*Preaching and Paul's Letter to the Romans* Ronald J. Allen, 2025-07-10 Ronald J Allen argues that the apostle Paul wrote his letter to the Romans to address specifically the gentiles in the congregation in Rome Allen suggests that this was because the gentiles exhibited arrogant behavior towards Jewish members of the community thereby undermining a primary facet of the early church to witness to the community of love and mutual support that God seeks for all Allen shows readers how Paul points the gentiles to the faithfulness of God who invites them to recognize and live according to the grace of God shown to them through Jesus Christ In this pastorally engaged work Allen not only provides historical commentary on Romans but also helps preachers and scholars make

connections between arrogance and its destructiveness in communities today as well as inviting congregations to participate in the grace that makes possible a loving and mutually respectful community      **Arts and Humanities** Brenda Jo Brueggemann, 2012-08-02 This volume in The SAGE Reference Series on Disability explores the arts and humanities within the lives of people with disabilities It is one of eight volumes in the cross disciplinary and issues based series which incorporates links from varied fields making up Disability Studies as volumes examine topics central to the lives of individuals with disabilities and their families With a balance of history theory research and application specialists set out the findings and implications of research and practice for others whose current or future work involves the care and or study of those with disabilities as well as for the disabled themselves The presentational style concise and engaging emphasizes accessibility Taken individually each volume sets out the fundamentals of the topic it addresses accompanied by compiled data and statistics recommended further readings a guide to organizations and associations and other annotated resources thus providing the ideal introductory platform and gateway for further study Taken together the series represents both a survey of major disability issues and a guide to new directions and trends and contemporary resources in the field as a whole

**Moth** Matthew Gandy, 2016-06-15 Unlike their gaudy day flying cousins moths seem to reside in the shadows as denizens of the night circling around streetlights or caught momentarily in the glare of headlights on a country lane As Matthew Gandy demonstrates in this book however there are many more species of day flying moths than there are butterflies and many rival butterflies in a dazzling range of markings Gandy shows that the study of moths formed an integral part of early natural history Many thousands of drawings paintings and physical specimens remain in museum collections and in recent years there has been a renewed surge of interest facilitated by advances in digital photography the internet and new cartographic projects that have enabled direct collaboration between amateur experts and scientific research projects He explores the rich history of vernacular names which speaks to a significant place for moths in early cultures of nature Names such as the Merveille du Jour the Green Brindled Crescent or the Clifden Nonpareil evoke a sense of wonder that connects disparate fields such as folklore the history of place and early scientific texts With wingspans ranging in size from a few millimetres to nearly a foot moths display an extraordinary diversity of evolutionary adaptations which Gandy captures here
