

## The Miranda Warning Case of Missouri v. Seibert

✓ Exclusively available on IvyPanda

Missouri v. Seibert (2004) is the telling example in the jurisdiction where the Miranda warnings were undermined. During the trial case, justices accepted the guilt of the suspect, but the question was whether all procedures were conducted within strict court rules and principles. During the investigation, it was detected that officers conducting the interrogation resorted to the "question-first, Mirandize-latter" approach in order to obtain the full confession on the convict's behalf. The interrogators managed to get it, but they violated the Fourth and Fifth amendments of the Constitution, which state that every inmate has the right to be silent, use lawyer assistance and counseling, and not to be coerced to confess. The Miranda warnings imply the convict's choice to accept their guilt or not. The major justices could not reach the typical decision during the process and wrote for the plurality of opinions and dissent.

### Justice David Souter

David Souter decided to resort to the plurality of opinions and justices and question the Miranda warnings' effectiveness that was not given a suspect during the initial integration. As the suspect could apply for the Miranda rights after the first confession, the crucial court aim was to question whether the Miranda warnings were used for counselling the suspect (Patrice Seibert) concerning her rights during the custodial process. It was unclear whether Seibert had any chances to keep silent or had any choices presenting an admissible confession or statement at that moment. Souter wondered if Seibert were coerced to bear testimony against herself.

A plurality of opinions happens when justices cannot come to the common solution in resolving an issue. The significant merit of the plurality opinion option is that it could hand in a prosecutor guidance and discern the vague picture on when exactly an intermediate warning had to be supposed to be effective. Obviously, it was necessary to observe when these warnings were given so as not to misguide and confuse a criminal concerning their rights in the frame of the fourth and fifth amendments of the US Constitution (Rubin, 2021). In case the Miranda Warnings are given in the middle of continuous and coordinated interrogations, the warnings are considered to be infective,

a comprehensive picture of women's participation benefits and challenges they face working in agrifood systems globally. The report shows how increasing women's empowerment and gender equality in agrifood systems enhances women's well-being and the well-being of their households, creating opportunities for economic growth, greater incomes, productivity, and resilience. The report comes more than a decade after the publication of the State of food and agriculture SOFA 2010 11 Women in agriculture: Closing the gender gap for development. SOFA 2010 11 documented the tremendous costs of gender inequality not only for women but also for agriculture and the broader economy and society, making the business case for closing existing gender gaps in accessing agricultural assets, inputs, and services. Moving beyond agriculture: The status of women in agrifood systems reflects not only on how gender equality and women's empowerment are central to the transition towards sustainable and resilient agrifood systems but also on how the transformation of agrifood systems can contribute to gender equality and women's empowerment. It provides a comprehensive analysis of the available evidence on gender equality and women's empowerment in agrifood systems that has been produced over the last decade. The report also provides policymakers and development actors with an extensive review of what has worked, highlighting the promise of moving from closing specific gender gaps towards the adoption of gender transformative approaches that explicitly address the formal and informal structural constraints to equality. It concludes with specific recommendations on the way forward.

Offering nearly 800 entries, it lists both primary and secondary sources, classic and current works, and items in print and available on the Internet. Drawing together over one hundred years of writings, *Women in the American Civil War: An Annotated Bibliography* is an invaluable resource for readers and researchers interested in this neglected topic. During the American Civil War, women played a highly significant role, yet modern writers often overlook their experiences and contributions. *Women in the American Civil War: An Annotated Bibliography* is the first reference work to focus exclusively on women in the war. Sections list sources on such diverse topics as women as nurses and medical relief workers, women's changing economic roles, their lives as refugees, as spies and scouts, or in military camps. It also looks at the literature on the miscellaneous topics of women in public, wives of politicians and military commanders, family life, and women on the wrong side of the law.      **Dictionary of International Biography**, 2001.
