## Eye Of The Mirror:

*The Eye of the Mirror* Liana Badr, 2008 Taken from the quiet sanctuary of a convent school where she works as a maid Aisha is thrown back into the chaotic world of her parents home in the Tal Ezra tar refugee camp when the Lebanese civil war begins From then on she is caught up in a series of tragedies including the continuous bombardment of the camp by the Phalangists and the subsequent invasion and massacres within the settlement Aisha s family and friends are torn apart by events beyond their control and although she finds love and marries amid such violence the decision to start her own family becomes harder still Set within one of the most bloody conflicts of modern times this heart wrenching story shows how women s experience of war is particularly cruel as they confront the dilemma of bringing a new life into a war zone

Auden's O Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W Hass explores the ascendancy of the concept of nothing into late modernity He argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century s end this movement has shifted from linear progression to mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work *The Sea and the Mirror* an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times
