Eyelevel Fifty Histories:

Eyelevel Christopher Matthews, 2003 These fifty poems explore the primacy of perspective both that of the poetry and those of a diverse array of individuals historical and contemporary Syd Lea wrote in the foreword Here was a writer after my heart one whose command of canonical Anglophone poetry was patent but also one whose use of great traditions especially of the dramatic lyric was sui generis so fresh and virtuosic as to seem all but absolutely new in my experience *Poets & Writers*, 2003 **The History: The fifties and beyond in Milwaukee** Harold Gauer, 1993 **The Smithsonian's History of America in 101 Objects Deluxe** Richard Kurin, 2013-10-29 A magnificent new history of America told through 101 treasures from the Smithsonian's collections The Deluxe Edition features eight videos that go behind the scenes at the Smithsonian for a closer look at some of the book's most important objects hosted by author and curator Richard Kurin The Smithsonian Institution is America's largest and most cherished repository for the objects that define our common heritage Richard Kurin its Under Secretary for History Art and Culture has for decades served as a driving force in the effort of our national museums to tell America's whole story This book is the culmination of a broad effort led by Kurin and involving all the Smithsonian's museums and more than a hundred of its top scholars and curators to select a set of objects that could collectively represent the American experience Strong deliberation honed literally millions of possibilities down to a careful selection of 101 remarkable objects that do justice to the history of our bountiful land and its people That history begins with remains from the earliest years of the pre Columbian continent and relics of the American Revolution and Civil War It includes the inventions of the industrial revolution artifacts of the Depression World War II and cold war eras icons of pop culture and of the Civil Rights movements as well as the objects that now symbolize the digital age and the first years of the new millennium Each entry pairs the fascinating history of each object with the place it has come to occupy in our national memory Kurin sheds new light on familiar objects like the Star Spangled Banner and Abraham Lincoln's stovepipe hat Dorothy's ruby slippers and Julia Child's kitchen the giant pandas and the space shuttle Discovery including the often astonishing tales of how each made its way into the Smithsonian Other objects like the suffragists Great Demand banner and the Tuskegee flyer will be eye opening new discoveries for many but no less evocative of the most poignant and important moments of American history Others like Sitting Bull's ledger Cesar Chavez's union jacket and the Enola Gay bomber illustrate difficult chapters in the nation's history Kurin also includes behind the scenes insight into controversies arising from their exhibition at the Smithsonian In Kurin's hands these marvelous objects come to vivid life awakening a deep and tactile connection with our nation's history A beautiful treasure in its own right The Smithsonian's History of America in 101 Objects is an incomparable journey through America's collective memory and a celebration of the resilient power of objects to illustrate who we are as a people **A Rebel's History of Mars** Nadia Afifi, 2025-06-10 Rocky Mountain Fiction Writer member's striking new book of time travel and biological science fiction is a thrilling ride Kezza an aerialist in the Martian
