**Ireland, Sweden, and the Great European Migration, 1815-1914** Donald H. Akenson, 2011 A comparative history of European emigration      **Irish Economics, 1700-1783** Henry Raup Wagner, 1907      *Ireland in Official Print Culture, 1800-1850* Niall Ó Ciosáin, 2014-02-27 The decades after 1800 saw a fundamental redefinition of the role of the state in Ireland Many of the most pervasive and enduring forms of official intervention and regulation date from this period such as a permanent centralised police force a system of elementary education a network of small courts and a national system of poor relief Many of these were preceded by large scale official investigations whose results were published as parliamentary reports another novel aspect of state activity The book analyses the construction and dissemination of an official image of Irish society in those reports It takes as its principal example a state inquiry into poverty the largest social survey of Ireland lasting from 1833 to 1836 running to thousands of pages and offering a unique insight into pre famine society and official perceptions of it This volume also illuminates two other contemporary aspects of the development of the state The 1820s saw the beginning in Ireland of a comprehensive engagement with the parliamentary process by the population at large with the appearance of the first mass electoral organisation in Europe the Catholic Association Finally the Union of 1801 meant that Irish legislation was now discussed and enacted in Britain rather than in Ireland and by a parliament and public newly informed by official reports on Ireland This was therefore a crucial period in the construction of the public understanding of Ireland in both Britain and Ireland a process in which the state and its publications played a fundamental role      *Ireland, 1912-1985* Joseph Lee, 1989 Assessing the relative importance of British influence and of indigenous impulses in shaping an independent Ireland this book identifies the relationship between personality and process in determining Irish history

**Dwelling(s) in Nineteenth-Century Ireland** Heather Laird, Jay R. Roszman, 2023-10-15 What did it mean to have an Irish dwelling in the nineteenth century How did Irish people write about think about visually represent or imagine what constituted home Showcasing research from scholars based in Ireland the United Kingdom and further afield this interdisciplinary volume seeks to answer these questions by exploring the physicality and symbolism of Irish dwellings and the home as a place of repose exercise and work Using a range of methodological approaches including history folklore and literature this volume offers new perspectives on the material culture of home fictionalized homes social housing schemes suburban living spaces home and social mobility institutional living migration and memories of the home house and gender and eviction Rather than focus on the Big House which has already received considerable scholarly attention this volume foregrounds dwelling spaces that were especially vulnerable to economic forces the homes of the urban and rural poor Additionally the book acknowledges the importance to nineteenth century Ireland of a class that has arguably received even less attention in Irish scholarship than the poor a rising urban suburban middle class exploring their impact on housing and on cultural and leisure activities An Open Access version of Christopher Cusack's chapter Back into the old homestead The

**The Irish Education Experiment** Donald Akenson, 2012-05-16 This volume focuses on the creation structure and evolution of the Irish national system of education It illustrates how the system was shaped by the religious social and political realities of nineteenth century Ireland and discusses the effects that the system had upon the Irish nation namely that it was the chief means by which the country

was transformed from one in which illiteracy predominated to one in which most people even the poorest could read and write *Ireland's Great Famine and Popular Politics* Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history. A country of some eight and a half million people lost one million to hunger and disease and another million to emigration. According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate. But the poor did resist. In word and deed they defied landlords, merchants and agents of the state; they rioted for food, opposed rent and rate collection, challenged the decisions of those controlling relief works and scorned clergymen who attributed their suffering to the Almighty. The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics. Contributors include distinguished scholars of modern Ireland and emerging historians and critics. This book is essential reading for students of modern Ireland and the global history of collective action.

*Poverty and the Poor Law in Ireland, 1850-1914* Virginia Crossman, 2013-08-30 The book provides the first detailed comprehensive assessment of the ideological basis and practical operation of the poor law system in the post-Famine period in Ireland 1850-1914. *The Cambridge History of Ireland: Volume 3, 1730-1880* James Kelly, 2018-02-28 The eighteenth and nineteenth centuries were an era of continuity as well as change. Though properly portrayed as the era of Protestant Ascendancy it embraces two phases: the eighteenth century when that ascendancy was at its peak and the nineteenth century when the Protestant elite sustained a determined rear-guard defence in the face of the emergence of modern Catholic nationalism. Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy, society, population, emigration, religion, language, state formation, culture, art and architecture and the Irish abroad. It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty-first century. *Journals of the House of Lords* Great Britain. Parliament. House of Lords, 1896. *Ireland and Anglo-Irish Relations Since 1800: Union to the land war* Neil C. Fleming, Alan O'Day, 2008 This landmark series of three volumes brings together selected essays from leading and specialist journals that have made a significant or original contribution to Irish historiography. Each volume contains a range of articles reappraising the major political themes of the period but also offering new interpretations on social, economic, cultural and religious history as well as women's history and historical geography. Introductions to each volume explain the specific and wider significance of the articles. *The Cambridge Historical Encyclopedia of Great Britain and Ireland* Christopher Haigh, 1990-08-31 The history of Britain and Ireland is traditionally presented as a succession of dramatic changes but in this reference work the 60 contributors under the editorship of Christopher Haigh have emphasized patterns of continuity instead, including cultural, social, political and economic themes. 300 illustrations. **Medicine, health and**

**Irish experiences of conflict, 1914-45** David Durnin, Ian Miller, 2016-10-28 This book explores Irish experiences of medicine and health during the First and Second World Wars the War of Independence and the Civil War It examines the physical mental and emotional impact of conflict on Irish political and social life as well as medical scientific and official interventions in Irish health matters The contributors put forward the case that warfare and political unrest profoundly shaped Irish experiences of medicine and health and that Irish political social and economic contexts added unique contours to those experiences not evident in other countries In pursuing these themes the book offers an original and focused intervention into a central but so far unexplored area of Irish medical history      A New History of Ireland Theodore William Moody, Francis X. Martin, Francis John Byrne, 1976 A New History of Ireland in nine volumes provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the middleages down to the present day Back cover      **Bibliography of Economics 1751-1775** Henry Higgs, 1935
