Hazen,1992 Why do smokers claim that the first cigarette of the day is the best What is the biological basis behind some heavy drinkers belief that the hair of the dog method alleviates the effects of a hangover Why does marijuana seem to affect ones problem solving capacity Intoxicating Minds is in the author s words a grand excavation of drug myth Neither extolling nor condemning drug use it is a story of scientific and artistic achievement war and greed empires and religions and lessons for the future Ciaran Regan looks at each class of drugs describing the historical evolution of their use explaining how they work within the brain s neurophysiology and outlining the basic pharmacology of those substances From a consideration of the effect of stimulants such as caffeine and nicotine and the reasons and consequences of their sudden popularity in the seventeenth century the book moves to a discussion of more modern stimulants such as cocaine and ecstasy In addition Regan explains how we process memory the nature of thought disorders and therapies for treating depression and schizophrenia Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations Finally Intoxicating Minds considers the physical consequences of our co evolution with drugs how they have altered our very being and offers a glimpse of the brave new world of drug therapies *The Faber Book of Modern Verse* Michael Roberts,2009 First published in February

1936 just under a year from when the idea for it was first discussed this is one of the most important and influential anthologies of the twentieth century Since then three further editions by in succession Anne Ridler Donald Hall and Peter Porter have been published All took as their kernel the original selection by Michael Roberts This Faber Finds reissue restores that pristine selection More likely than not the original idea was T S Eliot s the choice of editor was undoubtedly his and it was an inspired one Michael Roberts was a poet himself and a good one but more important for this task was his acute awareness of the poetry scene and his sense of the modern movement within it Yes his purpose was tendentious He excludes some poets he admires such as Edmund Blunden and Walter de la Mare because they seem to me to have written good poems without having been compelled to make any notable development of poetic technique On the other hand I have included only poems which seem to me to add to the resources of poetry to be likely to influence the future development of poetry and language From the very start and could there be a more arresting one with Gerard Manley Hopkins The Wreck of the Deutschland Michael Roberts powerfully and consistently fulfils that aim Philip Hobsbaum in The Oxford Companion to Twentieth Century Poetry says of The Faber Book of Modern Verse it also encapsulates as no other literary document quite
