**A Little Larger Than the Entire Universe** Fernando Pessoa, 2006-04-04 The largest and richest English language volume of poetry from the greatest twentieth century writer you have never heard of. Los Angeles Times now thoroughly revised and updated. Edited, Translated, and with an Introduction by Richard Zenith, the author of the Pulitzer Prize finalist *Pessoa: A Biography*. A Penguin Classic. Writing obsessively in French, English, and Portuguese, poet Fernando Pessoa (1888-1935) left a prodigious body of work, much of it credited to three heteronyms: Alberto Caeiro, Ricardo Reis, and Alvaro de Campos, alter egos with startlingly different styles, points of view, and biographies. Offering a unique sampling of his most famous voices, this collection features Pessoa's major best-known works and several stunning poems that have come to light only in this century, including his long, highly autobiographical swan song. Featuring a rich body of work that has never before been translated into English, this is the finest introduction available to the stunning breadth of Pessoa's genius.

Teaching of Huna Max Freedom Long, 2023-12-26 *The Secret Science Behind Miracles* deals with the discovery of an ancient and secret system of workable magic which, if we can learn to use it as did the native magicians of Polynesia and North Africa, bids fair to change the world. *Self-Suggestion and the New Huna Theory of Mesmerism and Hypnosis* is a practical manual of self-suggestion using the Huna techniques, including detailed instructions as to how the operation works. Huna, Hawaiian for secret, is the word adopted by the author in 1936 to describe his theory of metaphysics. This information concerning those parts of psychology which we have come to call hypnosis, mesmerism, and suggestion is being presented as an addition to the scant literature on the ancient psycho-religious system of the Polynesians called Huna or the Secret.

*National Character in South African English Children's Literature* Elwyn Jenkins, 2006 This is the first full-length study of South African English youth literature to cover the entire period of its publication from the late nineteenth century to the early twenty-first century. What gives this book particular strength is its coverage of literature up to the 1960s, which has until now received almost no scholarly attention. Not only is this earlier literature a rewarding subject for study in itself, but it also throws light on subsequent literary developments. Jenkins also makes comparisons with American, Canadian, and Australian children's literature. This book is essential reading for anyone seeking to understand children's literature in the context of adult South African literature and South African cultural history.
