Nelson, 1979 The author's thesis is that Hemingway did in words what Expressionist painters were doing in paint Nelson describes Expressionism as a twentieth century phenomenon characteristic of our age marked by emotion distortion violent color line and contrast haunted by uncontrollable cries of pain He analyzes Hemingway's works and relates certain elements in these to works of art 18 reproductions of works by Cezanne Picasso Klee Munch and others are included **The Arizona Quarterly** , 1982 German Art in New York Gregor Langfeld, 2025-10-01 Why did the Museum of Modern Art and the Guggenheim in New York and art collectors and curators such as Katherine Dreier and Alfred Barr collect modern German art in the first half of the twentieth century And why did certain works of art belong to the canon while others did not In this book Gregor Langfeld argues that National Socialism played a crucial role in the canonization of movements such as Expressionism and the Bauhaus A role which undermined the post 1945 reputations of many artists associated with classical and figurative trends Langfeld offers important new insights into the political and ideological motivations behind the New York art world's fluctuations in opinion fashion and price The Symbolist Prints of Edvard Munch Vivian Campbell, Prelinger Elizabeth, Elizabeth Prelinger, Edvard Munch, Michael Taylor, Parke-Taylor Michael, Michael Parke-Taylor, Peter Schjeldahl, Art Gallery of Ontario, 1996-01-01 Illustrated with black and white and colored prints from Edvard Munch Original pictorial wrappers and color illustrated frontispiece Published alongside the exhibition of the same name This exhibition considers Munch's relevance to a modern world through three interpretive paths From the forward These paths are the technical methods Munch used as a Symbolist printmaker his reception and exhibitions in North America and Munch's influence in popular culture With several essays and a chronology **Prints by Erich Heckel and Karl Schmidt-Rottluff** Gunther Thiem, Erich Heckel, Los Angeles County Museum of Art, 1985

modernism to designate the multicultural heritage of this century's artistic production Lemke reveals the generative and germinating black cultural Other in the arts She examines this neglected dimension in full fascinating detail blending literary theory social history and cultural analysis to document modernism's complex absorption of African culture and art She details numerous ways in which African and African American forms visual styles musical idioms black dialects and fantasies Baker's costume and dance say permeated high and mass culture on both sides of the Atlantic So called primitive art and high modernism savage rhythms and European music hall culture European and African American expressions in jazz European primitivism and the racial awakenings of African American culture paired and freshly examined by Lemke these subjects stand revealed in their true interrelatedness Insisting on modernism's two way cultural flow Lemke demonstrates not only that white modernism owes much of its symbolic capital to the black Other but that black modernism built itself in part on white Euro American models Through superbly nuanced readings of individual texts and images fifteen striking examples of which are reproduced in this handsome volume Lemke reforms our understanding of modernism She shows us in clear invigorating fashion that transatlantic modernism in both its high and popular modes was significantly more diverse than commonly supposed Students and scholars of modernism African American studies and cultural studies and those with interests in twentieth century art dance music or literature will find this book richly rewarding
