Revealing the entangled lives of texts and textiles in the early modern Atlantic world Textiles are the books that the colony was not able to burn Asociaci n Femenina para el Desarrollo de Sacatep quez AFEDES A history of the book in the Americas across deep time would reveal the origins of a literary tradition woven rather than written It is in what Danielle Skeeahan calls material texts that a people s history and culture is preserved in their embroidery their needlework and their woven cloth In defining textiles as a form of cultural writing The Fabric of Empire challenges long held ideas about authorship textuality and the making of books It is impossible to separate text from textiles in the early modern Atlantic novels newspapers broadsides and pamphlets were printed on paper made from household rags Yet the untethering of text from textile served a colonial agenda to define authorship as reflected in ink and paper and the pen as an instrument wielded by learned men and women Skeeahan explains that the colonial definition of the book and what constituted writing and authorship left colonial regimes blind to nonalphabetic forms of media that preserved cultural knowledge history and lived experience This book shifts how we look at cultural objects such as books and fabric and provides a material and literary history of resistance among the globally dispossessed Each chapter examines the manufacture and global circulation of a particular type of cloth alongside the complex print networks that ensured the circulation of these textiles promoted their production petitioned for or served to curtail the rights of textile workers facilitated the exchange of textiles for human lives and were in turn printed and written on surfaces manufactured from broken down linen and cotton fibers Bringing together methods and materials traditionally belonging to literary studies book history and material culture studies The Fabric of Empire provides a new model for thinking about the different media languages literacies and textualities in the early Atlantic world
