**At the Edge of Existence** Brandon West, 2021-12-13 Few scary stories begin with a disclaimer that they are fictional. Instead, they claim to be true even when they are not. Such stories blur the line between fiction and reality, pushing audiences to consider where fiction ends and reality begins. These kinds of horror stories comprise the understudied subgenre of liminal horror. As the first book on this subject, this volume surveys a variety of liminal horror films. It discusses the different variations within liminal horror's subgenres and considers why horror films are obsessed with the natures of and borders between fiction and reality. After first laying out the basic traits of the horror genre in the context of liminality, this book then dives into film more specifically and how the medium is uniquely situated to explore the movement between the fictional and the real. Through lenses such as dreaming, memory, and perception, the following chapters explore the role liminal horror plays in the human psyche's subconscious, unconscious, and the various functions of the human mind in perceiving or misperceiving reality. **Focus On: 100 Most Popular New Line Cinema Films** Wikipedia contributors, **Ghosts in**

**Popular Culture and Legend** June Michele Pulliam, Anthony J. Fonseca, 2016-09-26 With entries that range from specific works to authors, folklore, and popular culture, including music, film, television, urban legend, and gaming, this book provides a single volume resource on all things ghostly in the United States and in other countries. The concept of ghosts has been an ongoing and universal element in human culture as far back as recorded history can document. In more modern popular culture and entertainment, ghosts are a popular mainstay, from *A Christmas Carol* and *Casper the Friendly Ghost* to *The Amityville Horror*, *Ghostbusters*, *Poltergeist*, *The Sixth Sense*, and *Ghost Whisperer*. This book comprehensively examines ghost and spirit phenomena in all its incarnations to provide readers with a holistic perspective on the subject. It presents insightful information about the contribution of a specific work or author to establish or further the evolution of ghost lore, rather than concentrating solely on the film, literature, music, or folklore itself. The book focuses on ghosts in western culture but also provides information about spirit phenomena and lore in international settings, as many of the trends in popular culture dealing with ghosts and spirits are informed by authors and filmmakers from Germany, Japan, Korea, and the United Kingdom. The writers and editors are experts and scholars in the field and enthusiastic fans of ghost lore, ghost films, ghost hunting, and urban legends, resulting in entries that are informative and engaging and make this the most complete and current resource on ghost and spirit lore available. **Sentence Diagramming 101** Dr. Jenifer Paquette, Laura Mita, 2022-08-01 A surprisingly

*Making and Remaking Horror in the 1970s and 2000s* David Roche, 2014-02-06 In *Making and Remaking Horror in the 1970s and 2000s* author David Roche takes up the assumption shared by many fans and scholars that original horror movies are more disturbing and thus better than the remakes He assesses the qualities of movies old and recast according to criteria that include subtext originality and cohesion With a methodology that combines a formalist and cultural studies approach Roche sifts aspects of the American horror movie that have been widely addressed class the patriarchal family gender and the opposition between terror and horror and those that have been somewhat neglected race the Gothic style and verisimilitude Containing seventy eight black and white illustrations the book is grounded in a close comparative analysis of the politics and aesthetics of four of the most significant independent American horror movies of the 1970s *The Texas Chain Saw Massacre* *The Hills Have Eyes* *Dawn of the Dead* and *Halloween* and their twenty first century remakes To what extent can the politics of these films be described as disturbing inasmuch as they promote subversive subtexts that undermine essentialist perspectives Do the politics of the film lie on the surface or are they wedded to the film's aesthetics Early in the book Roche explores historical contexts aspects of identity race ethnicity and class and the structuring role played by the motif of the American nuclear family He then asks to what extent these films disrupt genre expectations and attempt to provoke emotions of dread terror and horror through their representations of the monstrous and the formal strategies employed In this inquiry he examines definitions of the genre and its metafictional nature Roche ends with a meditation on the extent to which the technical limitations of the horror films of the 1970s actually contribute to this disturbing quality Moving far beyond the genre itself *Making and Remaking Horror* studies the redux as a form of adaptation and enables a more complete discussion of the evolution of horror in contemporary American cinema
