Eyewitnesses to Massacre Zhang Kaiyuan, Donald MacInnis, 2015-05-20 The infamous Nanjing Massacre of 1937 in which the Japanese Imperial Army raped and slaughtered countless Chinese citizens on the eve of World War II has been described in well publicized books from various Chinese Japanese and German perspectives But this collection of first hand testimony from the archives of the Yale Divinity School Library may be the most powerful record of all Here are eyewitness accounts by a remarkable group of nine men and one woman dedicated compassionate well educated articulate and devout missionaries who were there on the scene refusing to leave and doing everything in their power to save the Chinese victims of this appalling atrocity [The Nanking Atrocity, 1937-38](#)

Peter Cozzens, 2001 **Developing Mission** Joseph W. Ho, 2022-01-15 In *Developing Mission* Joseph W. Ho offers a transnational cultural history of US and Chinese communities framed by missionary lenses through time and space tracing the lives and afterlives of images cameras and visual imaginations from before the Second Sino Japanese War through the first years of the People's Republic of China When American Protestant and Catholic missionaries entered interwar China they did so with cameras in hand Missions principally aimed at the conversion of souls and the modernization of East Asia became by virtue of the still and moving images recorded quasi anthropological ventures that shaped popular understandings of and formal foreign policy toward China Portable photographic technologies changed the very nature of missionary experience while images that missionaries circulated between China and the United States affected cross cultural encounters in times of peace and war Ho illuminates the centrality of visual practices in the American missionary enterprise in modern China even as intersecting modernities and changing Sino US relations radically transformed lives behind and in front of those lenses In doing so *Developing Mission* reconstructs the almost lost histories of transnational image makers subjects and viewers across twentieth century China and the United States [Nanjing 1937](#) Peter Harmsen, 2015-11-17 A true story of the Sino Japanese conflict A valuable account of a little known event and a grim reminder of the darker side of war *Military History Monthly* The infamous Rape of Nanjing looms like a dark shadow over the history of Asia in the

twentieth century and is among the most widely recognized chapters of World War II in China. By contrast, the story of the month-long campaign before this notorious massacre has never been told in its entirety. *Nanjing 1937* by Peter Harmsen fills this gap. This is the follow-up to Harmsen's bestselling *Shanghai 1937: Stalingrad on the Yangtze* and begins where that book left off. In stirring prose, it describes how the Japanese Army, having invaded the mainland and emerging victorious from the Battle of Shanghai, pushed on toward the capital Nanjing in a crushing advance that confirmed its reputation for bravery and savagery in equal measure. While much of the struggle over Shanghai had carried echoes of the grueling war in the trenches two decades earlier, the Nanjing campaign was a fast-paced mobile operation in which armor and air power played major roles. It was blitzkrieg two years before Hitler's invasion of Poland. Facing the full might of modern mechanized warfare, China's resistance was heroic but ultimately futile. As in Shanghai, the battle for Nanjing was more than a clash between Chinese and Japanese soldiers; and citizens of a variety of nations witnessed or took part in the hostilities. German advisors, American journalists, and British diplomats all played important parts in this vast drama. And a new power appeared on the scene: Soviet pilots dispatched by Stalin to challenge Japan's control of the skies. This epic tale is told with verve and attention to detail by Harmsen, a veteran East Asia correspondent who consolidates his status as the foremost chronicler of World War II in China with this path-breaking work of narrative history.

Eyewitness to the Fetterman Fight John H. Monnett, 2017-03-16

The Fetterman Fight ranks among the most crushing defeats suffered by the U.S. Army in the nineteenth century. West. On December 21, 1866, during Red Cloud's War (1866-1868), a well-organized force of 1,500 to 2,000 Oglala Lakota, Northern Cheyenne, and Arapaho warriors annihilated a detachment of seventy-nine infantry and cavalry soldiers, among them Captain William Judd Fetterman and two civilian contractors. With no survivors on the U.S. side, the only eyewitness accounts of the battle came from Lakota and Cheyenne participants. In *Eyewitness to the Fetterman Fight*, award-winning historian John H. Monnett presents these Native views drawn from previously published sources as well as newly discovered interviews with Oglala and Cheyenne warriors and leaders. Supplemented with archaeological evidence, these narratives flesh out historical understanding of Red Cloud's War. Climate change in the mid-nineteenth century made the resource-rich Powder River Country in today's Wyoming increasingly important to Plains Indians. At the same time, the discovery of gold in Montana encouraged prospectors to pass through the Powder River region on their way north, and so the U.S. Army began to construct new forts along the Bozeman Trail. In the resulting conflict, the Lakotas and Cheyennes defended their hunting ranges and trade routes. Traditional histories have laid the blame for Fetterman's 1866 defeat and death on his incompetent leadership and thus implied that the Indian alliance succeeded only because of Fetterman's personal failings. Monnett's sources paint another picture. Narratives like those of Miniconjou Lakota warrior White Bull suggest that Fetterman's actions were not seen as rash or reprehensible until after the fact. Nor did his men flee the field in panic. Rather, they fought bravely to the end. The Indians, for their part, used their knowledge of the terrain to carefully plan and execute an ambush, ensuring their victory.

Critical to understanding the nuances of Plains Indian strategy and tactics the firsthand narratives in Eyewitness to the Fetterman Fight reveal the true nature of this Native victory against regular army forces **The Japanese Empire**

Disaster Jean Sénat Fleury,2021-01-22 The book demonstrates that even if during the first period of the Shwa era 1931 1945 the real driving force to war was the Japanese military Hirohito as supreme commander gave full support to the army On multiple occasions as an emperor he sanctioned many government policies Accordingly he was responsible for the war and for the atrocities that the Japanese troops committed in Asia during the Pacific War Japan s Empire Disaster is a book of information and training a reference document that should be read as an educational tool on the history of the modernization of Japan and the war launched by Emperor Meiji and Hirohito to build Japan Empire in the Pacific and East Asia The book shares the view of the author on Hirohito s responsibility on the events that marked Japan s entry into the war that began when Japanese troops invaded Manchuria on September 19 1931 and culminated with Japan s surprise attack on the U S naval base at Pearl Harbor on December 7 1941 Medieval Cruelty Daniel Baraz,2019-06-30 The Middle Ages are often

thought of as an era during which cruelty was a major aspect of life a view that stems from the anti Catholic polemics of the Reformation Daniel Baraz makes the striking discovery that the concept of cruelty which had been an important issue in late antiquity received little attention in the medieval period before the thirteenth century From that point on interest in cruelty increased until it reached a peak late in the sixteenth century Medieval Cruelty s extraordinary scope ranges from the writings of Seneca to those of Montaigne and draws from sources that include the views of Western Christians Eastern Christians and Muslims Baraz examines the development of the concept of cruelty in legal texts philosophical treatises and other works that attempt to discuss the nature of cruelty He then considers histories martyrdom accounts and literary works in which cruelty is represented rather than discussed directly In the wake of the intellectual transformations of the twelfth and thirteenth centuries an increasing focus on the intentions motivating an individual s acts rekindled the discussion of cruelty Baraz shows how ethical thought and practice about cruelty which initially focused on external forces became a tool to differentiate internal groups and justify violence against them This process is evident in attacks on the Jews in the peasant rebellions of the later Middle Ages and in the Wars of Religion **AF Press Clips** ,1981 *Crisis in East Timor and U.S.*

Policy Toward Indonesia United States. Congress. Senate. Committee on Foreign Relations,1992 Museums and the Act of Witnessing Ross J. Wilson,2021-10-20 Museums and the Act of Witnessing examines how representations of traumatic histories and the legacies of the twentieth century in museums and heritage sites across the world shape political social and cultural identities Drawing on an interdisciplinary analysis of a variety of museum exhibitions around the globe the book demonstrates how the narrative of witnessing has shaped representation of war genocide repression and violence Revealing that this form of presentation is inherently Western in its origins and nature Wilson goes on to argue that witnessing the past is to colonise the future as we project a certain view of the events of the past onto the present Detailing the character

content and meanings of representation that focus on the traumatic events of the twentieth century the book demonstrates the way in which visitors are cast as witnesses and questions what the true purpose of witnessing really is Museums and the Act of Witnessing draws attention to the fact that we have inherited a distinct and often limited mode of seeing the past and considers how we can more effectively engage with the past in the present The book will be of interest to academics and students engaged in the study of museums history sociology conflict politics and memory Minority Rule and Refugees in Africa (The Role of the All Africa Conference of Churches).
