Wikipedia contributors, **What Is This Thing Called Jazz?** Eric Porter, 2002-01-31 Despite the plethora of writing about jazz little attention has been paid to what musicians themselves wrote and said about their practice An implicit division of labor has emerged where for the most part black artists invent and play music while white writers provide the commentary Eric Porter overturns this tendency in his creative intellectual history of African American musicians He foregrounds the often ignored ideas of these artists analyzing them in the context of meanings circulating around jazz as well as in relationship to broader currents in African American thought Porter examines several crucial moments in the history of jazz the formative years of the 1920s and 1930s the emergence of bebop the political and experimental projects of the 1950s 1960s and 1970s and the debates surrounding Jazz at Lincoln Center under the direction of Wynton Marsalis Louis Armstrong Anthony Braxton Marion Brown Duke Ellington W C Handy Yusef Lateef Abbey Lincoln Charles Mingus Archie Shepp Wadada Leo Smith Mary Lou Williams and Reggie Workman also feature prominently in this book The wealth of information Porter uncovers shows how these musicians have expressed themselves in print actively shaped the institutional structures through which the music is created distributed and consumed and how they aligned themselves with other artists and activists and how they were influenced by forces of class and gender What Is This Thing Called Jazz challenges

interpretive orthodoxies by showing how much black jazz musicians have struggled against both the racism of the dominant culture and the prescriptive definitions of racial authenticity propagated by the music's supporters both white and black
