enigma surrounding Mohenjo Daro surpasses these corporeal entities compelling us to explore the peculiar and at times the conjectural. The riddle's most captivating manifestation is discovered in assertions extracted from Hindu texts which serves as evidence of the enduring allure of the city. Unexpectedly the archaeological discoveries of Mohenjo Daro's ruins and tangible artifacts reveal a narrative that transcends the limitations of traditional historiography. Drawing inspiration from Hindu scriptures specifically the Puranas this narrative alludes to the former dominion of an extraterrestrial civilization within the ancient metropolis. The crux of this captivating allegation revolves around allusions to vimanas discovered in Hindu scriptures which form the basis of the claims regarding extraterrestrial rule in Mohenjo Daro. Hindu mythology often depicts vimanas as celestial flying carriages or aerial vehicles. In certain interpretations they are even likened to sophisticated aircraft or spacecraft. Advocates of the thesis argue that the vimanas in question were not figurative expressions or sacred symbols but rather physical sophisticated aerial apparatuses controlled by extraterrestrial entities. Further it is asserted that these extraterrestrial beings not only possessed sophisticated technology but also exerted influence over Mohenjo Daro and consequently the entire Indus Valley Civilization. As evidence the Vimanaika Shastra an alleged ancient treatise on aeronautics is frequently cited. Advocates of the hypothesis contend that this document provides comprehensive elucidations of vimanas encompassing their fabrication functionality and capabilities. Nevertheless it is critical to acknowledge that the Vimanaika Shastra's credibility remains a matter of dispute among scholars as numerous contend that it is a relatively recent fabrication rather than an ancient scripture. The claims regarding the dominion of an extraterrestrial civilization at Mohenjo Daro primarily stem from conjectural analyses of Puranic depictions of vimanas and allusions to aerial celestial beings. Occasionally these perceptions are supported by imaginative speculation rather than empirical evidence. As our inquiry into these assertions progresses it is imperative to acknowledge that scientifically and historically speaking they continue to be firmly grounded in the realm of conjecture. The notion that extraterrestrial intervention influenced the development or decline of the Indus Valley Civilization specifically Mohenjo Daro has yet to be validated by the scientific community at large. Notwithstanding this these assertions continue to captivate us by combining ancient mythology contemporary technology and historical enigma. In order to unravel the complex web of veracity and fabrication that envelops these captivating claims it is imperative that we delve further into their historical and mythological context scrutinizing the strata of culture history and belief that have contributed to the enduring enigma of Mohenjo Daro. In summary Mohenjo Daro an ancient city situated in contemporary Pakistan has consistently captivated and absorbed individuals. The region under consideration was a pivotal center of the Indus Valley Civilization an epoch that lasted from 2500 to 1500 BCE. An untranslated script sophisticated urban planning and sophisticated drainage systems are all hallmarks of this civilization. A city of significant importance during the Indus Valley Civilization Mohenjo Daro endured for numerous centuries prior to its collapse the causes of which remain a subject of ongoing scholarly discourse. Environmental

modifications such as discharge fluctuations in the Indus River have been hypothesized to have influenced the water supply and agricultural practices of the city. Ancestral presence or internal strife are alternative hypotheses regarding the reason for the city's abandonment. Specific interpretations of Hindu scriptures, specifically the Puranas, lead to claims that Mohenjo Daro is under the dominion of an extraterrestrial race. The aforementioned texts contain allusions to vimanas, which are frequently characterized as aerial carriages or spacecraft. Advocates of the theory assert that these vimanas were sophisticated aerial apparatuses operated by extraterrestrial entities. The Vimanaika Shastra, purportedly an ancient treatise on aeronautics, is a Puranic text often referenced to substantiate these claims. Nevertheless, the text's veracity is the subject of considerable debate, and numerous authorities contend that it is a contemporary forgery and not an ancient scripture. Moreover, claims regarding the dominion of an extraterrestrial civilization over Mohenjo Daro are predominantly founded upon conjectural analyses of Puranic depictions of vimanas and allusions to avian deities. Frequently, these interpretations are devoid of concrete evidence and predominantly depend on speculative speculation. The assertions that Mohenjo Daro was ruled by an extraterrestrial civilization or that the Vimanaika Shastra is an authentic ancient document are not supported by scientific evidence. There is an absence of empirical evidence indicating any extraterrestrial intervention during the development or demise of the Indus Valley Civilization. Archaeological and anthropological research has yielded crucial knowledge regarding the culture, society, and traditions of the inhabitants of Mohenjo Daro and other cities in the Indus Valley. Indus Valley archaeological digs at Mohenjo Daro and other locations have produced an abundance of information regarding the ancient civilization. These discoveries consist of pottery, well-designed settlements with efficient drainage systems, an early form of script, seals, and other artifacts that provide insights into the daily routines and commercial networks of the Harappan civilization. These findings offer a more tangible, empirically supported perspective on the historical history of the civilization. Regarding the demise of Mohenjo Daro and the Indus Valley Civilization, scholarly debate persists. Some hypotheses attribute the phenomenon in question to natural disasters or alterations in environmental conditions, whereas others argue that internal factors, including social or political conflicts, exerted an influence. These explanations do not conclusively point to extraterrestrial intervention.
