Economics Law And Intellectual Property Seeking Strategies For Research And Teaching In A Developing:

Economics, Law and Intellectual Property Ove Granstrand, 2013-04-18 Intellectual property has rapidly become one of the most important as well as most controversial subjects in recent years amongst productive thinkers of many kinds all over the world Scientific work and technological progress now depend largely on questions of who owns what as do the success and profits of countless authors artists inventors researchers and industrialists Economic legal and ethical issues play a central role in the increasingly complex balance between unilateral gains and universal benefits from the knowledge society Economics Law and Intellectual Property explores the field in both depth and breadth through the latest views of leading experts in Europe and the United States It provides a fundamental understanding of the problems and potential solutions not only in doing practical business with ideas and innovations but also on the level of institutions that influence such business Addressing a range of readers from individual scholars to company managers and policy makers it gives a unique perspective on current developments

Intellectual Property Protection for AI-generated Creations Ana Ramalho, 2021-12-29 This book explores the intersection between artificial intelligence and two intellectual property rights copyright and patents The increasing use of artificial intelligence for generating creative and innovative output has an impact on copyright and patent laws around the world The book aims to map and analyse that impact The author considers how artificial intelligence systems may aid or in some cases substitute for human creators and inventors in the creative process It is from this angle that the copyright and patent regimes in four jurisdictions Europe the United States Australia and Japan are investigated in depth The author describes how these jurisdictions look at works and inventions generated through a process where artificial intelligence is present or prevalent and examines how copyright and patent regimes should adapt to the reality of artificially intelligent creators and inventors As the use of artificial intelligence to generate creative and innovative products becomes more common this book will be a valuable resource to researchers academics and policy makers alike

Intellectual Property Rights in a Fair World Trade System Annette Kur, 2011-01-01 Intellectual Property law IP particularly in relation to international trade regimes is increasingly finding itself challenged by rapid developments in the technological and global economic landscapes In its attempt to maintain a responsive legislative system that is interacting successfully with global trade rules IP is having to respond to an increasing number of actors on an international level This book examines the problems associated with this undertaking as well as suggesting possible revisions to the TRIPS agreement that would make it more relevant to the environment in which today's IP mechanisms are operating The overall aim is to find an adequate response to the IP balance dilemma The theme is pursued throughout various topics including a look at what this means in relation to economy in a country like China and also considering how IP is increasingly having to reconcile itself with human rights issues

Economic and Management Perspectives on Intellectual Property Rights C. Peeters, B. van Pottelsberghe de la Potterie, Bruno van Pottelsberghe de la Potterie, 2005-11-29 This book provides a better understanding of how intellectual

property can improve economic and business performance It focuses on three particular issues the valuation of patents the transfer of knowledge and the management of innovation and intellectual property Scholars from leading worldwide institutions use quantitative methods and advanced survey techniques to explore the complex relationship between patents innovation venture capital and scientific research The book focuses on three broad issues the valuation of patents the transfer of knowledge and the management of innovation and intellectual property

Research Handbook on Law and Literature Goodrich, Peter, Daniela Gandorfer, Cecilia Gebruers, 2022-03-22 In this original and thought provoking Research Handbook an international and interdisciplinary group of scholars artists lawyers judges and writers offer a range of perspectives on

rethinking law by means of literary concepts Presenting a comprehensive introduction to jurisliterary themes it destabilises the traditional hierarchy that places law before literature and exposes the literary nature of the legal **Handbook of Business and Public Policy** Kellow, Aynsley, Porter, Tony, Ronit, Karsten, 2021-08-27 This comprehensive Handbook provides an analysis of the key issues accomplishments and challenges of research and practices related to the interactions between business and public policy **Economics and Management in the Biopharmaceutical Industry in the USA** Rachel Kim, 2018-12-07 From a managerial perspective the biopharmaceutical industry represents a competitive fast changing intellectually powered innovation driven sector Many management scholars have studied this discontinuous era to make sense of strategic behavior and the cognition of firms and top managers A past look at the biopharmaceutical industry provides answers to questions that most managers have For example what options do you have and what actions do you take when new firms enter your industry In the 1970s new biotechnology firms funded by venture capitalists appeared in the pharmaceutical industry with new knowledge Successful pharmaceutical firms decided to collaborate with the new entrants and forge relationships to develop and create new biotechnology engineered drugs Thus the addition of new biotechnology firms ushered in a new business model based on strategic alliances Strategic alliances have now become an industrial norm called open innovation The author looks at the historical path of the biopharmaceutical industry particularly in the United States While the pharmaceutical industry's main contributions to society are substantial there are pressing challenges the industry must face such as an increase in infectious disease outbreaks or the global aging population which require new types of care additionally mental health care and prescription painkiller addiction are persistent issues with economic repercussions to both federal and local governments This book presents a holistic view of the biopharmaceutical industry putting it in a historical context It will best serve those who are eager to learn about this dynamic fast evolving industry and who would like to tackle current biopharmaceutical industry issues in the United States and be prepared for future industry challenges *A Critical Mind* Christine Godt, Matthias Lamping, 2023-06-22 This book traces the academic footprint of Hanns Ullrich Thirty contributions revolve around five central topics of his oeuvre the European legal order competition law intellectual property the regulation of new technologies and the global market order Acknowledging him as a trailblazer the book aims to capture how deeply Hanns Ullrich has influenced contemporaries and subsequent generations of scholars The contributors reiterate the path breaking patterns of his teachings such as his contemplation of intellectual property as embedded in competition the necessity of balancing private and public interests in intellectual property law the policies of market integration and the peculiar relationship of technological advancement and protectionism *The Economics of the European Patent System* Dominique Guellec, Bruno van Pottelsberghe de la Potterie, 2007-02-01 Why does society allow or even encourage private appropriation of inventions When do patents encourage competition when do they hamper it How should society design the compromise between the interest of the inventor and the interest of the users of patented

inventions How should the patent system adapt to new technological areas These questions and many more are addressed by the authors in this groundbreaking analysis of the economics behind the European patent system Beginning with the history and principles of the patent system the book then examines the economic effects of patenting on innovation and the diffusion of technology and growth Throughout the book the theory and the reality are discussed alongside real world examples and comparison between the European USA and Japanese patent systems Socio-Economic Development Adam

Szirmai,2015-06-18 Taking a comparative and multidisciplinary approach this textbook offers a non technical introduction to the dynamics of socio economic development and stagnation *Posthuman Property and Law* Jannice Käll,2022-07-28 This book analyses the phenomenon of digitally mediated property and considers how it problematises the boundary between human and nonhuman actors The book addresses the increasingly porous border between personhood and property in digitized settings and considers how the increased commodification of knowledge makes visible a rupture in the liberal concept of the property owning free person Engaging with the latest work in posthumanist and new materialist theory it shows how property as a concept as well as a means for control changes fundamentally under advanced capitalism Such change is exemplified by the way in which data as an object of commodification is extracted from human activities yet is also directly used to affectively control or nudge humans Taking up a range of human engagements with digital platforms and coded architectures as well as the circulation of affects through practices of artificial intelligence that are employed to shape behaviour the book argues that property now needs to be understood according to an ecology of human as well as nonhuman actors The idea of posthuman property then offers both a means to critique property control through digital technologies as well as to move beyond the notion of the self owning object owning human Engaging the most challenging contemporary technological developments this book will appeal to researchers in the areas of Law and Technology Legal Theory Intellectual Property Law Legal Philosophy Sociology of Law Sociology and Media Studies **Building Knowledge Economies** ,2007

In many parts of the world knowledge is being put to work to accelerate and deepen the development process promoting innovation and helping to generate wealth and jobs This book discusses advanced development strategies that take into account education information and communication technology infrastructure innovation and the prerequisite economic and institutional regimes *Evolving properties of intellectual capitalism* Ove Granstrand,2018 Intellectual capitalism is evolving driving and driven by technological innovations and various forms of entrepreneurship The purpose of this eagerly anticipated book is to analyze the linkages between R D patents innovations entrepreneurship and growth Based on a large array of national empirical and policy studies it elaborates on a comprehensive range of innovation and IP issues that are pertinent not only to Europe but to the world as a whole These issues include the role of patents and licensing in the governance of technology and innovation and the various uses and abuses of patents It further elaborates on new IP phenomena in an increasingly patent intensive world with patent rich multinationals and patent savvy new entrants from Asia

In a world facing challenges that call for innovative responses the book contains a set of valuable policy recommendations for strengthening innovativeness for economic growth and ultimately for social value creation **Smart Urban Mobility**

Michèle Finck, Matthias Lamping, Valentina Moscon, Heiko Richter, 2020-09-28 This book adds a critical perspective to the legal dialogue on the regulation of smart urban mobility Mobility is one of the most visible sub domains of the smart city which has become shorthand for technological advances that influence how cities are structured public services are fashioned and citizens coexist In the urban context mobility has come under pressure due to a variety of different forces such as the implementation of new business models e g car and bicycle sharing the proliferation of alternative methods of transportation e g electric scooters the emergence of new market players and stakeholders e g internet and information technology companies and advancements in computer science in particular due to artificial intelligence At the same time demographic changes and the climate crisis increase innovation pressure In this context law is a seminal factor that both shapes and is shaped by socio economic and technological change This book puts a spotlight on recent developments in smart urban mobility from a legal regulatory and policy perspective It considers the implications for the public sector businesses and citizens in relation to various areas of public and private law in the European Union including competition law intellectual property law contract law data protection law environmental law public procurement law and legal philosophy Chapter Location Data as Contractual Counter Performance A Consumer Perspective on Recent EU Legislation of this book is available open access under a CC BY 4 0 license at link.springer.com **Mechanisms to Enable Follow-On Innovation**

Alina Wernick, 2021-05-13 The patent system is based on one patent per product presumption and therefore fails to sustain complex follow on innovations that contain a number of patents The book explains that follow on innovations may be subject to market failures such as hold ups and excessive royalties For decades scholars have debated whether the market problems can be solved with voluntary licensing i e open innovation or with compulsory liability rules The book concludes that neither approach is sufficient On the one hand incentives to engage in open innovation practices involving patents are insufficient On the other hand the existing compulsory liability rules in patent and competition law are not tailored to address follow on innovator s interests To transcend this problem the author proposes a compulsory liability rule against the suppression of follow on innovation that paradoxically fosters early on voluntary licensing between patent holders and follow on innovators The book is aimed at patent and competition law scholars and practitioners patent attorneys managers engineers and economists who either engage in open innovation involving patents or conduct research on the topic It also offers insights to policy and law makers reviewing the possibilities to foster open innovation initiatives or adapt the scope of patent remedies or employ compulsory licenses for patents *Invisible Institutionalisms* Swethaa S Ballakrishnen, Sara Dezalay, 2021-02-11 Taking its cue from theoretical and ideological calls to challenge globalisation as a dynamic of homogenisation and resistance as led from and directed against the Global North this volume asks what can we see when we shift the lens beyond a North

South binary Based on empirical studies of frontier zones of legal globalisation in India Pakistan and Latin America the book adopts an original format Framed as a relational dialogue between newer as well as more prominent scholars within the field from various cores through to postcolonial academic peripheries it questions structural variables in the shadows of legal globalisation and how we as scholars build a space for critique
