Pro Spring Rob Harrop, Jan Machacek, 2006-11-22 Spring the open source Java based framework allows you to build lighter better performing applications Written by Spring insiders Rob Harrop and Jan Machacek Pro Spring is the only book endorsed by Rod Johnson founder of the Spring Framework At over 800 pages this is by far the most comprehensive book available and thoroughly explores the power of Spring You ll learn Spring basics and core topics as well as share the authors insights and real world experience with remoting mail integration hibernate and EJB From the foreword Rob s enthusiasm for Spring and technology in general is infectious He has a wide range of industry experience and a refreshingly practical common sense approach to applying it All those qualities come out in this book It s evident on nearly every page that it reflects in depth experience with Spring and J2EE as a whole Rob is not only an author and open source developer he is an application developer like his readers I firmly believe that the best writing on software development comes out of experience in the trenches so this is my kind of book If you re new to Spring this book will help you understand its core concepts and the background in areas such as transaction management and O R mapping that underpins them If you re already using Spring you will learn about features you haven t yet seen and hopefully gain a deeper understanding of those features youre already using Rod Johnson Founder of the Spring Framework

Advances in Natural Language Processing Tapio Salakoski, Filip Ginter, Sampo Pyysalo, Tapio Pahikkala, 2006-08-10 This book constitutes the refereed proceedings of the 5th International Conference on Natural Language Processing FinTAL 2006 held in Turku Finland in August 2006 The book presents 72 revised full papers together with 1 invited talk and the extended abstracts of 2 invited keynote addresses The papers address all current issues in computational linguistics and monolingual and multilingual intelligent language processing theory methods and applications

Contemporary Pagan and Native Faith Movements in Europe Kathryn Rountree, 2015-06-01 Pagan and Native Faith movements have sprung up across Europe in recent decades yet little has been published about them compared with their British and American counterparts Though all such movements valorize human relationships with nature and embrace polytheistic cosmologies practitioners beliefs practices goals and agendas are diverse Often side by side are groups trying to reconstruct ancient religions motivated by ethnonationalism especially in post Soviet societies and others attracted by imported traditions such as Wicca Druidry Goddess Spirituality and Core Shamanism Drawing on ethnographic cases contributors explore the interplay of neo

nationalistic and neo colonialist impulses in contemporary Paganism showing how these impulses play out intersect collide and transform

Text, Speech and Dialogue Petr Sojka, Aleš Horak, Ivan Kopeček, 2008-09-09 The annual Text Speech and Dialogue Conference TSD which originated in 1998 is now starting its second decade So far almost 900 authors from 45 countries have contributed to the proceedings TSD constitutes a recognized platform for the presentation and discussion of state of the art technology and recent achievements in the field of natural language processing It has become an interdisciplinary forum interweaving the themes of speech technology and language processing The conference attracts researchers not only from Central and Eastern Europe but also from other parts of the world Indeed one of its goals has always been to bring together NLP researchers with different interests from different parts of the world and to promote their mutual cooperation One of the ambitions of the conference is as its title says not only to deal with dialogue systems as such but also to contribute to improving dialogue between researchers in the two areas of NLP i.e. between text and speech people In our view the TSD conference was successful in this respect in 2008 as well This volume contains the proceedings of the 11th TSD conference held in Brno Czech Republic in September 2008 Following the review process 79 papers were accepted out of 173 submitted an acceptance rate of 45.7%

Freedom of Expression in Europe Mario Oetheimer, European Court of Human Rights. Registry of the Court, Council of Europe. Directorate General of Human Rights, 2007-01-01 The European Court of Human Rights has always defended the idea that freedom of expression has an essential role to play in a democratic society helping to foster the development of an open tolerant society in which human rights are respected Freedom of expression is not absolute and unconditional however there are certain limits which must be respected How can racist xenophobic propaganda be proscribed without trespassing on individual freedom of expression How can a suspect's right to be presumed innocent be protected without placing restrictions on the public's right to information Where should we draw the line concerning the criticism of politicians by the media It is by answering these and many similar questions over a period of almost fifty years that the European Court of Human Rights has developed its case law in respect of Article 10 of the European Convention on Human Rights presented in summary form in this book

Proceedings of the Board of Regents University of Michigan. Board of Regents, **Foundations of Intelligent Systems** Marzena Kryszkiewicz, Henryk Rybinski, Andrzej Skowron, Zbigniew W. Raś, 2011-06-24 This book constitutes the refereed proceedings of the 19th International Symposium on Methodologies for Intelligent Systems ISMIS 2011 held in Warsaw Poland in June 2011 The 71 revised papers presented together with 3 invited papers were carefully reviewed and selected from 131 submissions The papers are organized in topical sections on rough sets in memoriam Zdzisław Pawlik challenges in knowledge discovery and data mining in memoriam Jan Jtykov social networks multi agent systems theoretical backgrounds of AI machine learning data mining mining in databases and warehouses text mining theoretical issues and applications of intelligent web application of intelligent systems in sound processing intelligent applications in biology and medicine fuzzy sets theory and applications

intelligent systems tools and applications and contest on music information retrieval Microsoft SQL Server 2005 Analysis Services Step by Step Reed Jacobson, Stacia Misner, 2006 CD ROM includes practice exercises and e book **Advances in Computational Intelligence, Part I** Salvatore Greco, Bernadette Bouchon-Meunier, Giulianella Coletti, Mario Fedrizzi, Benedetto Matarazzo, Ronald R. Yager, 2012-07-20 These four volumes CCIS 297 298 299 300 constitute the proceedings of the 14th International Conference on Information Processing and Management of Uncertainty in Knowledge Based Systems IPMU 2012 held in Catania Italy in July 2012 The 258 revised full papers presented together with six invited talks were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on fuzzy machine learning and on line modeling computing with words and decision making soft computing in computer vision rough sets and complex data analysis theory and applications intelligent databases and information system information fusion systems philosophical and methodological aspects of soft computing basic issues in rough sets 40th anniversary of the measures of fuzziness SPS11 uncertainty in profiling systems and applications handling uncertainty with copulas formal methods to deal with uncertainty of many valued events linguistic summarization and description of data fuzzy implications theory and applications sensing and data mining for teaching and learning theory and applications of intuitionistic fuzzy sets approximate aspects of data mining and database analytics fuzzy numbers and their applications information processing and management of uncertainty in knowledge based systems aggregation functions imprecise probabilities probabilistic graphical models with imprecision theory and applications belief function theory basics and or applications fuzzy uncertainty in economics and business new trends in De Finetti s approach fuzzy measures and integrals multicriteria decision making uncertainty in privacy and security uncertainty in the spirit of Pietro Benvenuti cooperation game theory probabilistic approach *Microsoft Expression Web 3 In Depth* Jim Cheshire, 2009-10-05 Beyond the Basics Beneath the Surface In Depth Microsoft Expression Web 3 Advice and techniques that you need to get the job done Looking for ways to streamline your work so that you can focus on maximizing your time In Depth provides specific tested and proven solutions to the problems you run into every day things other books ignore or oversimplify This is the one book that you can rely on to answer all the questions you have now and will have in the future In Depth offers Comprehensive coverage with detailed solutions Breakthrough techniques and shortcuts that are unavailable elsewhere Practical real world examples with nothing glossed over or left out Troubleshooting help for tough problems you can t fix on your own Outstanding authors recognized worldwide for their expertise and teaching style Quick information via sidebars tips reminders notes and warnings In Depth is the only tool you need to get more done in less time *The Publishers Weekly*, 2004 Space and Time in Languages and Cultures Luna Filipovi?, Kasia M. Jaszczolt, 2012-07-24 This is an interdisciplinary volume that focuses on the central topic of the representation of events namely cross cultural differences in representing time and space as well as various aspects of the conceptualisation of space and time It brings together research on space and time from a variety of angles

both theoretical and methodological Crossing boundaries between and among disciplines such as linguistics psychology philosophy or anthropology forms a creative platform in a bold attempt to reveal the complex interaction of language culture and cognition in the context of human communication and interaction The authors address the nature of spatial and temporal constructs from a number of perspectives such as cultural specificity in determining time intervals in an Amazonian culture distinct temporalities in a specific Mongolian hunter community Russian specific conceptualisation of temporal relations Seri and Yucatec frames of spatial reference memory of events in space and time and metaphorical meaning stemming from perception and spatial artefacts to name but a few themes The topic of space and time in language and culture is also represented from a different albeit related point of view in the sister volume Space and Time in Languages and Cultures Linguistic diversity HCP 36 which focuses on the language specific vis vis universal aspects of linguistic representation of spatial and temporal reference Trademark Protection and Freedom of Expression Wolfgang Sakulin, 2011-01-01

Trademark law grants right holders an exclusive right to prevent third parties from using a sign This can readily be seen as the antithesis of freedom of expression which arguably includes a right of third parties to non exclusive use of a sign for a variety of purposes ranging from informing consumers to voicing criticism or to artistic expression Drawing on cultural theory and which has shown that society is involved in a constant struggle about shaping the meaning of signs including trademarks and this highly original and provocative book contends that trademark law fails to sufficiently differentiate between commercial purpose and the social political or cultural meanings carried by one and the same sign The author shows that the and functional approach and to justifying trademark rights taken in current jurisprudence and doctrine is deficient in that it does not take sufficient account of the fact that trademark rights can restrict the freedom of expression of third parties Specifically the exercise of rights granted under the European Trademark Regulation and the national trademark rights harmonized by the European Trademark Directive can cause a disproportionate impairment of the freedom of commercial and non commercial expression of third parties as protected by Article 10 of the European Convention on Human Rights ECHR The author and s in depth analysis explores such elements as the following o the economic and ethical rationales of trademark rights o whether trademark rights under European law can be justified by these rationales o how freedom of expression can serve as a limitation to trademark rights o what level of protection such freedom of expression grants to third parties o the role of trademarks of social cultural or political importance in public discourse o chilling effects on public discourse that can be caused by the exercise of trademark rights o the interpretation of provisions regulating the grant and revocation of trademark rights in light of freedom of expression and o the interpretation of the scope of protection and the limitations of trademark rights in light of freedom of expression In effect the analysis serves to expand the focus of legislators courts and trademark registering authorities from the interests of trademark right holders who seemingly are granted ever more protection to the justified interests of third parties The critical analysis of existing trademark law leads

the author to clearly identify the areas of trademark law in which the law needs to be reinterpreted and the areas in which legislative action should be taken with recommendations for a number of limitations that should aid legislators in drafting concrete amendments The new insights and imperatives provided by this book are sure to prove useful to both courts interpreting existing provisions of trademark laws and to legislators who are faced with the challenges of drafting new rules or revising existing laws

The Oxford Handbook of the Dead Sea Scrolls Timothy H. Lim, John J. Collins, 2012-10-11 In 1946 the first of the Dead Sea Scroll discoveries was made near the site of Qumran at the northern end of the Dead Sea Despite the much publicized delays in the publication and editing of the Scrolls practically all of them had been made public by the time of the fiftieth anniversary of the first discovery That occasion was marked by a spate of major publications that attempted to sum up the state of scholarship at the end of the twentieth century including The Encyclopedia of the Dead Sea Scrolls OUP 2000 These publications produced an authoritative synthesis to which the majority of scholars in the field subscribed granted disagreements in detail A decade or so later The Oxford Handbook of the Dead Sea Scrolls has a different objective and character It seeks to probe the main disputed issues in the study of the Scrolls Lively debate continues over the archaeology and history of the site the nature and identity of the sect and its relation to the broader world of Second Temple Judaism and to later Jewish and Christian tradition It is the Handbook's intention here to reflect on diverse opinions and viewpoints highlight the points of disagreement and point to promising directions for future research
