to seek a place at the table as well as more preferential treatment International socialism has re invented itself as participatory democracy which is employed by civil society to challenge inter governmental agencies The future of international economic integration will depend on how these developments affect trade finance aid and development policies Providing a review of international economic relations
