Life Embodied Nicolás Fernández-Medina, 2018-05-30 The concept of vital force the immanent energy that promotes the processes of life in the body and in nature has proved a source of endless fascination and controversy Indeed the question of what vitalizes the body has haunted humanity since antiquity and became even more pressing during the Scientific Revolution and beyond Examining the complexities and theories about vital force in Spanish modernity Nicolás Fernández Medina's *Life Embodied* offers a novel and provocative assessment of the question of bodily life in Spain Starting with Juan de Cabriada's landmark *Carta filosófica místico-chímica* of 1687 and ending with Ramón Gómez de la Serna's avant-gardism of the 1910s Fernández Medina incorporates discussions of anatomy philosophy science critical theory history of medicine and literary studies to argue that concepts of vital force served as powerful vehicles to interrogate the possibilities and limits of corporeality Paying close attention to how the body's capabilities were conceived and strategically woven into critiques of modernity Fernández Medina engages the work of Miguel Boix y Moliner Martín Martínez Diego de Torres Villarroel Sebastián Guerrero Herreros Ignacio Marañón Ruiz de Luzuriaga Gaspar Melchor de Jovellanos Pedro Mata y Fontanet Angela Grassi Julián Sanz del Río Miguel de Unamuno and Pío Baroja among others Drawing on extensive research and analysis *Life Embodied* breaks new ground as the first book to address the question of vital force in Spanish modernity

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book Marañón Fernández uses the concept of cosmopolitanism to explore this important aspect of Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fernández presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fernández organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity

Nuclear Desire Shampa Biswas, 2014-09-01 Since its enactment in 1970 the Nuclear Non Proliferation Treaty NPT has become one node of a massive sprawling multibillion dollar regime that is considered essential to slowing the proliferation of nuclear weapons and weapons technology However according to Shampa Biswas these well intentioned efforts to halt the spread of nuclear weapons deflect attention from a hierarchical global nuclear order dominated by powerful states and capitalist interests that benefit from the status quo In *Nuclear Desire* Biswas proposes that pursuit and production of nuclear power is sustained by this unequal global order whose persistent and daily harmful effects are experienced by some of the most vulnerable bodies around the world Making a compelling case for nuclear abolition she shows that the path to nuclear zero is more successfully traversed through the perspective of postcolonialism and the political economy of injustice rather than through the prism of security In the end the nonproliferation regime maintains a hierarchy of haves and have nots one that reinforces inequalities that run counter to the NPT's broader goal Innovative forcefully argued and long overdue *Nuclear Desire* moves beyond conventional critiques to give scholars and students of international relations new insights into how a more secure world might

simultaneously be more peaceful and just

Arts of Perception Jeremy Robbins, 2013-05-13 *Arts of Perception* offers a new account of a key period in Spanish history and culture and a fundamental reassessment of its major writers and intellectuals including Gracián Quevedo Calderón Saavedra Fajardo Lope de Vega and Sor Juana Reading these figures in the context of European thought and the new science and philosophy the study considers how they developed various arts of perception complex perceptual strategies designed to overcome and exploit epistemic problems to enable an individual to act effectively in the moral political social or religious sphere The study takes as its subject the distinctive epistemological mentality behind such arts of perception This mentality was fostered by the creative interaction of scepticism and Stoicism and found expression in the key concepts *ser parecer* and *engaño desengaño* The work traces the emergence development and impact of these concepts on Spanish thought and culture As well as offering new interpretations of specific major figures *Arts of Perception* offers an interpretation of the mentality of an entire culture as it made the fraught transition to intellectual modernity As such it ranges over numerous discourses and formative contexts and provides a wealth of new material which will be of use to all those seeking to understand and interpret the literature culture and thought of Golden Age Spain This book was

previously published as a special issue of *The Bulletin of Spanish Studies* **Pictured Politics** Emily Engel, 2020-03-23 The Spanish colonial period in South America saw artists develop the subgenre of official portraiture or portraits of key individuals in the continent's viceregal governments Although these portraits appeared to illustrate a narrative of imperial splendor and absolutist governance they instead became a visual record of the local history that emerged during the colonial occupation Using the official portrait collections accumulated between 1542 and 1830 in Lima Buenos Aires and Bogot as a lens *Pictured Politics* explores how official portraiture originated and evolved to become an essential component in the construction of Ibero American political relationships Through the surviving portraits and archival evidence including political treatises travel accounts and early periodicals Emily Engel demonstrates that these official portraits not only belie a singular interpretation as tools of imperial domination but also visualize the continent's multilayered history of colonial occupation The first stand alone analysis of South American portraiture *Pictured Politics* brings to light the historical relevance of political portraits in crafting the history of South American colonialism *Zen Living* Domyo Sater Burk, 2014-01-07 In today's fast paced technology laden society it's easy to become overwhelmed People seek calm and simplicity but have a hard time realizing a Zen life Monk and sensei Domyo Sater Burk illustrates how to get started on the path to peace and enlightenment regardless of cultural or religious affiliation You'll learn the foundation and essential teachings of Zen practice how to engage in meditation and mindfulness and how to live daily within a Zen moral code

Adapting Cecilia, Cuba's Iconic Mulatta Lucy Harney, 2025-09-26 This project explores the expanding corpus of texts and artifacts inspired by Cirilo Villaverde's most well known literary character Cecilia Vald's Drawing on adaptation studies and related transmedia approaches the book examines how and why this iconographic complex centered on the mytheme of a disaffected mulatta striving for a better life has generated such a remarkably persistent proliferation of multi media instantiations Chapters address topics and themes central to the interests of Villaverde scholars as well as to Cubanists and Latin Americanists more broadly such as gender and sexual roles race and hybridity cultural and national identity and in general colonial and post colonial social contexts in Cuba **Imagining Identity in New Spain** Magali M.

Carrera, 2010-01-01 Using an interdisciplinary approach that also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized Winner Book Award Association of Latin American Art 2004 Reacting to the rising numbers of mixed blood Spanish Indian Black African people in its New Spain colony the eighteenth century Bourbon government of Spain attempted to categorize and control its colonial subjects through increasing social regulation of their bodies and the spaces they inhabited The discourse of *calidad* status and *raza* lineage on which the regulations were based also found expression in the visual culture of New Spain particularly in the unique genre of casta paintings which purported to portray discrete categories of mixed blood plebeians Using an interdisciplinary approach that

also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized She explains how these visual practices emphasized a seeming realism that constructed colonial bodies elite and non elite as knowable and visible At the same time however she argues that the chaotic specificity of the lives and lived conditions in eighteenth century New Spain belied the illusion of social orderliness and totality narrated in its visual art Ultimately she concludes the inherent ambiguity of the colonial body and its spaces brought chaos to all dreams of order
