**Israeli-Palestinian Conflict** Giulia Daniele, 2014-04-16 Women Reconciliation and the Israeli Palestinian Conflict explores

the most prominent instances of women's political activism in the occupied Palestinian territories and in Israel focussing primarily on the last decade. By taking account of the heterogeneous narrative identities existing in such a context the author questions the effectiveness of the contributions of Palestinian and Israeli Jewish women activists towards a feasible renewal of the peace process founded on mutual recognition and reconciliation. Based on feminist literature and field research this book re-problematises the controversial liaison between ethno-national narratives, feminist backgrounds and women's activism in Palestine/Israel. In detail the most relevant salience of this study is the provision of an additional contribution to the recent debate on the process of making Palestinian and Israeli women activists more visible and the importance of this process as one of the most meaningful ways to open up areas of enquiry around major prospects for the end of the Israeli-Palestinian conflict. Tackling topical issues relating to alternative resolutions to the Israeli-Palestinian conflict, this book will be a valuable resource for both academics and activists with an interest in Middle East Politics, Gender Studies and Conflict Resolution.

*The Palestinian-Arab Minority in Israel, 1948-2000* As'ad Ghanem, 2012-02-01 2001 CHOICE Outstanding Academic Title. As'ad Ghanem provides a comprehensive description of the political development of the Palestinian Arab minority in Israel and also discusses their social, cultural and economic experiences. Covering two main aspects of politics, the different manifestations of politics and the dilemmas created by these politics, he presents the predicament of the Palestinian Arab minority in Israel which derives from the ethnic character of the State of Israel and their isolation from other Palestinians and proposes the Israeli-Palestinian bi-national state as a suitable resolution not only for this problem but also for the main Palestinian-Israeli conflict.

Shafir, 2018-02-13 The New Israel Peacemaking and Liberalization argues that the ongoing Israeli Palestinian peace process will be expedited by increased economic liberalization Israel has undergone dramatic economic change in the 1990s shifting from a strongly protectionist state centered economy to a more international neoliberal one The book maintains that these fundamental changes have in turn transformed Israeli society as a whole resulting in a significant moderation of attitudes toward the Palestinian people and Palestinian nationalism The New Israel contains contributions from both established Israeli sociologists and promising young scholars The New Israel Peacemaking and Liberalization is an insightful commentary on one of the most crucial international issues of our time **Congressional Record , Palestinian**

**Ethnonationalism in Israel** Oded Haklai, 2011-06-15 Arabs make up approximately 20 percent of the population within Israel's borders Until the 1970s Arab citizens of Israel were a mostly acquiescent group but in recent decades political activism has increased dramatically among members of this minority Certain activists within this population claim that they are a national and indigenous minority dispossessed by more recent settlers from Europe Ethnically based political organizations inside Israel are making nationalist demands and challenging the Jewish foundations of the state Palestinian Ethnonationalism in Israel investigates the rise of this new movement which has important implications for the Palestinian Israeli conflict as a whole Political scientist Oded Haklai has written the first book to examine this manifestation of Palestinian nationalism in Israel Drawing on extensive fieldwork and interviews with key figures Haklai investigates how the debate over Arab minority rights within the Jewish state has given way to questioning the foundational principles of that state

This ground breaking book not only explains the transitions in Palestinian Arab political activism in Israel but also presents new theoretical arguments about the relationship between states and societies Haklai traces the source of Arab ethnonationalist mobilization to broader changes in the Israeli state such as the decentralization of authority an increase in political competition intra Jewish fragmentation and a more liberalized economy Palestinian Ethnonationalism in Israel avoids oversimplified explanations of ethnic conflict Haklai s carefully researched and insightful analysis covers a neglected aspect of Israeli politics and Arab life outside the West Bank and Gaza Scholars and policy makers interested in the future of Israel and peace in the Middle East will find it especially valuable
