John, Jesus, and History, Volume 1 Paul N. Anderson,Felix Just,Tom Thatcher,2024-11-08 Over the last two centuries

many scholars have considered the Gospel of John off limits for all quests for the historical Jesus That stance however creates a new set of problems that need to be addressed thoughtfully The essays in this book reflecting the ongoing deliberations of an international group of Johannine and Jesus scholars critically assess two primary assumptions of the prevalent view the dehistoricization of John and the de Johannification of Jesus The approaches taken here are diverse including cognitive critical developments of Johannine memory distinctive characteristics of the Johannine witness new historicism Johannine Synoptic relations and fresh analyses of Johannine traditional development In addition to offering state of the art reviews of Johannine studies and Jesus studies this volume draws together an emerging consensus that sees the Gospel of John as an autonomous tradition with its own perspective in dialogue with other traditions Through this challenging of critical and traditional assumptions alike new approaches to John s age old riddles emerge and the ground is cleared for new and creative ways forward

Genocide: Volume 2, Genocide in the Indigenous, Early Modern and Imperial Worlds, from c.1535 to World War One Ned Blackhawk, Ben Kiernan, Benjamin Madley, Rebe Taylor, 2023-05-04 Volume II documents and analyses genocide and

extermination throughout the early modern and modern eras. It tracks their global expansion as European and Asian imperialisms and Euroamerican settler colonialism spread across the globe before the Great War forging new frontiers and impacting Indigenous communities in Europe, Asia, North America, Africa, and Australia. Twenty-five historians with expertise on specific regions explore examples on five continents, providing comparisons of nine cases of conventional imperialism with nineteen of settler colonialism and offering a substantial basis for assessing the various factors leading to genocide. This volume also considers cases where genocide did not occur, permitting a global consideration of the role of imperialism and settler-Indigenous relations from the sixteenth to the early twentieth centuries. It ends with six pre-1918 cases from Australia, China, the Middle East, Africa, and Europe that can be seen as premonitions of the major twentieth-century genocides in Europe and Asia.

A History of Preaching Volume 1 O.C. Edwards, Jr., 2010-09-01. A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser-known figures, Edwards paints a detailed, compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1, appearing in the print edition, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth—all of their distinctive contributions receive careful attention. Yet lesser-known figures and developments also appear: from the ninth-century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching; to Howell Harris and Daniel Rowlands, preachers of the eighteenth century; Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, contained on the enclosed CD-ROM, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission.
