Civil Society in Democratization Peter Burnell, Peter Calvert, 2004-03 Featuring a broad range of perspectives on the democratic process this collection of essays explores the development of civil society and how civil societies manage democratic change around the world *The Politics of the Postcommunist World* Stephen White, Daniel Nelson, 2017-11-01 This title was first published in 2001 This series brings together the most significant journal articles to appear in the field of comparative politics since the 1970s The aim is to render accessible to teachers researchers and students an extensive range of essays as a basis for understanding established terrain and new ground *Reassessing the Paradigm of Economics* Valeria Mosini, 2011-07-28 When President Reagan and Prime Minister Thatcher adopted the neoliberal doctrine as the paradigm of economics there was no evidence that the move would have been successful but thirty years on the recurrent crises that culminated in 2008 suggest a serious mis match between expectations and outcomes a re examination of the paradigm is in order This book focuses on Milton Friedman s formulation of the neoliberal doctrine and analyses two aspects that were essential to turning it into a fully fledged paradigm the attribution of scientific status to positive economics which led to informing public policies on the requirements of the market and the characterisation of economic freedom as capable of promoting political freedom which led to identifying free market with democracy The book exposes Friedman s methodological argument for attributing positive economics scientific status as a failure and his characterisation of economic freedom as a delusion it identifies in the emergence as the mainstream in economics of the neoclassical synthesis which borrowed from Walras the mathematical treatment of equilibrium but not the ethical and social framework in which it was inscribed a development that facilitated the transition from the Keynesian to the neoliberal paradigm Dr Mosini shows that the gigantic bail outs carried out courtesy of the public purse which institutionalised the practice of collectivising losses while keeping profits private were no accident but the consequence of the rethinking of the function of lender of last resort according to Friedman s conception of rationality in relation to risk combined with his interpretation of the 1930s recession The book concludes that the neoliberal paradigm has served the interests of the economically powerful social strata it was designed to benefit extremely well but that the deep and deepening injustice it has brought about calls for a complete rethinking of the paradigm of economics according to ethical principles respectful of human values This book should be of interest to students and researchers of Political Economy Economic Methodology History of Economic Thought and Philosophy *Asia-Pacific Economies* Iyanatul Islam, Anis Chowdhury, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company Democratizing or Reconfiguring Predatory Autocracy? Myths and Realities in

Africa Today Tatah Mentan, 2009 The celebrations that heralded democratic change in the 1990s in Africa have gradually faded into muffled cries of anger and attendant violence of despair Almost everywhere on the continent so called democratic leaders are openly subverting the people's will and disregarding national constitutions Ordinary people find themselves removed from the centres of power marginalized and reduced to helpless and hopeless onlookers as political leaders their friends and families noisily enjoy the spoils of impunity From Nigeria to Zimbabwe Kenya to the Ivory Coast and Uganda to Cameroon the writing is on the wall The experiment with democracy has blatantly taken a dangerous nosedive There is a crisis of honest committed and democratic leadership in spite of the advancements in education and intellectualism of the populace and despite the influences of globalization and new understandings of governance In this brief volume Tatah Mentan makes an incisive diagnosis of how the security forces brutally crush protests against bids to stay in power through corrupt electoral practices as well as how opposition voices have been hunted down and crushed or intimidated into graveyard silence This is a clarion call for Africans to embrace the values of People Power in synch with the dictates of the current global imperatives There is no place for visionless leadership Africans need to raise their voices to recapture their freedom

comparative politics *Changing Course in Latin America* Kenneth M. Roberts, 2015-01-12 This book explores the impact of economic crises and free market reforms on party systems and political representation in contemporary Latin America. It explains why some patterns of market reform align and stabilize party systems whereas other patterns of reform leave party systems vulnerable to widespread social protest and electoral instability. In contrast to other works on the topic, this book accounts for both the institutionalization and the breakdown of party systems and it explains why Latin America turned to the Left politically in the aftermath of the market reform process. Ultimately, it explains why this left turn was more radical in some countries than others and why it had such varied effects on national party systems.

Legacies of the Left Turn in Latin America Manuel Balán, Françoise Montambeault, 2020-01-31 *Legacies of the Left Turn in Latin America: The Promise of Inclusive Citizenship* contains original essays by a diverse group of leading and emerging scholars from North America, Europe, and Latin America. The book speaks to wide-ranging debates on democracy, the left, and citizenship in Latin America. What were the effects of a decade and a half of left and center-left governments? The central purpose of this book is to evaluate both the positive and negative effects of the Left turn on state-society relations and inclusion. Promises of social inclusion and the expansion of citizenship rights were paramount to the center-left discourses upon the factions' arrival to power in the late 1990s and early 2000s. This book is a first step in understanding to what extent these initial promises were or were not fulfilled and why. In analyzing these issues, the authors demonstrate that these years yield both signs of progress in some areas and the deepening of historical problems in others. The contributors to this book reveal variation among and within countries and across policy and issue areas such as democratic institution reforms, human rights, minorities rights, environmental questions, and violence. This focus on issues rather than countries distinguishes the book from other recent volumes on the left in Latin America, and the book will speak to a broad and multi-dimensional audience both inside and outside the academic world. Contributors: Manuel Balán, Françoise Montambeault, Philip Oxhorn, Maxwell A. Cameron, Kenneth M. Roberts, Nathalia Sandoval Rojas, Daniel M. Brinks, Benjamin Goldfrank, Roberta Rice, Elizabeth Jelin, Celina Van Dembroucke, Nora Nagels, Merike Blofield, Jordi D'ez, Eve Bratman, Gabriel Kessler, Olivier Dabène, Jared Abbott, Steve Levitsky.
